2011-00025-A	Kelley, Richard	Independant News	1/7/2011	-	Initial request was submitted to HQ AFOSI. On 5 Nov 10, a letter response cited a new tracking case # 2011-FOIA-00063 by HQ AFOSI/XILI. Stated in correspondence that file was not releasable because of 5 USC 552 (b)(7)(a), the file is not releasable to you at this time, because it could reasonably be expected to interfere with enforcement proceedings. Request SAF to intercede on releasability of the requested documents since there was no personnel enforcement action(s) were taken prior to officer being released to the Temporary Disability Retirement List (TDRL), during the period of the TDRL, and to date, since returning to active duty. In fact, subject officer has been assigned to high profile duties which comes into contact with Washington DC dignitaries if under "enforcement action." In fact, this officer ran officially as the two time AF Marathon representative at two races after her placement on TDRL. It is the view of the undersign and others that this is another stall tactic whether intentional or not by some in the AF hierarchy. Some have concluded that HQ AFOSI is trying to run screening patterns for one of its own since Major Metzger is related to Kelly and Josh Mayo, AFOSI agents. Statements to Stars and Stripes, "The FBI closed its investigation into the incident a year ago, said Lindsay Godwin, a public affairs specialist with the FBI Washington Field Office." October 29, 2010 "In her new job, Jill Metzger will work with some high-visibility programs in the nations capital, according to Stefanek, such as the annual Air Force Cycling Classic, the Wounded Warrior Program and the military funeral honors program at Arlington National Cemetery, LtC Ann Stefanek said." USAF PAO to Stars and Stripes, Oct 29, 2010 I won't go into all the AFIs and DOD regulations, but I'm sure there are experts on SAF staff that can look up the data points to determine if there was an opportunity to take punitive action it would have precluded certain personnel actions from occurring. But the dilemma is why

2011-00168-F	Cart, John	-	10/8/2010	10/14/2010	This request concerns recently dismissed fraud, waste, and abuse complaint (78 ABW/IG case file number 2010-08814). Since related Air Force programmatic losses continue, with catastrophic losses still pending, I am still obligated by laws and regulations (e.g., AFI 90-301) to make adjustments and try another resolution path. So I need to thoroughly study the case file to determine specifically what rendered my complaint baseless, and specifically what substantiation criteria would have sufficed. For that purpose, and in accordance with the Freedom of Information Act and the Privacy Act, I request a complete copy of 78 ABW/IG case file number 2010-08814, with protected information redacted, and with the source of protection that applies to each redaction cited.

2011-00271-F	Cart, John	-	10/15/2010	11/23/2010	This request concerns recently dismissed fraud, waste, and abuse complaint (78 ABW/IG case file number 2010-08814). Since related Air Force programmatic losses continue, with catastrophic losses still pending, still obligated by laws and regulations (e.g., AFI 90-301) to make adjustments and try another resolution path. So to thoroughly study the case file to learn specifically what gathered and analyzed information, and what rationale based on that information, rendered the conclusion that complaint is baseless. And from what the case file reveals, need to determine specifically what substantiation criteria would have sufficed. For that purpose, and in accordance with the Freedom of Information Act and the Privacy Act, request a redacted copy of 78 ABW/IG case file number 2010-08814, including a list citing the purpose of any documents or other recorded information for which copies are withheld.

(sls) Please confirm the allocation of those funds as staled above or the correction ofabove. b.Although there was not a documented USAF requirement or specification for a new or modified B-2 seat at the time of the Congressional allocation, funding was now available to improve the safety and reliability for our aircrews. In good faith, Industry responded to USAF Sources Sought and Market Research on B-2 seat options, expecting a chance at a fair and open competition. The USAF actually retracted its intent to go Sole Source on this effort and indicated they would compele this effort. To date, the USAF has not updated Industry on its intent and the only information that can be obtained from the Program Office at Wright-Patterson APB is to submit multiple Freedom of Information Act requests. Is there currently a B-2 seal Improvement Program or any USAF ejection seat improvement program'? c.Please provide Program element (PE) commitment history from PE NUMBER: 0604617F PE TITLE: Agile Combat Support for the FY-09 S\$5.6M and FY 10 \$1.9M for B-2 and F-35 Joint Strike Fighter (JSF) ejection seat funding, to include CAD PAD task. d.Please provide a copy of the GoodrichiUSAF IDIQ contract and its funding history -Ref ; F A8904-07 -D-I I 10 -ACES CFD contract number Goodrich IAIP contractor e.Please provide a copy of the new B-2 aircraft Ejection Seat Performance Requirement and Specification and US Air Force Requirements used to justify a replacement ejection scat

2011-00492-F	Kelley, Richard	Independant News	10/29/2010	11/5/2010	Several news agencies confirmed that Special Agent Kelly Mayo made an on-the-air statement that fellow agents from the Air Force Office of Special Investigations (AFOSI) were investigating the abduction of his daughter-in-law, Major Jill Metzger at the abduction site. Later, Captain Joshua Mayo in an interview with the Denver Post reported that his wife spoke to him briefly and couldnt go into detail because she was told the matter was under investigation. HQ USAF PAO several times made reference to several news agencies that the matter was under joint-investigation by the Department of Justice, i.e. FBI and AFOSI. Requests for information to DOD, SECAF, Moody AFB PA, HQ USAF, HQ AFOSI and Department of Justice were denied because the matter was still under investigation. During that time, it was reported that Major Jill Metzger was subpoena by a federal grand jury, failed a polygraph examination(s) and placed on the Temporary Duty Retirement List. As of 1 October 2010, information has come to light that Major Metzger has now returned to active duty and it is assumed that the investigation closed. Request the Air Force Office of Special Investigation release its findings, conclusions, and recommendations it made to DOD or DOJ regarding Major Jill Metzgers reported abduction in Kyrgyzstan.

2011-00804-F	Johns-Mabry, Lee	916th Aerospace Medicine Flight	11/16/2010	-	requesting the entire narrative record of PEB resulting in an unfit determination and reason/rationale for denial of participation waiver, after being requested by commander and other flight surgeons. Also the rationale and narrative regarding LOD submission in 2008 for aerosolization exposure to anthrax vaccine caused Transverse Myelitis due to an autoimmune response to the exposure. This resulted in a LOD - EPTS N/A. There is no record of Transverse Myelitis anywhere in medical record that states had this prior to service. Congressional Investigation on the LOD determination, which then results in the PEB determination. No actual hands on physical by a Air Force Neurologist has been given to make this determination. Never missed a single training day or Annual Tour since this occurrence.

2011-00946-F	Fessier, Ken	-	11/23/2010	1/24/2011	On 22 Oct 2010, was at the AMC Terminal attending a space-A roll call when was falsely accused of using inappropriate language. Since that time, was placed on a temporary 24-hour no-fly list, experienced informal retaliatory action (such as being denied space-A travel), and there have been rumors circulating around the Travis AFB community. To further complicate the matter, Travis AMC officials did not report this matter to the Military Equal Opportunity Office, suggesting the matter was handled in an "in-house" manner. On 14 Nov 2010, returned to Fairfield, CA (which is near Travis AFB), after a two-week trip to Asia and have not heard or seen anything in writing about this incident. Shortly after returning from vacation, detected odd patterns of behavior (both verbal and nonverbal) from people know on base, which suggested they were aware of involvement in the incident at the AMC Terminal. They're behavior of either confronting or refusing to acknowledge has impaired relationships with them. Therefore, wish to challenge this false accusation by acquiring any data on whether it be paper-based or electronic, which makes reference from the following organizations: 60 APS (AMC Terminal & Other Offices within this squadron). Copies of any emails, letters, messages, post-its which make reference. 60 AMW/JA (Legal Office). Copies of signed statements alleging used inappropriate language. 60 CS (Comm Center). Copies of any messages concerning this matter; specifically a copy of the message laying on the counter behind the AMC Terminal counter with approximately 10 lines of text and name highlighted in orange at the buttom of paragraph. HQ AMC/A4. Copies of any emails, letters, messages relating to this matter.

2011-01010-F	Retallick, Michael	Elbit Systems of America	11/30/2010	12/2/2010	Purpose: To provide information to AMC/CC using enhanced and synthetic vision systems combined with a head-up-display to assist Mobility Air Forces (MAFs) with self contained approach and landings to austere airfields under adverse weather conditions. This FOIA request is part of an analysis to combine weather penetration capability associated with APOE/APOD access, safety, training and cost savings. Background: At the Airlift Tanker Association conference, Oct 2010, Gen Ray Johns expressed interest to learn more about emerging commercial-off-the-shelf technologies that will assist MAFs. Through FOIA channels last year, I obtained AMC Weather Delay information from 1 Sep 2008 - 31 Aug 2009 (see attached). Specifically for the C-17, there were 259 airfields which experienced a total of 3,155 sorties and 7,599 hours of associated weather delays. Unfortunately, the data does not breakout the specific weather delays due to winds, ceiling, visibility or thunderstorms. Analysis: I f possible, request historical weather information (ceiling and visibility) for each of these 259 C-17 airfields. I would also be interested in any Airfield Suitability Studies that may be releasable for APOE/APOD planning where weather is identified as a critical factor. For example, xx APODs have ILS mins of 200-1/2 and x APODs lose x days/year due to weather below mins, or xx APODs have ILS mins > 200-1/2 but < 400-3/4 and x APODs lose x day/year due to weather below mins.

2011-01089-F	Svitojus, Aurimas	-	12/6/2010	12/8/2010	In 1945 General Douglas MacArthur established an unusual unit. It was called "Interplanetary Phenomenon Unit". According Col. William Guild (please look to attachment) the records of this unit were transferred to AFOSI. Former AFOSI agent Rudolph M. Schellhammer (now deceased) revealed that IPU (Interplanetary Phenomenon Unit) files were transferred in 1962 to AFOSI. I know that some researchers made FOIA requests and asked those records in the past. They were told by AFOSI that IPU records have been destroyed. I would like to know and request: How AFOSI determined that IPU records have been destroyed? I am requesting any document/log which confirms when those records have been destroyed. Also please review a log for records which were transferred to AFOSI in 1962. If exists, I would like to request a copy of document/log which indicates about transferring of IPU records to AFOSI.

2011-01145-F	Paine, Mark	-	12/7/2010	12/17/2010	requesting copies of all information maintained by the 31st Fighter Wing Inspector General office that relates to me. This includes information in finished reports as well as all other information. I am requesting all information regarding myself, including information that I provided as well as information provided by other people or obtained from other sources. The timeframe that I am requesting records from is 27 Aug 2007 to the present. I was interviewed by the 31 FW IG on 24 Nov 2008, 26 Nov 2008, and again on 30 June 2009. The interviews in Nov 2008 were not recorded on audio tape, but there should be documentation that relates to those meetings. I already received a copy of the testimony from 30 Jun 2009 and do not need another copy. Again, I am requesting this information under both FOIA and the Privacy Act. If any information is denied, please cite the specific exemption that you feel justifies the refusal to release the information and notify me of appeal procedures available to me under the law. Each piece of information that is denied will likely require separate citations under both FOIA and the Privacy Act... because, for example, FOIA may allow denial but the PA may still require it to be disclosed. If it will be easier to process, please feel free to provide duplicate copies of the information, one with partial denials (if cited) under FOIA and the other with partial denials (if any) cited under the PA.

2011-01227-F	Huber, David	-	12/10/2010	1/30/2011	request the following documents: 1. CSAF memorandum to Senate Armed Services Committee (SASC) -- CSAF has authored a memorandum to the SASC regarding his endorsement of Major David Huber's pending promotion from Major to Lieutenant Colonel (Major Huber was selected for promotion via promotion board P0150A with line number 267). I request the CSAF's memorandum to the SASC. 2. Staff documents leading to the memorandum (i.e., the Staff Summary Sheets with their attachments). The memorandum likely was part of a staff summary sheet (or similar staffing document) from a subordinate office (or many offices, perhaps). I request all staff work leading to the final signed memorandum. 3. E-mail or other written correspondence/documentation leading to the decision/necessity to author this memorandum. That is, a staff member residing in SAF/LL reportedly raised Major Huber's name when the promotion list was being assembled for higher level review/approval.

2011-01330-F	White, Clarence	72 Operations Support Squadron, Tinker AFB, OK	12/15/2010	-	The request is for aviation units stationed at Tinker AFB to include the 507th Air Refueling Wing, 552 Air Control Wing, 76th Maintenance Wing, Oklahoma City Air Logistics Center, and Navy STRATCOMWINGONE. Please email results/questions to fzjunior@yahoo.com 1. For the period of 1 Jan 2009 through 30 November 2010. What is the average cost in US dollars your unit incurred each time severe thunderstorms were forecasted and DID NOT occur? Please include only costs incurred above normal fixed operating costs, in order to isolate the financial impact of severe thunderstorms. Costs should reflect additional expenses such as fuel, lost man-power, lost maintenance, per diem for personnel as the result of aircraft divert. 2. For the period of 1 Jan 2009 through 30 November 2010, what were the real costs your unit incurred by severe storm activity expressed in US dollars. These costs exceed normal operating costs and include but are not limited to: aircraft damage and lost man-power. If possible please list dates accompanying each loss due to severe thunderstorm activity. For example, on 16 Jul 2009 our unit lost 1.2M dollars in aircraft damage and 40K dollars in lost production. Following is some background information that may facilitate the data request. Severe thunderstorms are thunderstorms with convective surface wind gusts greater than or equal to 50 knots, have hail greater than or equal to ¾ inches, or produce tornados. Following are dates when weather watches and warnings were issued for severe thunderstorms at Tinker Air Force Base in an effort to provide history to the units requesting data from. On the following dates a weather watch was issued for severe thunderstorms at Tinker Air Force Base: 2009 (10 Feb, 10 Mar, 23 Mar, 30 Mar, 12 Apr, 18 Apr, 27 Apr, 1 May, 13 May, 16 May, 9 Jun, 13 Jun, 16 Jul, 21 Jul, 29 Jul, 30 Jul, 3 Aug, 18 Aug, 21 Sep, 6 Oct and 8 Oct) & 2010 (6 Apr, 22 Apr, 30 Apr, 10-12 May, 16 May, 19 May, 31 May, 1 Sep, 3 Sep, 10 Sep, 14 Sep, 11 Sep and 22

2011-01362-F	Kopecky, John	-	12/16/2010	1/14/2011	I'm looking for video of a speech given by (at the time) Brig. Gen Mark Welsh to the Cadets at the Air Force Academy when he was commandant. I believe the speech was given in the Fall of 1999 or Spring of 2000. The text of the speech in question is linked below. This should help identify the speech I'm looking for. http://www.sflistteamhouse.com/Freedom/speech/speech_to_cadets.htm As I was a cadet at the time and watched the broadcast from Arnold Hall in my dorm room I know it was broadcast over the local network and I would assume it was recorded. If a video tape or at least an audio recording of this speech is still in existence I would like to get a video copy (in electronic form would be acceptable) for a project I am working on. This is my first ever FOIA request, I apologize if I don't have the details down to a science and would appreciate whatever assistance can be given to me to help fulfill this request.

Information on this contract follows: Solicitation Number: HC1047-05-D-4005 Synopsis: This is a notice of the Government's intent to extend the period of performance and increase the contract dollar value for the current Reliability Information Analysis Center (RIAC) contract. The contract is scheduled to expire 20 June 2010. The intent is to extend the present performance period up to two years from 21 June 2010 through 20 June 2012. If executed, the estimated value of the contract will be increased by \$538M. The Government intends to negotiate with the incumbent contractor, Wyle Laboratories, on a sole-source basis. This extension will permit the continuation of performance of the current RIAC contract while the requirement is recompeted. RIAC is a non-commercial, Cost-Plus-Fix-Fee, Requirement, Research and Development contract that was awarded on a competitive basis. This is neither a Request for Proposal nor a solicitation of offers. A determination by the Government not to compete this requirement based on responses to this notice is solely within the Government's discretion. Information received by close of business 2 December 2009 will be considered by the Government solely for the purpose of determining whether to conduct a competitive acquisition.

The company released the following statement: "This B-52 modernization contract will include several delivery orders over an eight-year period. The Air Force announced a contract ceiling of \$11.9 billion. This is a contracting vehicle that will allow engineering sustaining contracts, studies, production and other activities to occur in support of the B-52. No funds were committed with this contract announcement. We expect our first delivery order to be awarded on Sept. 30." Boeing has been maintaining and modernizing the B-52 bomber for 55 years -- including engineering services and upgrades to communication technology -- allowing the B-52 to remain a relevant weapon system in support of military missions around the world.

2011-02481-F	Swygert, Scott	Lend Lease	2/11/2011	-	requesting all releasable information regarding the following documents: Air Force Lodging Right Sizing study approximate date 2008 - 2009 11 Project Validation Assessments approximate date 2009 - 2010 The results of the Air Force Lodging Right Sizing study provided a roadmap for future recapitalization of lodging facilities worldwide. The study provided Air Force Inns with a prioritized listing of candidates for new construction based on occupancy levels, facility condition and the amount of traffic sent off the installation. Based on Right Sizing results, we conducted 11 Project Validation Assessments this year to independently validate findings of the study and verify new lodging construction needs. The study results are being used as a tool to make recommendations to the Air Force non appropriated fund (NAF) construction facility panel on where to best invest for future Inns and family lodging facilities.

2011-02493-F	Powell, Brett	98th Bombardment Group Veteran's Assoc.	2/14/2011	3/29/2011	looking for records pertaining to the 98th's operations in WWII from 1942-1945. This would include ops reports for the unit as well as any individual squadron reports (343rd, 344th, 345th & 415th) including history/war diaries, sortie reports, mission reports, etc. My objective is to catalog and analyze all such files, in particular each mission and data associated with it, and make them available as searchable and downloadable information for all former and current 98th BG unit members and their families (as well as others) to locate and enjoy. All reasonable and non-classified materials will be appreciated. I have spent a fair amount of time at the National Archives in College Park, MD obtaining as much information as I can - and feel I have nearly exhausted that resource so am looking for more data. I have 3 reels of microfilm from a former enlisted 98th member who told me that it came from Maxwell and that there was a great deal more available.

"The attached article mentions nearby residents were upset to learn that soil from the base that had been contaminated with 11 ounces of plutonium as a result of the missile fire in 1960 would be moved through their towns. A revised transportation route was developed, and by 2004, 22,000 cubic yards of soil had been hauled away, though Sgt. Danielle Johnson, a base public affairs officer, said hydraulic fluids from launchers and some low-level radiological contamination would be removed later this year." 2011-02537-F	Morkan, Thomas	US Coast Guard Sector Boston	2/15/2011	-	all reasonable information related to the management and operation of privatized housing at Hanscom Air Force Base, MA. I have researched the Air Force Regulations (specifically AFI32-6001/6007) which provide detailed information regarding how privatized housing is to be run on an Air Force base but both the privatized housing office and AF Flight Chief have quoted information from what they referred to as "transaction documents" that they would not provide me a copy of nor which is posted online. As a resident of Hanscom, I have not been provided written documentation which allows the privatized housing office to operate in the manner they do (rent prices, breaking leases, forced moves, initial home placement) and have been told that these documents require them to do so. Housing at Hanscom is managed by Hunt-Pinnacle and Hanscom falls under the Falcon Group contract.

2011-02731-F	Snead, James	-	2/24/2011	3/11/2011	In the summer-fall of 2002, a proposed update the U.S. National Space Transportation Policy (not the U.S. National Space Policy) was prepared. The Air Force participated in this process. The proposed draft was completing final departmental coordination and was being readied for sending forward for presidential review and signature at the time of the loss of the Space Shuttle Columbia in Feb 2003. Subsequent to this accident, the 2002 version was dropped and about one year later a new proposed update was adopted. I wish to obtain a copy of the 2002 proposed update to the U.S. National Space Transportation Policy and any pertinent official correspondence that addressed the ending of the 2002 proposed update and defined new direction for the preparation of the subsequent approved policy. At the time, I was a civilian employee of the Air Force at Wright-Patterson AFB working in the Air Force Research Laboratory. I was contacted directly via e-mail from an office at SAF to informally review and provide comments on the 2002 draft. This was in the fall of 2002.

2011-02875-F	Collins, Corey	MasTec, Inc.	3/2/2011	3/30/2011	request that a copy of all Air Force Feasibility Studies performed in fiscal years 2009 and 2010 concerning biomass energy be provided to us. The studies were conducted nationwide to identify renewable energy opportunities. These studies were referenced in a recent Air Force Civil Engineer Support Agency Newsletter believed to have been published in December of 2010. We have attached a copy of the newsletter in hopes it will assist in locating the documents. We believe these studies are not classified and are possibly in the possession of Air Force Energy Center and/or the Air Force Civil Engineer Support Agency at Tyndall Air Force Base in Florida. We believe the studies were commissioned by the Air Force Civil Engineer Support Agency, Energy Rates and Renewables Branch. We believe these studies are part of the public record. Releasing these studies will help further the Air Forces goal of developing biomass projects through third party investments that will generate electricity that is renewable, at rates competitive or cheaper than current grid rates. If the studies may not be released in their current form, we will accept redacted versions if the redactions are necessary and do not render the studies unresponsive to our request.

2011-02901-F	Gould, Joe	-	3/7/2011	3/7/2011	request access to and copies of the Army's contingency plan for a government shutdown, limited to documents with dates since November 1, 2010. More specifically, we are interested in the Armys planned response to the expiration of the recent Continuing Resolution, without a new Congressional budget or a new Continuing Resolution. I would like to receive the information in electronic format. I agree to pay reasonable duplication fees for the processing of this request. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the looming federal government shutdown's effect on the military that is of current interest to the public because such a possibility is imminent. This information is being sought on behalf of Army Times for dissemination to the general public. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

2011-02933-F	Kennedy, Jamie	-	3/7/2011	-	requesting the list chemical used during maintenance procedures in Armament back shop 354th MXS/MXMR at Eielson AFB, Alaska. I served from Dec 2002-Sept 2006 working between the floor working both F-16s and A-10s, support and in the training office. Starting late summer/ early spring of 2003 I started to become very ill some of the illnesses was explained before I was honorably discharged from the Air force while others were not. Since the symptoms started they have gradually grown worse and worse to the point where my ADLs (Active Daily Living) has been greatly affected. I am unable to attend to my studies towards my Masters degree in Occupational Therapy, towards my family, my home and to my self. I am requesting to have either the past list and NSNs of chemical used during my time or if that list is unavailable to receive the current list which should maintain at least 75-99 percent of the chemicals I used during maintenance. The list should be able to be found located on the supports computers; they are also required to have a book in front of the support counter containing every chemical located in support. This list will help my Doctors to rule out the source and cause of my symptoms, along with help find the proper diagnosis. This information will not be used to go against the Military, provided to the media or be used to cause harm to the military. I am able to provide further explanation if required.

2011-02938-F	McClanahan, Kel	National Security Counselors	3/7/2011	3/10/2011	copies of a representative sample of 100 initial acknowledgement letters sent to FOIA requesters from October 2009 to the present. This request is only for initial acknowledgement letters, not for the requests themselves or for any subsequent correspondence. By representative sample, we mean that the letters sent to us should cover as much of the time period as possible--i.e., some letters from October 2009, some letters from November 2009, some letters from December 2009, and so forth for the time between October 2009 and March 2011. Each month does not have to be equally represented; we only request approximate samples, although we do request that each month be relatively equally represented, with approximately 5-7 letters per month. Because of the low number of responsive records and the relative ease with which you should be able to locate them, we do not see a need at this point to request news media status or a public interest fee waiver. These records are for research purposes into your agency's FOIA practices and not for any commercial purpose. If you anticipate the need to charge us any money for this request, please contact us and we will file the appropriate fee category and waiver requests. We request that any documents or records produced in response to this request be provided in electronic (soft-copy) form wherever possible. Acceptable formats are .pdf, .doc, .jpg, .gif, .tif.

2011-03262-F	Nazario-Sierra, Emilio	US Army	3/21/2011	3/21/2011	The Roswell UFO Incident was the alleged recovery of an extra-terrestrial spacecraft, including alien pilots, from an object that crashed approximately 75 miles from Roswell, New Mexico, in June or July 1947. Since the late 1970s the incident has been the subject of intense controversy and the subject of conspiracy theories as to the true nature of the object that crashed. The United States military maintains that what was actually recovered was debris from an experimental high-altitude surveillance balloon belonging to a classified program named "Mogul";[1] however, many UFO proponents maintain that in fact an alien craft and its occupants were captured, and that the military then engaged in a cover up. The incident has turned into a widely known pop culture phenomenon, making the name Roswell synonymous with UFOs. It ranks as the most publicized and controversial of alleged UFO incidents.[2] On July 8, 1947, Roswell Army Air Field (RAAF) public information office in Roswell, New Mexico, issued a press release[3] stating that personnel from the field's 509th Bomb Group had recovered a crashed "flying disc" from a ranch near Roswell, sparking intense media interest. The following day, the press reported that Commanding General of the Eighth Air Force stated that, in fact, a radar-tracking balloon had been recovered by the RAAF personnel, not a "flying disc." [4] A subsequent press conference was called, featuring debris from the crashed object, which seemed to confirm the weather balloon description. In response to these reports, and after congressional inquiries, the General Accounting Office launched an inquiry and directed the Office of the Secretary of the Air Force to conduct an internal investigation. The result was summarized in two reports. The first, released in 1995, concluded that the reported recovered material in 1947 was likely debris from a secret government program called Project Mogul, which involved high altitude balloons meant to detect sound waves generated by Soviet atomic bomb

I was deployed to Balad AB/LSA Anaconda, Iraq from May 06 to Sept 06. During this time we were attacked continuously with rocket/mortar fire during my deployment there. I was also deployed to Kandahar, Afghanistan from Nov 07 to Apr 08 and we were attacked several times during that deployment also. I am looking for documented proof of these attacks so it will assist in my claims actions. HQ AFPC needs some type of documented proof that there was actual rocket/mortar attacks during the timeframe listed above. I know that most of this information may still be listed as an classified nature but I do hope that there is some information out there listing these rocket/mortar attacks that is a part of public records. Any documented info you can provide would be greatly appreciated.
