2013-01486-F	(b)(6)	-	01/02/2013	02/28/2013	I just recently separated from the Air Force in Aug of 2012 and have been working on my VA claim. I filed a FOIA request with OSI to get a statement from a Sexual Assault that happened to me between April and July of 2003 during a deployment to Al Udeid AB Qatar. They sent me back a letter stating that they do not have anything on file. This really disturbs me because I spent hours being bounced between OSI and Security Forces before they would even talk to me. I know that they took a statement from me and spoke with the assailant (who continued to harass me). Now from my understanding they only searched OSI records at the

					pentagon and the electronic system that is kept by them. I believe that if the statement has not been sent Stateside it is with SF or OSI at AI Udeid or a servicing AFB. At time of incident: (b)(6) SrA, Assigned to the ISRD (Admin office), Feb 2003 Aug 2003, Assailant was (b)(6) (b)(6) LRS

2013-01530-F	Cassidy, Michael	-	03/28/2013	05/03/2013	Request Accident Investigation Board Report for the Elmendorf C-17 crash which occurred 28 July 2010. I am specifically interested in reviewing the Hi Def video and computer animations to show how the data collected from the FDRs was correlated to the actual flight. I am a recently retired 30 year, AF Col working with Northrop-Grumman (NG) -- I was previously the AMC Chief of Stan/Eval and am familiar with accident investigation. There is absolutely no personal or company intent to embarrass the Air Force or do anything to cause any additional suffering to the families. The intent is to describe to both NG leadership and to Air Force leadership how the use of sophisticated data analysis could prevent these kinds of accidents. Thank you for your consideration, please call if required. (b)(6)
2013-01531-F	Renken, Jeremy	-	03/04/2013	04/17/2013	I would like the average aviation fuel (AvFuel) burn rate for Air Combat Command (ACC) owned F-22, F-15C, F-15E, F-16C, A-10, and Air Education and Training Command owned T-6s for the year 2011. I understand that this data is maintained in the Air Force Total Ownership Cost (AFTOC) database. This data will be used in an article intended for publication in Air and Space Power Journal. The purpose of this data is to discuss the logistics support demands, in terms of AvFuel, for modern tactical aircraft.
2013-01532-F	Renken, Jeremy	-	01/08/2013	01/23/2013	I would like the Air Force Operating Cost Per Flying Hour (OCPFH) for the F-22, the F-15C, the F-16C, the F-15E, the A-10,

2013-01548-F	Schwartz, David	university potsdam-history	01/08/2013	01/14/2013	Dear Sir or Madam, I am a US citizen living in Germany studying history at the University of Potsdam. My focus is on military history. I am working on a research project on the development and evolution of US air tactics and the accompanying air-dropped ordnance from Korea to Vietnam. For my research project I kindly require contractor/manufacturer information for the body(casing) of the bomb, white phosphorus, M47. The relevant years would be shortly before but especially during the Vietnam War. My

					research project is purely educational and non-political. Three companies may be important to look into: American Electric, Inc. (La Mirada, CA); Standard Products Co. (Detroit, MI); Pyrene Mfg. Co. (Newark, NJ). American Electric held an Army contract for 100 lb bombs (they M47 weighed roughly 100 lbs) in 1964 but I am not sure if this was for a WP M47 bomb, so this may help too. I wasn't sure which USAF institution to send my FOIA request to, so I sent it to (amongst others) Eglin AFB. If this was incorrect please forward it to the right branch. I am also not sure if Eglin is the right place to look for previous contracts, so again, please forward if wrong. The grand total I am willing to pay for this FOIA request is \$25 (twenty-five). The AFHRA does not have the data I am looking for, I have already contacted them.

The members of this organization are veterans who served in the Vietnam War maintaining, flying and supporting the AC-119 Shadow and AC-119K Stinger gunships during the Vietnam War. The members of the association would like to request any unclassified reports/documentation surrounding the missions undertaken by the 71st, 17th and 18th AC-119 Special Operations Squadrons during the War. Beyond reports of this nature the members are also interested in any raw mission debrief reports that may be available. I would like to thank you in advance for any assistance you may be able to provide. As memories fade, any documentation surrounding these men's time serving together is invaluable to them. I look forward to hearing from you!

2013-01631-F	Blascoe, Dacia	-	01/14/2013	01/16/2013	Would like to see all releasable information on Whiteman AFB Security Forces, specifically climate surveys dealing with this group. The reason for the request is for further information on research project being worked on in order to complete my masters degree at Central Michigan University. Thank you.
2013-01632-F	Carter, David	-	02/12/2013	04/01/2013	My name is David Carter and I am a local historian in Topeka, Kansas and a veteran of the U.S. Air Force. The purpose of this FOIA request is to obtain a primary source document on the Platt Street plane crash involving the KC-135A 57-1442 that occurred on January 16, 1965 (all releasable information). The KC-135A took off from McConnell, Air Force base that Saturday morning at 9:27 a.m., but the aircraft was assigned to the 70th Bombardment Wing at Clinton-Sherman Air Force Base, Oklahoma. I want to obtain any documents you may have concerning the crash such as articles, reports, crew members, or information about the plane. My purpose in obtaining these documents is to write the history of the Platt Street crash. Only one other book exists on the crash and it was written by Cornelius P. Cotter in 1968: Jet Tanker Crash: Urban Response to Military Disaster. I have interviewed survivors, researched newspapers, and contacted the Disaster Research Center in Delaware to obtain Cotters original notes. However, I need more primary source documents in order to accurately write the history and properly understand what took place. Therefore, in order to write a detailed, objective history of the crash and provide a comprehensive narrative for those who lost their lives, it is imperative that I obtain any documents concerning the crash that you are able to release. I am willing to pay fees (up to \$100) associated with processing the request. I humbly request your assistance in helping me with this information. It would mean a lot to the survivors and it would be a great contribution to the historical record for McConnell, AFB and Wichita, KS. I will look forward to hearing back from you. Very Respectfully, David W. Carter Military Historian

2013-01697-F	Kaplan, Kathleen	-	01/16/2013	02/08/2013	On 17 September 2012, (b)(6) Chief AFRL/DPD, sent an email stating that the AFOSR "reorg has been approved. AFMC/A1 was the final signatory, so it did not need to go to AFMC/CC." I request the AFOSR reorg plan that was approved by AFMC/A1 (referenced by (b)(6) in her email) and the corresponding records (emails, memos, etc.) that indicate AFMC/A1 approval of this plan; according to (b)(6) email, these records appear to be sent to AFRL/DP. The search dates are 1-17 September 2012 and the search organization is AFRL/DP under the direction of (b)(6) AFRL/DP Director.
2013-01698-F	Kaplan, Kathleen	-	01/16/2013	02/06/2013	Please send me the Organizational Change Request (DCR) for AFOSR unit manning document (UMD) proposed changes; this DCR was submitted by AFOSR regarding the AFOSR reorganization plan. According to AFOSR, this DCR is still not approved as in the hands of AFRL/DP. Search dates are July 2012 through Dec 2012, but could be earlier. (b)(6) is indicating that (b)(6) is responsible for the starting implementation of the AFOSR reorganization. However, (b)(6) never received approval for the UMD changes; (b)(6) improperly selected personnel for positions which did not exist. According to AFRL guidance, selectees must be in their new positions within two pay periods. The selectees were selected in July 2012, but it is now Jan 2013 and the personnel cannot be in these positions because the positions do not exist. This should be reviewed at a higher AF level - if an AF leader is reading this, please do the right thing and look into (b)(6) actions.

2013-01755-F	Vance, Donald	-	02/28/2013	03/11/2013	This is a request under the Freedom of Information Act. I hereby request the following records: I am requesting a copy of the first 100 pages of the proposal submitted to the U.S Air Force from NTREPID, Inc in response to U.S Air Force contract Solicitation Number: RTB220610 This is a noncommercial individual request for records. I am willing to pay up to \$10.00 in duplication fees when processing this request. When processing this request, please note that the D.C. Circuit has previously held that agencies have a duty to construe the subject material of FOIA requests liberally to ensure responsive records are not overlooked. See Nation Magazine, Washington Bureau v. U.S. Customs

				Service, 71 F.3d 885, 890 (D.C. Cir. 1995). Accordingly, you are hereby instructed that the term record includes, but is not limited to: 1) all email communications to or from any individual within your agency; 2) memoranda; 3) inter-agency communications; 4) sound recordings; 5) tape recordings; 6) video or film recordings; 7) photographs; 8) notes; 9) notebooks; 10) indices; 11) jottings; 12) message slips; 13) letters or correspondence; 14) telexes; 15) telegrams; 16) facsimile transmissions; 17) statements; 18) policies; 19) manuals or binders; 20) books; 21) handbooks; 22) business records; 23) personnel records; 24) ledgers; 25) notices; 26) warnings; 27) affidavits; 28) declarations under penalty of perjury; 29) unsworn statements; 30) reports; 31) diaries; or 32) calendars, regardless of whether they are handwritten, printed, typed, mechanically or electronically recorded or reproduced on any medium capable of conveying an image, such as paper, CDs, DVDs, or diskettes. Furthermore, in line with the guidance issued by the Department of Justice (DOJ) on 9 September 2008 to all federal agencies with records subject to FOIA, agency records that are currently in the possession of a U.S. Government contractor for purposes of records management remain subject to FOIA. Please ensure that your search complies with this clarification on the effect of Section 9 of the OPEN Government Act of 2007 of the definition of a record for purposes of FOIA. If you deny all or part of this request, please cite the specific exemptions you believe justify your refusal to release the information or permit the review and notify us of your appeal procedures available under the law. In addition, I draw your attention to President Obamas 21 January 2009 Memorandum for the Heads of Executive Departments and Agencies, directing federal agencies to adopt a presumption in favor of disclosure and stating that government information should not be kept confidential merely because public officials might be embarrassed by disclosure, because errors and failures might be revealed, or because of speculative or abstract fears. I request that any documents or records produced in response to this request be provided in electronic (soft-copy) form wherever possible. Please provide soft-copy records by email or on a CD if email is not feasible. However, I do not agree to pay
--	--	--	--	--

					an additional fee to receive records on a CD, and in the instance that such a fee is required, I will accept a paper copy of responsive records. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. Please remit all correspondence to: Donald Vancel (b)(6)

2013-01818-F	Laymon, Bob	-	01/22/2013	02/20/2013	Looking for some assistance in cleaning-up the historical record of two of our finest departed Air Force warriors, (b)(6) (b)(6) and (b)(6) who died in an F-4D accident 40 years ago on 21 November 1972. Over the past six years I have been researching details about these two warriors to be sure their record(s) correctly reflect their outstanding service as young men during a most difficult war. Can the staff of AFSEC look into the Class A accident folder of (b)(6) and as a minimum provide us a summary of the investigators findings and conclusions? FYI: As a nationally recognized historian of the air war in Southeast Asia, I write about and provide monographs of key dates and events from the Vietnam War. Distribution includes the current CSAF, CMSAF, ACC/CC, USTRANSCOM/CC, AETC/CC, several fellow active duty General & Flag Officers, several past-CSAFs, SECAFs, DCI/CIA, NSA; along with >500 Vietnam veterans, including the living MOH recipients, a dozen retired ??? G.O.s and living warrior-icons that you have studied in PME and met from our Air Force heritage. I have included the squadron mates of (b)(6) on Bcc: 555th Tactical Fighter Squadron, 432nd Tactical Reconnaissance Wing, Udorn RTAFB, Class of 72 to keep them in-the-loop. Your response will be greatly appreciated by all. Respectfully, Bob Laymon, (b)(6) USAF (Ret.) nom de guerre Scatback Scribe (b)(6)

2013-01949-F	Bouquet, Christopher	Law Office of Christopher C. Bouquet, PLLC	01/30/2013	06/18/2013	To Whom It May Concern: This is a request, pursuant to the Freedom of Information Act, 5 U.S.C. § 552 et. seq. (the Act) for the production of the following documents in the records of Wright Patterson Air Force Base: 1. Contract No. FA8634-12-C-2651 with the Boeing Co. for F-15 aircraft (the Contract); 2. All attachments to the Contract, including the Statement of Work; 3. All modifications to the Contract. As you know, Section 552(b) of the Act provides that, if some parts of a file are exempt from release, reasonably segregable portions of the nonexempt material should be provided. I request, therefore, that if you determine that any portion of the requested information is exempt, you provide me immediately with a copy of the nonexempt portion of the documents. I reserve my right to appeal any and all such decisions. If you determine that some or all of any requested document is exempt from release, please advise me as to which exemption(s) you think cover(s) the material withheld in whole or in part. As you know, court decisions have held that to satisfy the requirements of the Act, an index of withheld documents must be prepared and such index: (a) should be contained in one document be complete in itself, (b) must adequately describe each withheld document or deletion from a released document, (c) must state the exemption claimed for each deletion or withheld document and explain in detail why the exemption is relevant, and (d) be sufficiently specific to permit a reasoned judgment as to whether the material is actually exempt under the Act. Further, in the event of a withholding, please separately state your reasons for not invoking your discretionary powers under the Act to release in the public interest any material you deem to be exempt. Such statements will be helpful in deciding whether to appeal an adverse determination and in formulating arguments in the event of any appeal. I agree to pay all reasonable search and reproduction costs incurred in connection with the processing of this request up to a maximum of \$700. Please refer any

					questions regarding this request to me by name at the e-mail at cbouquet@bouquetlawoffice.com, at the street address listed above or by telephone at 703.299.8780. Thank you in advance for your prompt attention to this request.

				(FOIA) Request Dear Sir: This is an official request under the Freedom of Information Act (FDIA). I request that a copy of the following document containing the following information be provided to me: Current Standard Personnel Core Document (SPCD) for the employee (b)(6) (b)(6) 72 ABW/SE) who has been performing these duties for the last two years: GS-0018-12, Safety and Occupational Health Manager, Safety Manager/Ground, 72 ABW/SE and has been conducting the Program Analyst function (TCIR/DART) for Tinker AFB. In order to help to determine my status to assess fees, you should know that I am a federal civil service employee currently employed at Tinker AFB (OC-ALC/SE). Specifically, I am a GS-0018-12 (Safety and Occupational Health Manager, Standard Core Personnel Document [SCPD] Number: 9G152). On my current SCPD Number: 9G152, my 1st Skill Code is listed, 100%; AANPAD, Safety Manager/Ground. I am requesting this information in order to conduct a comparative analysis of another GS-0018-12s Standard Personnel Core Document (SPCD Number is Unknown) currently assigned to 72 ABW/SE and dual assigned to AFSC/SE (b)(6) 72 ABW/SE), to determine if there are 2nd Skill Codes added to that SPCD, what percentage determination, alpha code assignments (for staffing and classification purposes, and the title of those 2nd Skill Codes (which are likely Management and Program Analyst). I have been lead to believe that (b)(6) core document has one line in the duties that states she will facility any manpower requests for the organization 72 ABW/SE). Additionally, I am requesting this information because our office is determining a need to add 2nd Skill Codes to my current Standard Personnel Core Document (SPCD) Process Analyst, or to completely re-write a new Standard Personnel Core Document (SCPD) to accurately reflect the duties and responsibilities I currently perform to support this office, separate from the duties and responsibilities as a GS-0018-12 Safety and Occupational Health Manager. This information will be in the best interest of the taxpayer as government employees explore challenging ways to cut budgetary expenses and to streamline our government. Please note an informal request for this information was communicated to (b)(6) supervisor to obtain this information and was refused

					(no reason given), hence this FOIA request. This information request (if approved) might contain the employees signature verification on the original document, and therefore I request that information be sanitized (removed) so it will not contain any personal identifiers that would be in violation of the Privacy Act of 1974. I am willing to pay reproduction fees for this request in the amount of \$00.25 (twenty five cents) per page, however, I would respectfully request a waiver on reproduction fees, as the Air Force has waived reproduction fee charges for similar FOIA requests in the past. If the agency determines fees are appropriate for this request, please inform me if the fees exceed 10 pages at \$00.25 (twenty five cents) per page. I am requesting a quick expedition of this request. Thank you for your consideration of this request. Sincerely, Ms. Gale R. Gendron (b)(6)

We learned last year that the planes had remained contaminated with dioxin while we flew. Several of the airplanes underwent depot-level maintenance at Dothan AL by a contractor, and their information is needed to determine what, if any, decontamination efforts were undertaken. One of our veterans obtained such information about Tail #362 (Patches) for inclusion in his VA appeal - it was successful and our other veterans also need that information to successfully present our own VA claims. The USAFSAM and other agencies have waived fees due to us being non-profit, educational, and the issue being our own health aboard the airplanes we flew, about which USAF held back the contamination information. Any C-123 information regarding decontamination as well as service after 1972 is essential to us.

2013-02226-F	Christopher, Jean	Embry-Riddle Aeronautical University	02/12/2013	07/08/2013	Hello, I'm a graduate student at Embry-Riddle Aeronautical University, I'm writing a graduate research project on the subject of jet engine fires and fire containment. I have a lot of experience with F100, F119, and F135 engines. I'm looking for any information about engine fires. I am most interested in information of two categories: Category A- I'm looking for the actual USAF or DOD requirements that dictate the specifications for engine designs. For example it's fairly common knowledge that in the event of an engine fire, the engine is supposed to safely shutdown, and not allow the fire to spread to the rest of the aircraft. Can someone help me please identify where that is actually written? And any other documents that pertain to engine requirements or specs for emergencies. Category B - I am looking for part 1, part 2, or any information on past engine fires. that I could use for my paper about fire containment. I'm especially interested in engine related mishaps, such as blade-outs, fuel fires, FOD fires, and any engine fires that were not contained. I'm aware of at least one engine fire/mishap for an F119 engine involved in ground testing at AEDC, engine serial #p730028. The event was around October 2005. Any information, part 1, part 2, or both would be appreciated. Bases involved may be Kirtland AFB(for the SIB), Arnold AFB (where the event happened), or Wright Patterson AFB (the ground testing was

					managed by the 577 AESG). In the interest of full disclosure and cooperation, I do work for Pratt and Whitney, but I can't use any Pratt and Whitney information for a school paper without a full public release approved through the corporation and the government, so I'm hoping that a FOIA request through USAF would be more efficient. Thank you for your time, and any assistance in locating documentation would be appreciated.

2013-02255-F	Garza, Ernesto	-	02/13/2013	05/09/2013 Incident No. 1-High speed abort out of Utapao, Thailand, February 25, 1975 ended up with complete destruction on the runway of B-52D aircraft number 55-079(?) E10 Crewmembers: Pilot: (b)(6) Co-pilot: (b)(6) Radar Navigator: (b)(6) Navigator: (b)(6) Warfare Officer (EWO): (b)(6) Tail Gunner: (b)(6) (b)(6) On February 25, 1975, our 6 crewmember B-52D aircraft No. 55-079 had a hot brake incident at Utapao AFB, Thailand. As I recall, as we took off on the runway for the first time, as the aircraft reached S1 speed, take off failed to meet S1 speed take off requirements. We had traveled around 3,000 feet down the runway when we initiated a high speed abort. Due to abort high speed and what seemed to be stuck brakes, we developed hot brakes and followed high speed/hot brakes abort procedures. We taxied to a taxiway and waited for about 30 minutes for brakes to cool down before we proceeded with the second attempt to take off. Again, the pilots called out that this attempt was going to be another ground abort with a hot brakes situation again. We taxied to a hot brakes designated area for maintenance personnel to inspect. Waited another 30 minutes for brakes to cool down and proceeded to third take off attempt. During the third take off attempt, S1 takeoff speed requirement were met. but the airplane for unknown reasons, settled back on the runway. By this time aircraft had travel most of the runway length. Pilots immediately applied full brakes and deployed drag chute and called a ground abort. The aircraft used up the two mile runway and 500 feet of the overrun before it came to a complete stop. As checklists were being performed for a high speed abort/hot brakes scenario, tires started to

					explode due to high brake temperatures. Aircraft completely destroyed by the fire. Incident No. 2-Night double engine failure, 120 miles SE from Ellington Field, Houston, Texas over the Gulf of Mexico in F-4C/D on September 12, 1985(?), aircraft no. 63-487(?) Crewmembers: Pilot: Dean Roome Weapons Systems Officer: (b)(6) Night sortie with the 111th Fighter Inceptor Squadron out of Ellington Field, Houston, Texas, on September 12, 1985. After air refueling, about 120nm SE from Ellington field over the Gulf of Mexico, passing through FL430 (43,000 feet), experienced a partial dual engine failure (compressor stall / overtemp on left engine and AB nozzles stuck open on right engine. We were unable to completely relight both engines, only minimum electrical power from the RAT - Ram Air Turbine (little fan generator sticking out on the side of the aircraft providing minimum electrical power for basic flight instruments), fat on fuel, could not dump fuel fast enough (had just left a KC1011), too heavy to land, one too many sharks in the Gulf. Problem: Fuel solenoid for both engines failed, could not restart engines, and got engines to windmill only. Limped back at 9000 ft. dumping fuel and flew a night Shuttle Profile approach from 6 mile fix to an on-speed landing at 500 ft. touchdown point. Dropped the gear and modulated the boards at 9000 and S turned down the chute, extended the slats around 4500 ft. and maintained the speed and energy until landing assured.

2013-02280-F	Poll, Brent	South Weber Landfill Coalition	02/15/2013	04/30/2013	This is a new FOIA as your response of 7 Feb 2013 closed a prior request with the claim that the documents therein mentioned were allegedly provided to me previously and/or available to the public (either in the WSU Library or at www.hafbdyn.com). My response to you of 8 Feb 2013 said this reply was not responsive to the FOIA at issue. As the former request has been closed, please address the following new one which includes some of the same elements as the first plus several additional items: (1) The response to item # 2 of the previous request stated that documents showing the planned usage of plume maps had been provided to me previously. A review of my records shows no evidence of such provision. Please provide the evidence that the Base used to make its claim that this evidence had been already provided to me (how and when), or provide those documents 'again.' Reviews in past years show no documentation of this specific nature in the WSU Library. Moreover, the website cited above is not readily available to the public (requiring logins and acquisition of passwords making such records less accessible than required under FOIA). (2) The response to item # 3 of the previous request stated that all 'distributions' of the Base's plume maps had been provided to me previously. A review of my records shows no such

					provision. Please provide the evidence the Base used to make this claim that the information at issue had already been provided to me, or provide those documents 'again.' This documentation has also not been readily available through the more public forums shown in item #1 above. (3) The 7 Feb 2013 response cited the PSV Plans and Reports as the authoritative devices for moving/addressing the Base's remedial programs. Regarding those plans and reports please provide: A. The guidelines or regulations which authorized and defined the use of those reports and plans. B. The records which show who developed the above guidelines and when and why they created them. C. The records showing the full range of those having input in applying those guidelines and who makes the decisions rendered therein. Also the criteria for rendering those decisions. Include the documentation showing how the public's input is solicited and considered in making the decisions reflected in those plans and reports. D. An index of terms used in reviewing/applying/evaluating those plans and reports and how and by whom those are thus defined. For instance; (1) The 7 Feb 2013 response stated that the plans and reports contained the Base's "official plume maps." Each word in this is important. Please include records showing who determined what was deemed "official," how the Base reached those determinations (including input from the public, and all others in making those decisions). Show records defining the content of each 'plume' and how and who draws them. Show records defining the scope of the 'maps' of those plumes including the full range of options for their appropriate use (i.e. making land-use decisions, defining/restricting risks from areas where risks are not present, areas where cleanup to EPA standards are mandated, etc.) Of course, I will make reasonable payment for this service. However, the Base is correct in that all of the above should be readily available to the public so it should be easily accessible. Therefore, 'reason' should not exceed \$100 in this instance.

2013-02293-F	Schogol, Jeff	Air Force Times	02/15/2013	04/03/2013	Dear FOIA Officer, I am writing to request the release of records pursuant to the Freedom of Information Act. I request all information about all Air Force officers who received an Article 15 while working the National Reconnaissance Office during 2010, 2011 and 2012. As members of the news media and publishers of the primary news publication serving the men and women of the U.S. military, we at Army Times Publishing consider this information to have significant public interest and therefore request that you waive the processing fees. I request this response be answered via email. If that will not work, I agree to pay any reasonable copying and postage fees of not more than \$20. If the cost would be greater than this amount, please notify me prior to incurring the expense. As provided by the open records law, I will expect your response within (20) business days. If you choose to deny this request, please provide a written explanation for the denial including a reference to the specific statutory exemption(s) upon which you rely. Also, please provide all segregable portions of otherwise exempt material, as required. Please contact me by email at jschogol@airforcetimes.com or telephone at 703-750-7436 if I can clarify or expedite this request. Thank you for your assistance. Sincerely, Jeff Schogol Air Force Times 6883 Commercial Dr. Springfield, VA 22159

2013-02296-F	MORGAN, JOE	-	03/01/2013	03/01/2013	Looking for releasable information involving a fire in the cockpit of a small jet aircraft with the pilot in side of the cockpit. This incident occurred at Luck Air Force Base, AZ., some time between July 1969 and August of 1971. I strongly believe the aircraft might have stopped in

					front of the flight line fire department while on fire. I do not know the out come of the pilot. This jet aircraft was a lot smaller than the F-4, the A-7, and the F-100's that belonged to different tactical fighting units a Luke at the time and I did not see this type jet too often at Luke. This jet might have been flown by high ranking officers to get from one location to another or it was a training jet. Thanks

					AFB. I was looking at the area north of Creech AFB in Google Earth, and found several structures inside the Nevada Test and Training Range many miles away from roads. A friend of mine has suggested that they are wildlife guzzlers. I did some research on the web, and learned that your office has dealings with aerial survey and repair of wildlife guzzlers in the NTTR. I was hoping that maybe you could identify these objects listed below. Are they wildlife guzzlers? Also if you have closer photos of these objects I'd appreciate if you could share them with me. Furthermore, can you provide me a listing, or a map, of all wildlife guzzlers in the NTTR? Below are three links to Google Maps that mark the objects in question. You'll have to zoom in close to see them, but they are obvious: A large tan colored rectangle, with 3 white oval objects close by. 2013-02335-F	Mumma, Steven	Orbital Sciences Corporation	02/20/2013	06/05/2013	A copy of the resultant contract (including all attachments) and any modifications (including proposed or pending modifications) awarded under SMC Solicitation #FA8808-11-R-0008. A copy of all releasable information related to the evaluation of offerors under this Solicitation including, but not limited to, any award decisions or recommendations. Section 552(b) of the Freedom of Information Act ("the Act") provides that, if some parts of a file are exempt from release, "reasonably segregable" portions of the nonexempt material should be provided. I request, therefore, that if you determine that any portion of the

					requested information is exempt, you provide me immediately with a copy of the nonexempt portion of the documents. I reserve my right to appeal any and all such decisions. If you determine that some or all of any requested document is exempt from release, I would appreciate your advising me as to which exemption(s) you think cover(s) the material withheld in whole or in part. As you know, court decisions have held that to satisfy the requirements of the Act, an index of withheld documents must be prepared and such index (a) should be contained in one document and be complete in itself, (b) must adequately describe each withheld document or deletion from a released document (c) must state the exemption claimed for each deletion or withheld document and explain in detail why the exemption is relevant, and (d) be sufficiently specific to permit a reasoned judgment as to whether the material is actually exempt under the Act. Further, in the event of a withholding, please separately state your reasons for not invoking your discretionary powers under the Act to release in the public interest any material you deem to be exempt. Such statements will be helpful in deciding whether to appeal an adverse determination and in formulating arguments in the event of any appeal. I agree to pay all reasonable search and reproduction costs (up to \$400) incurred in connection with the processing of this request. Please refer any questions regarding this request to me by telephone at (b)(6)

2013-02367-F	Isherwood, Michael	-	02/26/2013	06/24/2013	I saw this in the AFA Daily Report. Can you please share what the cost is for the U-2 CARE upgrade? What will ACC spend to modify the aircraft? "U-2 Tweaks Aim to Avert Pilot Bends: Technicians at Beale AFB, Calif., are modifying U-2 reconnaissance aircraft to nearly double the airplanes' cockpit pressure, thereby lessening Dragon Lady pilots' risk of decompression sickness when descending from extreme altitude, according to base officials. "What we're doing is beefing up the structure and pressure equipment" including cockpit bulkheads, explained Lockheed Martin field representative (b)(6) in Beale's Feb. 15 release. The Cockpit Altitude Reduction Effort retrofits will boost ambient pressure from 3.88 pounds per square inch to 7.65 psi, states the release. Even wearing a pressure suit at 70,000 feet altitude, U-2 pilots experience the physiological effects of nearly 29,000 feet altitude equivalent to standing on Mount Everest, according to the release. The modifications will halve the perceived altitude to a more manageable 15,000 feet, said base officials. Members of the 9th Maintenance Squadron undertake the CARE tear-down and Lockheed Martin technicians complete the mods during phase maintenance at Beale, they said. The mods take roughly 23 days per airframe. (Beale report by (b)(6))

2013-02507-F	Gafni, Matthias	Contra Costa Times	02/26/2013	03/19/2013	I am re-submitting a FOIA request with a slightly different name to search. I spoke to (b)(6) today about this new request to provide her context. On Sept. 25, 2012, I made an initial FOIA request that was split up between different Air Force departments. I was told there was no documents found for the Nellis AFB search, however I think I gave incorrect search criteria and now I'm changing that. So, here's what I'm looking for now: Copies of all correspondence between Nellis Air Force Base and "Coyote Springs Land" or "Coyote Springs Investments" re: a proposed land swap of the Coyote Springs development near Las Vegas, Nevada and the Concord Naval Weapons Station in Concord, CA, a Defense Base Closure and Realignment Commission site. As background, Nellis Air Force Base officials met with Coyote Springs officials on Oct. 25, 2010 to discuss this matter. Nellis officials had been complaining that the development's proposed solar power plant would have a tower that possibly would conflict with the air base's flight paths. Please contact me with any questions.

2013-02544-F	MORGAN, JOE	-	03/05/2013	03/05/2013	Looking for releasable information involving a fire in the cockpit or near the cockpit of a small jet aircraft with the pilot in side of it. This incident occurred at Luke Air Force Base, AZ., some time between July 1969 and August of 1971. I strongly believe the aircraft might have taxied and stopped in front of the flight line Fire Department while on fire. I do not know the outcome of the pilot. This jet aircraft was a lot smaller than the F-4, the A-7, and the F-100's that belonged to different tactical fighting units at Luke at the time and I did not see this type jet too often at Luke. This jet might have been flown by high ranking officers to get from one location to another or it was a training jet. This aircraft could have been a T-33 or one of comparable size. Thanks

2013-02558-F	Davis, Rebecca	Tulsa Benedictine Sisters	02/28/2013	03/05/2013	I am in the process of becoming a nun here at St. Joseph Monastery and in this process I have to study our history here. Being a Veteran as well, when I was reading some journals from a former Prioress (Mother Superior) the following jumped out at me: 1944, The students sold \$1,174,973 in Bonds and were topped in amount only by Notre Dame University. As a reward the school had the privilege of naming four Flying Fortresses. These were christened by the students, "Monte Cassino", "Benedictine", "Ariel" (the name of their newspaper), and "PAX". Our school is named Monte Cassino and at the time it was a Junior College. I have tried every combination of all of this information and I am unable to find out anything about any of it. I was wondering if there was a competition to sell the Bonds or was it just an offer to colleges? I was wondering if there were really planes with these names and what happened to them? I did find one item from another college that talked about how they had raised a small sum and were told that they could name a plane but there wasn't one given the name that they had requested until they made a stink about it. So, that also makes me want to ask the question if this was a hoax to raise money. Any releasable information about this that you can provide would be greatly appreciated. Any information that you do provide will be added to our Archives for future

					generations. Benedictines are well known for keeping historical records for most things, it is amazing what you can find in there!!

2013-02621-F	Wood, David	The Huffington Post	03/04/2013	04/02/2013	Regarding the aircraft the Air Force makes available for congressional and executive branch air travel: -- how many aircraft does the Air Force make available for congressional travel? -- How many for executive branch travel? -- How are the aircraft assigned; by what priority? -- During FY 2012, how many flight hours were provided for congressional travel? If the number of flight hours is not readily available, how many aircraft were made available? --During the same time period, how many flight hours, or aircraft, were provided for executive branch travel? -- Of those, how many were provided for travel outside the continental United States? If the number of flight hours is not available, how many aircraft were provided? -- During the same period, how many flight hours were provided for executive branch travel? -- I understand flights will be cut back under the budget cuts imposed by sequester and the Continuing Resolution. How many of these flightys, or what percent of these flights, will be ended, and what will the priority be in deciding which flights are cancelled? -- Over the most recent reporting period, how many hours of flight time were provided, and can you provide any detail on how the aircraft were used -- for ex., codels, House Speaker travel, etc? Or can you break it down by congressional travel and exec. branch? More detail here the better.

2013-02649-F	MORGAN, JOE	-	03/05/2013	05/09/2013	Looking for releasable information involving a fire in the cockpit or near the cockpit of a small jet aircraft with the pilot in side of it. This incident occurred at Luke Air Force Base, AZ., some time between July 1969 and August of 1971. I strongly believe the aircraft might have taxied and stopped in front of the flight line Fire Department while on fire. I do not know the out come of the pilot. This jet aircraft was smaller than the F-4, the A-7, and the F-100's that belonged to different tactical fighting units a Luke at that time and I did not see this type jet too often at Luke. This jet might have been flown by high ranking officers to get from one location to another or it was a training jet. This aircraft could have been a T-33 or an F 84 or one of comparable size. Most aircraft at Luke was camouflaged but this Aircraft was not. I remember that foreign pilots were in training at this time also. Luke AFB did not have any record of this incident and they referred me to Kirtland. Thanks

2013-02703-F	Borror, Derek	-	03/08/2013	03/20/2013	In an effort to support the Global Strike Command's effort to produce an Electronic Flight Bag capability, CACI is requesting access to data held by the GSC related to the T-38 jet trainer produced by Northrop Grumman. Specifically, we are requesting access to the raw data and formulas contained in a Microsoft Excel spreadsheet that provides Take-off and Landing (TOLD) calculations to GSC T-38 pilots. (b)(6) (b)(6) an engineer at GSC, has access to this particular data and can provide such for this request. The actual data we are requesting (to include algorithms) has long passed into public use and is available on the internet in one form or another. However, we are requesting the data specifically represented in the previously referenced MS Excel spreadsheet as it is already aggregated and configured in a fashion that the GSC already finds useful and practical. The primary intent on this FOIA request is based on GSC's uncertainty of their ability to provide this data to a commercial entity that has intent on using it to provide GSC with a commercial or government available tool. This request is specific to the data in the form by which GSC currently holds it. Gaining access to GSC's data form ensures continuity of expectations and approved metrics by which GSC currently operates their T-38 trainers from.

2013-02850-F	Biancur, Andrew	Friends of the USAF Academy Library	03/17/2013	03/28/2013	do not have a specific request at the moment. My intent was to establish an account so that we, The Friends of the USAF Academy Library have the capability to establish cases as required to enhance the information available within a researchable database. The intent of my actions is in conjunction with a database we are attempting to establish within the USAF Academy Cadet Library. The database is intended for the use of cadets

					and accredited researchers to study deceased graduates' contributions to the Air Force and the nation. We realize that the Acts of Privacy significantly hinder any research to document the actions of recent national heroes (graduates of the Air Force Academy) who lose their lives in service to their nation. Things such as award elements, casualty reports, career briefs, etc. are no longer available to cadets and researchers. Any future requests would be directed to the Air Force Personnel Center asking for such items be released for inclusion in that database. As it stands now, cadets do not have the opportunity to study our graduate heroes as was previously available to West Point Cadets in studying such individuals as Generals Bradley, Eisenhower, and MacArthur. We see that situation as a detriment to the history, heritage, and traditions so vital to a military academy and its parent service. As a maximum, we would expect no more than one or two requests per year - unless the U.S. were to enter a major conflict when several graduates may be involved. We have rejected the concept of going through the next of kin as we have no idea of the length or extent of their grief period and we would not wish to impinge on that period.

2013-02864-F	Borrer, Derek	-	03/19/2013	03/19/2013	In an effort to support the Global Strike Command's effort to produce an Electronic Flight Bag capability, CACI is requesting access to data held by the GSC related to the T-38 jet trainer produced by Northrop Grumman. Specifically, we are requesting access to the raw data and formulas contained in a Microsoft Excel spreadsheet that provides Take-off and Landing (TOLD) calculations to GSC T-38 pilots. (b)(6) an engineer at GSC, has access to

					this particular data and can provide such for this request. The actual data we are requesting (to include algorithms) has long passed into public use and is available on the internet in one form or another. However, we are requesting the data specifically represented in the previously referenced MS Excel spreadsheet as it is already aggregated and configured in a fashion that the GSC already finds useful and practical. The primary intent on this FOIA request is based on GSC's uncertainty of their ability to provide this data to a commercial entity that has intent on using it to provide GSC with a commercial or government available tool. This request is specific to the data in the form by which GSC currently holds it. Gaining access to GSC's data form ensures continuity of expectations and approved metrics by which GSC currently operates their T-38 trainers from.

2013-02973-F	Kashul, Thomas	-	03/26/2013	04/09/2013 21 March 2013 MEMORANDUM FOR HQ AFPC /DS1 (Attn: FOIA Manager) 550 C Street West, Suite 48 Randolph AFB, TX 78150-4750 FROM: (b)(6) (b)(6) SUBJECT: Request for Information under the Freedom of Information Act/ Privacy Act Program. 1. In accordance with the procedures outlined in DODR 5400.7, Freedom of Information Act Program, I am requesting information under the Freedom of Information Act (FOIA) and/or Privacy Act Program. 2. I am (b)(6) (b)(6) I am a graduate of the United States Air Force Academy, and I am currently assigned to the 80 OSS at Sheppard AFB TX. On 4 Dec 12, I asked to withdraw from pilot training at Sheppard AFB and be reclassified as a non-rated line officer. My request was supported by the chain of command, and I was recommended for retention and reclassification. 3. As a result of my request to withdraw from pilot training, my case was sent to an Initial Skills Training Reclassification Panel convened at the Air Force Personnel Center (AFPC) on 14 Feb 13. That panel had the authority to a) recommend my retention and reclassification, or b) recommend my honorable discharge from the United States Air Force. The AFPC/CC is the ultimate separation authority. On 12 Mar 13, I was notified that I was not selected for reclassification and I would be honorably discharged from the United States Air Force. I was also notified that I would be responsible for a pro-rata share of the amount expended on my educational assistance. 4. I am requesting that the following information and documentation (the POC for these records is AFPC/DPSIP) be provided to me electronically: a. The list of available AFSCs from AF/A1P. b. All score sheets and spreadsheets prepared by the recorder to tally results and make logistical arrangements for the panel to include both my own and the other candidates that met the panel. c. The package of mine that was reviewed by the panel including: the AFSCs I was qualified to hold; the commanders assessment with

					retention recommendation; legal review contemplated if applicable; dollar amount of the un-served/unearned portion of educational assistance, special pay or bonuses, for which I am liable to repay the government based on the projected panel date; completed panel spreadsheet; degree information; and my reclassification preferences. d. My individual score sheet with recorded yes or no scores for reclassification. e. The recommendation given for me, concerning recoupment of unearned education assistance, special pay, or bonuses. f. The final results for my record signed by each panel member and panel recorder. g. The number of officers who were retained in the Air Force and the number that were discharged. 5. I am requesting a fee waiver because I am trying to gain this information for myself so that I may be able to stay in the Air Force. I am willing and able to pay any fees associated with processing my request for information up to \$50. 6. I can be reached via telephone at (b)(6). My email address is (b)(6). My mailing address is (b)(6).

2013-03055-F	Sleight, Jessica	-	03/26/2013	04/04/2013	As part of the Masters in the Asia Pacific Studies Program (MAPS) at the University of San Francisco, in coordination with the Japan Policy Research Institute (JPRI) and the Center for the Pacific Rim, we are studying the environmental impact of US overseas military bases starting with Kadena Air Base, Okinawa. We request the Environmental Impact Statements from 2007 to 2012 for Kadena AB, Okinawa, Japan. We are collating this information and combining it with other open source data to make a final environmental score

					for the base due to the Green Movement recently seen amongst U.S. military bases. These assessments will be used to create an interactive website showcasing the activities of U.S. overseas military bases in four areas: environment, social, economic, and security. Through this research we hope to bring together local individuals, communities, and governments who are shaping Asia and the Pacific Rim's future in regard to the environment and how the U.S. is participating in the Green Movement toward sustainability.

2013-03063-F	Mauser, Maryann	Food Inc. of Gainesville	03/26/2013	-	On October 1, 2012, at 1721, I had departed the bus at the Restricted Area, West Portal, Schriever AFB CO. As I was departing the bus I slipped and fell and consequently injured myself. At that time there were 3 witnesses to my fall. I did not get their name, however 2 men had badged in and one badge out at approximately the same time as me. There was a 4th witness who happened to be the bus driver. The bus driver did not fill out a report. Workmans Compensation requires a report of injury that includes witness statements. At this time I do not have witness statements, which leads me to this Freedom of Information Act (FOIA) request. I am requesting the Security Forces to contact the individuals badging in/out at the same time as I on October 1, 2012, 1721 or so, and see if these individuals are willing to fill out a witness report to my incident.
