In addition, I would like any information such as notes, which (b)(6) has, and the names of (b)(6) commander at Tyndall, and the commander who issued the no-contact order. (b)(6) lost (b) job at Tyndall and returned to CO. His former commander gave (b)(6) previous job back. (b)(6) was forced to retire, Dec. 31, 2011. In January, we moved to Panama City. This information is crucial to my divorce case, as well as the criminal case (b)(6) has pending in FL. I am willing to pay $50.00 for any information. (b)(6) has been court ordered to pay maintenance and other things, but (b)(6) is not complying. I have not worked most of the marriage, so I am living off my savings. Could you please enter this information in the system for me and email a copy? Thanks in advance for this information. Sincerely, (b)(6) (b)(6) (b)(6) (b)(6)

2012-03063-F	Mahoney, Jed	Counter Group	04/03/2012	04/05/2012	This FDIA request is to add clarity to a FOIA request which I believe was assigned on March 31, with Case Number : 2012-03005-F. My former request was for identification of the water main pipes used on Kirtland AFB. Meaning the type that was installed from its original creation until approximately 1980. I have recently been made aware of a "master plan" of potable water for the Kirtland AFB which identifies the type of pipe used. This master plan is used by the civil engineering office to identify leaks. In addition to clarifying my previous request, I am also trying to secure a copy of 2006 document titled "Survey for leak Detection" produced by Clifford Richardson. This survey identified leaking pipes at the Kirtland AFB in 2006.
2012-03064-F	Mahoney, Jed	Counter Group	05/25/2012	05/31/2012	Clarified Request (see attached e-mail dated 4/5/2012): I am seeking the following records: 1. A releasable version of Master Plan of Potable Water, identifying the type of pipe used as water mains on base. It has a GTAB of possibly 1 through 7.I am willing to accept documents with redacted information. 2. Leak Detection and Repair Program Survey, conducted in 2006 by Clifford Richardson. This survey identified leaks within 108 miles of pipe on KAFB, and is identified here: http://www1.eere.energy.gov/femp/pdfs/water_cs_kirtla nd.pdf I am willing to pay any reasonable fee for

					copies of these records, however, if it exceeds $200 please let me know. The records can be sent to this email or if to large, to my mailing address of: Jed Mahoney, Counter Group, 340 Main Street, Suite 835, Worcester, MA 01608. I will be willing to pay for shipping through Federal Express and can provide you with an account number. I am willing to accept documents that are "clearly releasable" that would not require legal review if they provide the information I am looking for.

2012-03090-F	(b)(6)	-	05/11/2012	06/22/2012	I'm requesting a copy of the documents generated by Buckley AFB while investigation the IG complaint filed on (b)(6) (b)(6) at Buckley AFB in the summer of 2010. I know an anonymous allegation was filed with (b)(6) (b)(6) at Buckley Air Force Base in Colorado in June 2010. I was interviewed by the base Judge Advocate concerning the allegations of abusive language, hostile work environment, and abuse of power. I know at least 2 other squadron commanders and my deputy commander were also interviewed. Talking to my peers I know all of the allegations were substantiated and the investigation was documented and delivered to the wing commander. I realize there are FOIA exemptions in place to protect an individuals privacy in these cases, but I believe release of this information is warranted for the following reasons. The abusive and hostile behavior alleged in this complaint had a direct result on the final Officer Performance Report (OPR) of my command tour. Based on my unwillingness to bend to his abusive and illegal behavior, (b)(6) wrote a biased Office Performance Report on me that impacted my latest promotion board. I was passed over for Col in the promotion zone and I am currently assembling a package to have this report removed from my records and the promotion decision reconsidered, because the OPR does not accurately reflect my performance while under his command. The objective assessment of the IG investigation is critical in establishing the nature of (b)(6) (b)(6) leadership. The contents of this IG investigation are material to my request and essential for the board to make an accurate decision regarding the objectivity of my report. For these reasons I respectfully request the documentation from Buckley AFB regarding the IG complaint against (b)(6) be released to me under the FOIA rules to be used in my package to the Board of Correction of Military Records. I am willing to pay any expenses incurred by this request. I can be reached at (b)(6) (b)(6) Thank you for your consideration, (b)(6)

2012-03110-F	(b)(6)	USAF	04/06/2012	05/17/2012	I would like all investigative reports held by the Lackland AFB Judge Advocate General Office or OSI dealing with me for any alleged offenses I may have committed. In addition, I would like any legal opinions, briefs,. police reports or any other substatiating documents attached to those investigative reports. Reason of request is that my ex-wife has alleged numerous accusations against me through official Air Force channels that are criminal offenses. I have been investigated for these allegations for over 2 years and they have all been proven to be unsubstatiated. Many accusations are unknown to me. I believe I have a right ot know what I have been investigated for as I will be seeking relief against my ex-wife through the civilian courts. These documents are vital to proving my innocence. I understnd there are up to 4 boxes of information on me--I will accept a CD if that is more convenient. I am also willing to pay more than $100.00 if paper copies.
2012-03111-F	(b)(6)	USAF	04/06/2012	05/03/2012	I would like all Judge Advocate and OSI investigative reports that were conducted on me from 1 September 09 to present date. I would also like any Security Forces incident reports and Inspector General

					complaints initiated against me during that same time. Reason for request is that my ex-wife, who is employed at the 81 MDG has made numerous criminal and UCMJ violation accusations against me that have all been unsubstantiated and/or found to be without merit. I have civilian court proceedings pending against my ex-wife in order to seek relief. I need these documents to prove that I have been falsely accused of serious crimes and UCMJ offenses. I also believe I have a right to know what I have been accused of since I understand there are up to 4 boxes of legal information on me, and I have little idea of the magnitude of the offenses I've been investigated for. In almost all instances, I have never been questioned by anyone.

Audio files of radio transmissions between the F-22 pilots (as well as between the pilots and the control command) during the the Nov. 16 training mission in which (b)(6) perished from the 15 minutes before the crash to 15 minutes afterwards. The recordings should include (b)(6) last words, described in the investigation report as "Race you to CRUZR" as well as the other pilot's calls to base about him going missing. 2. All audio or video recordings of the interviews conducted by Air Force investigators with the pilots from that mission as well as the mishap pilot's spouse as part of the Air Force Investigation Board's probe of the crash. 2012-03354-F	Jampoler, Andrew	Individual	04/25/2012	07/10/2012	On 17 September 1982, the morning tanker mission for the ELF-1 (European Liaison Force One) orbiting E-3 protecting the oilfields in Eastern Saudi Arabia from attack, took off from Riyadh Military airport. Aboard the aircraft were six observers, members of the Navys Strategic Studies Group, seven captains and one Marine Corps colonel. I was one of the navy officers. Astonishingly, in retrospect, no additional parachutes were loaded on the tanker. The refueling at altitude was uneventful, but rather than the normal post-refueling separation maneuver, the E-3 commander asked to join the tanker off the right wing so the passengers could get some good pictures. The tanker commander (O-6 Rank) approved the formation flight. After several minutes on a collision course the tanker flew into the E-3s left wing with its right wing. The E-3 wing outside of the number one engine broke-off after cutting into the tankers skin and severing the throttle cables. The wing pieces embedded themselves into the tanker fuselage causing a rapid decompression. A break-

					away maneuver was conducted, and the aircraft were able to complete control checks. The tanker landed at Riyadh Military airport with two engines out on the right side, while the E-3 had to dump all the fuel it just received before it was able to land there as well. Id like whatever additional information on this event is available. Thank you for your consideration, Andrew C. A. Lampoler Captain, US Navy (Ret) (b)(6) (b)(6)

2012-03581-F	Angus, John	-	04/13/2012	09/03/2013	Looking for records that pertain to the disappearance of C-54D, serial #42-72469. In particular, any documentation

					relating to a reported sighting of a distress signal in the snow, on or about March 24th, 1950, near Fort Saint John, British Columbia, along the Peace river. This report would've been made by the crew or passengers of a C-47 aircraft that was northbound from Great Falls MT, headed to Fairbanks AK, and would've been made, I assume, upon their arrival at Eilson AFB in Alaska. The RCAF performed the actual search. In addition, I would also like copies of any documentaion relating to a reported sighting of the crashed C-54, made on or about May 15th, 1950. This reported sighting took place on April 22nd, but the service members who acutally saw it didn't report it until May 15th. The report would've been made at Eilson AFB in Alaska, and would've required the help of the RCAF station in Fort Saint John to do the actual search. Please notify me if the anticipated research and copy costs exceed the amount noted below.

2012-03590-F	Scott, Gregory	-	04/17/2012	05/16/2012	I am writing today to request information regarding countries I am able to visit. I was a Missile Launch Officer in the USAF from 1/1992 until 12/1995 and was stationed in Grand Forks, ND. From my understanding, there were nations I could never visit due to the nature of my job. I remember some of them were Cuba and the former Eastern Block Countries. I do not remember the rest of them and am planning a trip to Costa Rica. Any assistance you could provide for me regarding the countries I cannot visit would be greatly appreciated. I can provide you with any other information you might need, just let me know what that is.

I believe the accident was on March 30th, 2012, around 6:15 PM in the shopette parking lot. My vehicle was hit from behind as I was backing out of a parking spot. My vehicle was already about 80% out of the parking spot, when the driver of the other vehicle collided with the driver's side of my rear bumper. I looked both ways before backing out, and as I turned my head to look to the right (passenger) side again, my vehicle was hit. The driver of the other vehicle admitted to not paying attention

					and that she did not see my vehicle while driving forward, due to the fact she was looking for a gas pump to pull into, and was in a hurry to get to Ramstein. I called Security Forces and was told to report to the Security Forces building, with the other driver, to submit a police report.

2012-03755-F	Sternowski, Robert	Softronics Ltd.	05/08/2012	05/14/2012	We would like to offer a plug-in replacement radio for the following legacy AN/ARC-171 equipment types previously manufactured by Rockwell Collins Inc (was Rockwell International Inc. at the time, but CAGE 13499 was consistent across the company name changes). The new radio has already been designed by Softronics and in production, being used in other non-USAF US Government applications. As part of our planning, we wish to determine what the procurement price was for each of these NSNs, perhaps the final 2 or 3 contracts for each. We have no idea how many of each were purchased or in what lots, but understanding the original purchase prices versus quantities would be most helpful in justifying our new replacement radio. Thus we would like to request any contract purchase price history for any/all of these 8 items showing the cost per unit and the purchased quantity; NO OTHER PORTIONS

					OF THE CONTRACT ARE NEEDED OR DESIRED. We believe that this search will require looking at NSN procurement history ranging as far back as 20 years or so. We would be happy to pay for any copies, under Freedom of Information. However, email attachments are fine, we do not require paper. We only require the price/quantity page (or table from that page) out of each applicable contract. We are a veteran-owned, small business. Our company hired 2700 people last year and the growth continues. Generally we hire individuals with I.T., Healthcare, or Business backgrounds. Our biggest challenge right now is finding candidates for our I.T. Openings, this year alone we will hire 600 Software and System Engineers. We have found success in soldiers that have received I.T. Training through the military. A large portion of our business is Data Center services using Unix, Linux, Windows, and Citrix. I am hoping you could let us know which military bases may have the highest concentrations of soldiers that would have this type of training. I have been told by a retired Air Force person that works for the Kansas Unemployment Office that he believes most of the Data Centers for the Air Force are in Colorado but he did not know what bases. Any help you can provide will help us reach out to soldiers for full time opportunities.

The address was provided to me by the Air Force Public Affairs per a formal request I submitted to the Air Force Safety Center, per a phone call I had with (b)(6) who is the deputy Division Chief of Aviation Safety at the Safety Center. I am trying to get the Part 1 and Part 2 of the Safety Investigation Board for the death of (b)(6) (b)(6) had a promotion line number for Lt. Col. (b) was reported to have been flying an F-4 doing touch and gos on the ranges out at Eglin AFB, FL after (b) return from a tour in Vietnam. (b)(daughter says, Found out that it was the f-4c 24 ,can't tell the next initials then number 64 876 crashed on Eglin Air Force Base east of C 52a 30 degrees 32 N 86 degrees 16 w and was totally destroyed. (b) daughter (b)(6) was a good friend of mine in Fort Walton Beach where we went to high school together. She was in high school when (b) died. This past March marks the 42nd year since (b)(6 death, and she commented to me that she has never really gotten a good explanation of what happened to (b)(and has heard conflicting explanations about it. So I thought I would tackle the issue and see if I could help a good friend. (b) has several Naval Academy friends, who flew F-4's in Viet Nam with (b)(who have volunteered to explain the report to her. I think she is

					simply looking for a complete explanation of what happened, and why it happened. I know from my own time in the Air Force and working as a facts and circumstances officer - there are times when the Air Force tries to keep some information as there is still an investigation underway. However, with 41 years since past, I assume that even classified missions could be unclassified if necessary. In this regard, I'm asking if there is any info related to: Mishap Report Accident Investigation Board Safety Investigation Board Etc. Your assistance in this matter would be appreciated. Accurate data on the foreign travels of the Secretary of the Air Force will provide insights into which countries the United States cultivates military cooperation with and at what times. 2012-04387-F	Van Kleef, Thomas	-	06/12/2012	07/18/2012	FOUO/PA - I am requesting ALL records and information showing ANYONE who accessed the Record of my Courts-Martial after 1/1/2008. The unredacted record of my Courts-Martial was provided to a local non-profit (a board member); this unredacted copy contained information that should have been removed under the Privacy Act and FOIA release rules. I never authorized the release of these

					records; I never signed an SF 180. I need to determine who may have gotten a copy of this record, either by submitting a FOIA request, forging an SF180 release, or by making a request for the records (or simply accessing them directly) using an interagency or interdepartmental request from inside the government. Since I have had ND contact with either the DoD or VA in over 12 years, there should be NO reason for these records to have been accessed after 1/1/2008 by anyone. To be VERY clear, I need to know who accessed or got a copy of my record of Courts-Martial after 1/1/2008, for any reason whatsoever, from inside or outside the government, to be able to start to figure out who - and why - these records were released to the public at all, especially the way they were, and expecially with Privacy Acy data (Names, SSN) intact. I THINK the office that handles these records is JAJM - the USAF JAG. But please forward this request to whomever should handle it. The case is for myself - Thomas J Van Kleef, SSN (b)(6) Thank you.

2012-04509-F	Peplinski, Stanley	-	06/19/2012	07/05/2012	I believe the information can be obtained from the 377th Security Forces. Please provide a copy of roster for the 377th SF sentries that were at, on duty or visiting the KAFB Carlisle Gate guard house on 29 May 2012 at 0920-0935HRS. The copy should include names and rank of the airmen. Copy of roster and airmen names is not exempt from (a) FOIA b6exemption or (b) DoD Names Policy" which prevents the release of names of military personnel under the 0-5. These exemptions and policies do not apply since sentries at KAFB gates are publically known in that they deal with the public entering KAFB when checking Common Access Card (CAD) identifications and visitor permits. Per AFI36-2903 (effective 18 July 2011) enlisted airmen wearing Airman Battle Uniform (BDUs) must have their names and rank displayed on their uniforms. Specifically §5.1.2.1 states Nametapes will be an Air Force digitized tiger print background with dark blue block lettering.

					The nametapes will be worn immediately above the upper ABU coat pockets. And 55.1.1.2 states Enlisted Airmen will wear rank on the sleeves, 4-inch chevrons for men, 3 ½ inch or 4 inch chevrons for women. Chevrons will be centered on the outer arm halfway between the elbow and shoulder seam, when bent at a 90-degree angle. If sleeves are rolled up, chevrons do not need to be fully visible; however, rank must be distinguishable.

2012-04577-F	(b)(6)	Buckley FSS	06/22/2012	08/03/2012	In September of 2011, I was given Barment orders via US Certified Mail by Brig Gen McGillicuddy. The nature of the rationale to Ban me and my Family from Beale AFB is nonsense in the rational person's opinion. Thinking that the Wing Commander changing would be enough to politely request to be re-admitted to entry onto the Installation, I sent (b)(6) a nice letter - only to see that 'after careful review of the information provided' my Barment order still stands. This is funny, because I have had 0 (zero) Due Process, and have not seen anything other than the Barment memos. I'd like everything associated with my name - (b)(6) (b)(6) do be disclosed if there was some Investigation tied to a phone call that my prior Squadron Commander made to me before I was separated from the

					USAF on 30 Sep 11. Thank you for your vigilance in helping me track down this information in hopes to appeal it.
