Requester Name	Organization	Received Date	Closed Date	Request Description
Fronckowiak, Julie	FOIA Group, Inc.	12/14/2011	-	Appeal, or in the alternative request for reconsideration. You indicate unit prices must be disclosed pursuant to FAR 15.503, then convert make a argument that they cannot because they are cost breakdown information, profit. This rationale is inconsistent with the simple fact are unit prices, of aggregated amounts, that do not reveal cost breakdown profit. We also ask you reconsider this decision relevant to the state pricing, I refer you to the recent and successful USAF case at Boeing U.S. Dep't of the Air Force, No. 05-365, 2009 WL 1373813 (D.D.C. 2009) One other item, your letter states this info was voluntarily submitted that is not correct, and the courts have held for some time that cost submissions in response to RFP are required, and therefore receive protection under the FOIA.

Even the most scholarly examination "military option" that are available to the public were not conducted trained in military planning, logistics, or doctrine, so there is a serious information on whether the option is a viable tool of national policy unlikely to work that it can only be used as a last resort, or complete and unworthy of serious consideration. Release of these documents elevate the discussion, reducing the chances of ill-considered choices.
