2014 00294 F	Greenewald, John		05/27/2014	To whom it may concern, This is a non commercial request made under the provisions of the Freedom of Information Act 5 U.S.C. S 552. My FOIA requester status as a "representative of the news media." I am a freelance television producer often working on documentaries related to my FOIA requests, my work is commonly featured throughout major news organizations, and I freelance writer for news sites as well. Examples can be given, if needed. I hope a full fee waiver for this request can be considered, because all documents received will be available FREE OF CHARGE in their entirety on http://www.theblackvault.com. This site, run entirely by me, has been around for 17 years, and literally served more than 8,000 people a day on average. I have a unique way of disseminating this information, and can offer additional details, if needed. I prefer electronic delivery of the requested material either via email to (b)(6) or via CD ROM via postal mail. Please contact me should this FOIA request should incur a charge. I respectfully request a copy of all Air Force Regulations, procedures, and manuals, either present or past, that reference "Fastwalkers" and/or "Slowwalkers." According to the document received from the Defense Technical Information Center (DTIC) located at: http://documents.theblackvault.com/documents/ufos/fastwalkers/a209227.pdf, "Fastwalkers" are referred to as: "Due to the multitude of objects in the geostationary 3 belt, overhead platforms are being saturated by reflected sunlight from orbiting objects passing through the sensors' field of view. These objects, known as fastwalkers, are creating a suspicion that some uncatalogued objects may exist or are being cross tagged within the data base. The North American Aerospace Defense Command (NORAD) tasked the Foreign Technology Division, Flight Performance Division (FTD/SQDF) to analyze these 15 to 30 minute data tracks and determine the element set, identifying the object. " Please include any manuals, procedures, etc. used by WPAFB, the USAF as a whole, Peterson AFB, etc., that reference

					these "Fastwalkers" and "Slowwalkers" and talk about how the USAF or the military views these unidentified tracks, how they identify them, where the reports go, etc. Please forward this to any and all installations that may have responsive records pertaining to this request. Thank you so much for your time, and I am very much looking forward to your response. Sincerely, John Greenewald, Jr. (b)(6)
2014 00443 F	Holmes, Eric	Quality and Performance Assurance (QPA)	05/29/2014	05/30/2014	According to the Associated Press, two incidents of U5 Missile Launch Capsule Blastdoors were left open. This is the latest in a chain of events involving US Missile Combat Crews' (MCC) failures to either comply with regulations or fail to pass the expectations of the USAF training standards for MCC's. I have been following the Global Security Newswire and AP news stories concerning the recent USAF Missile Squadrons failures with some close interest as I am an ex Missile Combat Crew Commander. I served in the following capacities, 742nd Strategic Missile Squadron Missile Combat Crew Commander and 91st SMW Alternate Command Post Commander, Minot AFB 1978 1982, Chief Minot AFB Weapons Safety Branch and Nuclear Surety Officer 1983 1985, and thus feel I am a proponent for the USAF as well as the crew force. I am a trained and experience accident investigator and have over 200 Dull Sword reports with my signature. Therefore, I am requesting unclassified copies of incident or inspection reports, and any other associated unclassified notes or details from the three missile units involved. My intention is to get clarification concerning these reported events, to analyze these incidents to see if there are any human performance indicators (HPI) and to attempt to verify any causal analysis accomplished within these reports. I am only doing this as a research project and have no intention of publishing my analysis except to any USAF or US Government agency that might be interested. Thank you for your assistance, Eric T. However, given that the material I am requesting is approaching 30 years old, it may be held in a central USAF archive rather than in USAFE Europe records. Please also note that I originally tried submitting this request using the email address 571 256 3110@fax.hqda.pentagon .mil which is presented as the address to use when a requester does not know which Air Force activity holds the records in question on the USAF FDIA webpage at http://www.foia.af.mil/index.a.sp . Despite emailing this request a number of times, my message bounced back undelivered. I should be grateful if you would notify the appropriate personnel of this problem and request that it is fixed. Also, according to the description the classified record deals with an inspection done in 1964 for the Strategic Air Command, and that organization has been gone for twenty years that should warrant a review at least for a listed declassify on date. My interest is for historical study and I would like to order the roll for some research I am doing.

2014 03626 F	Edward, Herlik		04/23/2014		Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request copies of intake information, complaint texts, search forms, emails, notes, dispositions, released records and related documents that were created in response to my FOIA request number 2010 07542 F. Critically: because this request concerns a FOIA offices records, people associated with that office have an obvious conflict of interest. Therefore, to be valid, uninvolved people must conduct the searches (such as communication squadron technicians) and an uninvolved FOIA office must review the records for release. I would like to receive the information in electronic format. I ask that all fees be waived because I am not a large entity and I have no commercial interest, intent or purpose in making this records request. If my request is denied in whole or part, I ask for justification of all deletions by reference to specific exemptions of the act. I also request and expect a release of all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal a decision to withhold any information or to deny a waiver of fees. I look forward to the release within 20 business days, as the statute requires.

2014 03705 F	Figueroa, Carlos	613th MP Co	04/29/2014	04/29/2014	My name is Carlos M. Figueroa and I am a young man born and raised in Puerto Rico . I have a particular situation and I desperately need your help. Thanks in advance for helping me on this search. In 2004 I joined the United States Air Force. After five years I decided to abandon my dream and return to PR to help my mother care for my father since he had been diagnosed with a progressive mental illness. In 2011 I decided to return the military but I did it with the Army Reserve since in PR there was no Air Force Reserve . Now in the Army Reserve is questioning me several things about my deployment with the Air Force . I recently put my package for promotion and should I have been able to prove that I was serving for several months in Kandahar , Afghanistan it had given me extra points . The DD214 form is an official paper given to us when we leave the service and does not mention the dates I served in Afghanistan. I have searched everywhere and can not get any document that says that I was " deployed " to Kandahar , Afghanistan from July to December 2009. The Unit I was with was the 432nd MXS (abroad 432nd Air Expeditionary Wing) at Indian Springs , Nevada . I wonder if you can get an official document saying that I indeed served there on those dates (if you can include the exact days even better) . Maybe you can get them to alter my DD214 showing the dates I served . That would be even better. Copy of the official orders that brought me to Afghanistan would be fine too. Thanks for your help. I would be forever grateful. At this moment, I am

					currently serving in Guantánamo Bay, Cuba . My unit is the 613th MP Co of Juana Diaz, Puerto Rico . We just came back from (GTMO) Guantanamo Bay, Cuba and currently doing DEMOB @ Ft. Bliss, TX. My mailing address here is: (b)(6) Carlos Figueroa 613th MP Co (b)(6) (b)(6) When I return to PR my address will be the one I included above. Again, thank you for your support . You can also get me on email: (b)(6) or (b)(6)@us.army.mil If you need to send a document for me to sign or have questions feel free to call me (b)(6) or email me. I am at your service . Important, we leave here on May 7th, 2014. Since I got out in 2010 I have no idea where my records are. They could be at: The National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740 6001 or at: National Personnel Records Center (St. Louis, MO). In case you need my SSN to locate my documents, here it is: (b)(6) Very respectfully, Carlos M. Figueroa

2014 03821 F	Schwabe, Daniel		06/03/2014		Request declassification of iris 447515 and 447519 (both appear to have the same originating authority). According to the abstract the classified portions deal with B 52 strikes in Southeast Asia and generation of planes for alert duty. This strikes occurred over 40 years ago and the Strategic Air Command participation would have been conventional in nature circumstances that point to a need for review. The generation of planes for alert was for nuclear alert, a procedure cancelled twenty years ago. I am requesting a classification review to determine if the information in these records can be downgraded and released to the public. My interest is for historical study and I would like to order the records for some research I am doing.

2014 04200 F	Moody, Lance		05/22/2014		I am doing some research on the crash of an Air Force B 52F 7 BW Stratofortress that happened on February 29th, 1968 in the Gulf of Mexico off Matagorda Island, TX. The registration for the plane is 57 0173. The crew was: (b)(6) (b)(6) USAF killed. RN: (b)(6) (b)(6) USAF killed. Gunner: (b)(6) USAF killed. (b)(6) USAF killed. (b)(6) USAF killed. USAF killed. (b)(6) USAF killed. (b)(6) USAF killed. Specifically certain UFO writers claim that the the plane disappeared and that no traces were ever found of it. I am attempting to prove or disprove this claim. UFO writers often create mysteries where there are none and I was was wondering if this was another case of that happening. There are scant sources on the internet in reference to this crash. I did find the oral testimony of an Air Traffic Controller who said that the plane wreckage was later recovered but I was hoping to find something more concrete. Could you please let me know if you have any further information on this crash?
2014 04201 F	Wade, Joel		05/22/2014	05/29/2014	I was stationed at MacDill from 1987 to 1989, and was assigned to the (now nonexistent) 1928th Communications Group. I worked at the High Frequency Radio Transmitter

					workcenter (which has since been decommissioned and demolished). I maintained Collins 208U 10 High Frequency Radio Amplifiers, and I am being tasked by the Veterans Administration to provide the decibel levels produced by these amplifiers. I know the Bioenvironmental Engineering office at MacDill AFB once had this information. If it could be provided via a simple e mail, I would appreciate it.

2014 04210 F	Thames, Cynthia	David Morse & Associates	05/23/2014		Hello. I am an insurance adjuster. On May 8, 2014, my insured (b)(6) (b)(6) was driving a delivery truck for SAIA trucking. He was delivering a load to the Base. Not being familiar with the Base, he turned the wrong way on a street and while trying to back up and get his vehicle positioned correctly, he hit a light pole (or some kind of pole). We are looking to get a copy of the report made by the Base police so we can identify what occurred. Any photographs taken of the scene and the damaged pool would also be needed. Any paperwork showing what it cost the Base to put a new pole in would also be needed. We assume the Base will eventually send SAIA Trucking a request to be reimbursed. SAIA would like the above mentioned information in advance so that they may be prepared to receive the Base' request and set aside the funds. Thank you for

					your help. :)

2014 04321 F	Waddell, Wayne		06/03/2014	06/11/2014	I was stationed at Minot AFB from the end of 1979 to 1983, attached to the 2150th Communications Squadron. The 2150th Communications Squadron had a set of railroad tracks that terminated at the building. One

					day an excavation team came in and removed 5 feet of soil from the entire area where the train tracks terminated. The area had been taped off. All Squadron personnel were notified to stay clear of the area. Was this excavation in conjunction with the removal of toxic chemicals, in particular, Perchlorate (Rocket Fuel)? Does Minot AFB have problems with high Perchlorate counts in its water? It was during this era that the Air Force was having to remove carcinogens like Methylethylketone, Trichloroethylene, Acetone, PCBs, and Perchlorate.

Other FOIA offices, working with the associated contracting office, have provided copies of SF 1413 (Statement and Acknowledgement) which contains the prime contractor information, contract information, subcontractor information and sub subcontractor information. Still other FOIA offices, working with the associated contracting office, have provided lists of subcontractors with addresses and telephone numbers. We hope the FOIA offices/contracting offices provide whichever is easiest and most efficient for them. I am not interested in nor do I want copies of contracts with amendments because rarely, if ever, do these documents contain the company names of the subcontractors. However I use the phrase "copies of any documents or any part of documents, such as contracts, work orders, or any other forms or paperwork" so as not to exclude any document that might contain a name of subcontractor or set of subcontractors.

2014 04560 F	Downing, Patrick		06/09/2014		This is a request under the Freedom of Information Act. I hereby request the following records: Passenger Manifests or other passenger lists for Air Force One generated between January 20, 2009 and the date that this request is processed.
