<u>2016-03618-F</u>	Johnson, Allan	-	07/05/2016	08/19/2016	Pursuant to the Freedom of Information Act, as amended, I request one copy of: - Budget Exhibit OP-78 Force Structure Data for fiscal year 2017 (approximately 7 pages) - Budget Exhibit PB-20

					Aircraft Inventory for fiscal year 2017 (approximately 21 pages) - One data sheet for 2015 that displays Total Force Programmed TAI by Mission as of the end of the fiscal year (30 September 2015) - Any record down to the PMAI and BAI level that accounts for aircraft operated by Air Force Special Operations Command (AFSOC) and/or the Air Mobility Command that may not be included in Budget Exhibit PB-20. In the recent past, those were aircraft under the purview of AFSOC and those whose operating costs are paid through the Transportation Working Capital Fund ("Industrial Fund") OP-78 displays aircraft force structure data at the Program Element, Mission-Design-Series, Command, and Purpose level of detail from the last quarter of fiscal years 2015 through 2021, with data for fiscal years 2016 and 2017 displayed by each quarter of the fiscal year. Although I would prefer the inclusion of data for the "out years" (fiscal years 2018, 2019, 2020, and 2021) you may redact the information for those years if necessary to alleviate any concerns over premature disclosure. PB-20 displays the number of aircraft by mission-design-series, category, and component (active, reserve, and guard) for fiscal years 2015, 2016, and 2017. The "Total Force Programmed TAI by Mission" data sheet displays a total count of aircraft by mission, mission-design-series (MDS), Total Aircraft Inventory, and component. For the fourth item, copies of the "force tabs" for the appropriate MDSs should provide the missing information in case the count in PB-20 is incomplete, as has happened on previous occasions. Budget Exhibits OP-78 and PB-20 for fiscal years 2013, 2014, and 2015 have been previously released under the FOIA. Additionally, the fiscal year 2011 and 2012 versions of exhibits OP-78 and PB-20 were posted on the public web site of SAF/FM at one time as part of a larger publication, but a similar file for fiscal year 2017 has not been found.

<u>2016-03625-F</u>	Lyall, Jason	Yale University	07/05/2016	07/20/2016	I am requesting data for an Air Force Office of Scientific Research-sponsored grant (#FA9550-14-

					1-0072) that examines the effects of air power in Afghanistan. I am requesting the following data for the 1 December 2011 to 31 December 2015 time frame for airstrikes and shows of force in Afghanistan: (1) the date of the airstrike/SOF (2) the location (in MGRS or lat/long) (3) the type of ordinance used (4) the number of bombs dropped/missiles (5) the platform (6) the type of engagement (airstrike/SOF) I received these data for the 2006-11 time period via declassification letter from Gen. Goldfein, then at the Al-Udeid CAOC AFCENT. Public Affairs released the data as two separate Excel spreadsheets (one for airstrikes, one for shows of force). I am happy to provide these documents if it would expedite the data release or help identify the specific data I am requesting. I do not require sensitive information such as weapons performance, reasons for the air event, or technical details (i.e. angles of attack). I am requesting an expedited release for two reasons: (1) I've already received earlier data, and so the precedent has been set for their release; and (2) I am currently working with AFOSR on Air Force-funded research that requires the timely release of these data. These data are currently held at the CAOC, Al-Udeid AFB, Qatar. (Date Range for Record Search: From 12/01/2011 To 12/31/2015)

<u>2016-03857-F</u>	Lyall, Jason	Yale University	09/08/2016	-	I am requesting data for an Air Force Office of Scientific Research-sponsored grant (#FA9550-14-1-0072) that examines the effects of air power in Afghanistan. I am requesting the following data for the 1 December 2011 to 31 December 2015 time frame for airstrikes and shows of force in Afghanistan: (1) the date of the airstrike/SOF (2) the location (in MGRS or lat/long) (3) the type of ordinance used (4) the number of bombs dropped/missiles (5) the platform (6) the type of engagement (airstrike/SOF) I received these data for the 2006-11 time period via declassification letter from Gen. Goldfein, then at the AI-Udeid CAOC AFCEAT. Public Affairs released the data as two separate Excel spreadsheets (one for airstrikes, one for shows of force). I have attached my original declassification letter from the CFACC. I do not require sensitive information such as weapons performance, reasons for the air event, or technical details (i.e. angles of attack). I am requesting an expedited release for two reasons: (1) I've already received earlier data, and so the precedent has been set for their release; and (2) I am currently working with AFOSR on Air Force-funded research that requires the timely release of these data. These data are currently held at the CAOC, AI-Udeid AFB, Qatar. These data are currently posted in aggregate form as "Airpower Summaries" on a bi-monthly basis on AFCEAT's homepage (http://www.afcent.af.mil/AboutUs/AirpowerSummaries.aspx). (ForcePRO automates the Integrated Defense Risk Management Process (IDRMP) and assists commanders in developing Integrated Defense Plans (IDP) focused on mitigating unacceptable risks. As described in Attachment 12 to Air Force Instruction 31-101, Integrated Defense, ForcePRO was created by the Air Force Research Laboratory after subject matter experts conducted detailed security assessments at numerous U.S. Air Force installations. ForcePRO functions as a decision support tool by calculating the risks to specific critical assets on each installation. ForcePRO uses data input based on the commanders guidance as well as that of the Integrated Defense Council (IDC) and its Integrated Defense Working Group (IDWG) on asset criticality, asset vulnerability, and the threat.) What I am seeking is the data generated by ForcePro, specifically Risk Summary Reports, as well as risk calculations, threat data, command-wide risks, and data generated for decision-making. I've attempted to attach a picture of a Risk Summary Report, but your system would not allow it. I'm happy to email one along if you provide me with an address. <u>2016-04682-F</u>	McGinnis, Matthew	-	09/20/2016	10/24/2016	Good afternoon. This is a request under the Freedom of Information Act to obtain a statement or records that explains the unusual air traffic/ military exercises that took place in East Tennessee (seen from Clinton, TN) on the night of 9-19-2016 starting around 8 PM EST which lasted hours. There were a multitude of crafts hovering steady and slowly gaining altitude. There were also multiple crafts that maintained a jet-like trajectory that flew while closely grouped. This

					event was a spectacle above the community. Any information would be useful in educating the witnesses of the normalcy of military aircrafts in our skies. This will relieve uncertainties, and possibly prevent future FOIA requests about similar occurrences. Thank you so much for your assistance. I am looking to obtain copies of any briefings members of Air Combat Command presented over the course of a four-day long industry day event in November 2012. According to a recently released Justification and Approval document regarding F-35 modifications (See: https://www.fbo.gov/spg/DON/NAVAIR/N00019/N00019-14-G-0020-5516/listing.html), the F-35 JPO hosted the

If an exemption applies, I ask that Air Combat Command please consider exercising the agency's respective discretionary release powers to disclose the records. Additionally, please release all reasonably segregable portions of the records that do not meet an exemption. I am also willing and would prefer to receive any release in an electronic format. 					35A aircraft since August 1, 2016. The 388th Fighter Wing is an element of Air Combat Command based at Hill Air Force Base, but assigned to Twelfth Air Force at Davis-Monthan Air Force Base. In light of a recent fire involving an F-35A at Mountain Home Air Force Base, such records would be of great interest to the public and their release would not directly impact the ability of investigators into that incident to reach independent, unbiased conclusions and make similar independent and unbiased recommendations. If an exemption applies, however, I ask that Air Combat Command please consider exercising the agency's discretionary release powers to disclose the records. Additionally, please release all reasonably segregable portions of the records that do not meet an exemption. I am also willing and would prefer to receive any release in an electronic format.
