2011-05225-F	Harasim, Patrycja	-	6/21/2011	-	I am studying at Polish National Academy of Defence. Well, I have finished studies, but I still have to write my thesis. I am a big fan of USAF and I wanted to write something about using transport aircrafts in US Special Forces, but my promoter turned it into "Air Force Special Operations Command" and requested 75 pages with three chapters. First one about AFSOC's mission, Second about its structure and organisation, and the third, biggest one I presume, about its equipment (mostly aircraft and their usage). I have tons of books about aircraft, but you providing me some information about specified versions of aircraft used by AFSOC wings (even the technical information) it would be great. Also, if they're not classified, some info about some old missions including AFSOC aircraft would be also very helpful.
