2015-00943-F	Glover, Shirley	Government	02/09/2015	02/24/2015	I would like to request to see the Matrix worksheet detailing the ranking candidate for the above Job Announcement (1208582) that was opened on 11 Sept 14 and closed on 17 Sept 2014. I received an Notification Letter on 6 Nov 14 informing me that my name was submitted to the Hiring Manager, but on 7 Nov 14, I received an email Disposition Letter stating that another candidate has been chosen. I am 100% sure that I was among the highly qualified due to recently holding this same position. I know with the implementation of the Resume versus the Core Documents that was used in time past, that there are similarities to the hiring procedures and one of those similarities is the use of the matrix worksheet when both formal interviews and record reviews are performed. Also in previous times, an candidate was able to inquire as to what number they placed on this sheet to see where they may have been lacking in and could try to work on improving to ensure success in the future job announcement. Below is the most current evaluation criterion used in matrix worksheets that I am aware of: Experience, Education/Training, Awards, and one criteria that I believe has been phased out is the Appraisal. Because of the lack of transparency during the hiring practices now, candidates are not privy to how they are ranking among their peers and because of this, they aren't able to see where they are lacking in particular area pertaining to their career progression. Thank you in advance for your time, and I look forward to hearing from your staff in the near future. (Date Range for Record Search: From 09/11/2014 To 11/07/2014)

<u>2015-02120-F</u>	Vance, Donald	-	01/20/2015	01/22/2015	This is a request under the Freedom of Information Act. I hereby request the following records: I am requesting a copy of the following documents. 1. AMC OPLAN 36-03 This is a noncommercial individual request for records. I am willing to pay up to \$10.00 in duplication fees when processing this request. I am not associated with any political party. Further, please do not discriminate against me or my request based upon my racial, gender, religious, or political leanings. This request is an exercise of my freedom of speech under the First Amendment of the Constitution of the United States. When processing this request, please note that the D.C. Circuit has previously held that agencies have a duty to construe the subject material of FDIA requests liberally to ensure responsive records are not overlooked. See Nation Magazine, Washington Bureau v. U.S. Customs Service, 71 F.3d 885, 890 (D.C. Cir. 1995). Accordingly, you are hereby instructed that the term record includes, but is not limited to: 1) all email communications to or from any individual within your agency; 2) memoranda; 3) inter-agency communications; 4) sound recordings; 5) tape recordings; 6) video or film recordings; 7) photographs; 8) notes; 9) notebooks; 10) indices; 11) jottings; 12) message slips; 13) letters or correspondence; 14) telexes; 15) telegrams; 16) facsimile transmissions; 17) statements; 18) policies; 19) manuals or binders; 20) books; 21) handbooks; 22) business records; 23) personnel records; 24) ledgers; 25) notices; 26) warnings; 27) affidavits; 28) declarations under penalty of perjury; 29) unsworn statements; 30) reports; 31) diaries; or 32) calendars, regardless of whether they are handwritten, printed, typed, mechanically or electronically recorded or reproduced on any medium capable of conveying an image, such as paper, CDs, DVDs, or diskettes. Furthermore, in line with the guidance issued by the Department of Justice (DOJ) on 9 September 2008 to all federal agencies with records

					subject to FOIA, agency records that are currently in the possession of a U.S. Government contractor for purposes of records management remain subject to FOIA. Please ensure that your search complies with this clarification on the effect of Section 9 of the OPEN Government Act of 2007 of the definition of a record for purposes of FOIA. If you deny all or part of this request, please cite the specific exemptions you believe justify your refusal to release the information or permit the review and notify us of your appeal procedures available under the law. In addition, I draw your attention to President Obamas 21 January 2009 Memorandum for the Heads of Executive Departments and Agencies, directing federal agencies to adopt a presumption in favor of disclosure and stating that government information should not be kept confidential merely because public officials might be embarrassed by disclosure, because errors and failures might be revealed, or because of speculative or abstract fears. I request that any documents or records produced in response to this request be provided in electronic (soft-copy) form wherever possible. Please provide soft-copy records by email or on a CD if email is not feasible. However, I do not agree to pay an additional fee to receive records on a CD, and in the instance that such a fee is required, I will accept a paper copy of responsive records. Thank you in advance for your anticipated cooperation in this matter. (Date Range for Record Search: From 01/18/2003 To 01/15/2005)

I want to contrast its aerodynamic performance to that of the US Air Force YF-

					100 Super Sabre. They were both developed at the same time in aeronautical history. The Skyray was a US Navy carrier aircraft while the Super Sabre belonged exclusively to the US Air Force. Both designs vastly differed. I want to exploit these differences especially through their individual performance parameters. I am looking for any performance studies involving these aircraft conducted either by the US Air Force or the US Navy. Also any performance studies on the Russian MIG 19 would be welcomed as well. There will be a separate chapter reserved in the book involving this information. If you need any more information please do not hesitate to ask. Thanks for your time in this endeavor. <u>2015-02351-F</u>	Berry, Catherine	-	02/02/2015	02/18/2015	The Detailed SAIS reports are found under each year: for example the 2013 donation reports would be from Jan 1 to Jun 14, 2013. Once you have that you will see a list of donations received during that period. Each donation can then be opened where you will find a detailed description of the donation I.e. Who made the donation, where the event was held, how many people invited etc. Using the search criteria, request donations only. Then just enter the

					period (each year we are looking for from Jan 1 to Dec 31). Then, when you have the year period you will have a list of donations received for that period. Then you can select each individual donation to reveal the "details". I am only interested in the donations. When your folks are looking up the information, they need to check the donations in drop down list in the search criteria. For some of the years in question we are only looking at maybe a dozen donations. For the period of 2009 to 2013 we are probably looking at 15 - 20 donations. Since the information is all in the same place and really only requires a few key strokes to open and print, it should not take more than an hour to obtain the information I am looking for.

This affiliation was established prior to or during 2008 and the first two USAF members selected to participate occurred following the 2008 Integrated Forecast and/or Health Professions Education Requirements Board (HPERB). (b)(6) (b)(6) started training on or about July 2009. (b)(6) was the program director of the UNSOM General Surgery Residency training program at the time. Please include all releasable information including but not limited to records related to the affiliation, implementation, and operation of this specific program including the dates of January 2008 to January 2011. 2015-02431-F	Collins, Rusty	-	02/06/2015	03/02/2015 I am simply requesting the location of my 971 (Employee Folder). This FOIA request is not requesting the information contained in the 971 (I believe I would have to fax or mail for that information). Just simply where it is. By law it should have been delivered to (b)(6) (b)(6) from (b)(6) Building 3001) around 6 months ago. The reason I have had to resort to a FOIA request is written below. I started a new position at Tinker Air Force Base under a new Supervisor in July of 2014. My last supervisor did not deliver my 971 to my new supervisor. My new supervisor on February 3rd 2015 notified me he still did not have it. He notified me on February 4th that he had received the "ok" to go get it from my old supervisor. This is not his duty as he should have been delivered my 971 within 10 days of my move to the new job (as I understand it from the AFI). As of February 5th 2015 today I still do not know if has been delivered (b)(6) (b)(6) as well as other information my new Supervisor should be aware of (if in fact it does still contain this information and has not been removed or altered). This is not fair to my New/Current Supervisor nor is it his job to track it down. It should not be my

					responsibility to end up having to file a FOIA request to get my 971 from one supervisor to the other. (b)(6) (b)(6) stated in writing on a Signed Declaration Under Oath and Penalty of Perjury Dated November 6th 2014 the Following: "I no longer have access to Mr. Collins' 971 file. Mr. Collins position was transferred to (b)(6) His new supervisor retains his 971 file." This Under Oath statement is Implying that (b)(6) is lying. My opinion is that (b)(6) is not lying as I have no reason to believe that because I have not noticed nor seen dishonesty from him as to the extent of my knowledge. I am also not implying that (b)(6) is lying as well. However some is Lying and I guess its up to me to find who has my 971 file. Thank you Also if I am to get charged a fee for this then please let me know how much higher than \$25 it will be as soon as possible. Thanks Again Rusty Collins (b)(6) (b)(6) (b)(6) 3001 (Date Range for Record Search: From 07/01/2014 To 02/06/2015)

<u>2015-02444-F</u>	Collins, Rusty	-	02/09/2015	02/17/2015	I am requesting the current organizational chart of the Human Resources Office at Tinker Air Force Base. I am requesting this information because there is incorrect information/Falsified Information in my permanent eOPF

					(this is the U.S. Office of Personnel Management EHRI Electronic Official Personnel Folder) This is not a request for the Office of Personnel Management because they will not process information that should be requested from the acting agency's Human Resources Department. Release of this information will help me find out who is authorizing my Most recent SF-50, Notification of Personnel Action inputs into the system. The Most recent SF-50, Notification of Personnel Action is very important and can and will be very damaging for me as well as others who are retiring, injured on the job etc if this is allowed to continue. The HR person who is doing this as general adjustments should in no way be allowed to make changes to my official file. I know the reason why, I just need to make this FOIA request to get the organizational chart to find out who is authorizing/approving these. Below is Information to help facilitate this request. Agency= Tinker Air Force Base, 3001 Staff Dr. Location= Oklahoma City, Oklahoma 73145 Human Resources Office - Building 3001 Please note this is not a request for my personal information nor for my "Most recent SF-50, Notification of Personnel Action" as I already have that to date, It is a request for information that I will not be able to obtain from the (b)(6) (b)(6) nor anyone else in the agency. 2015-02496-F	Collins, Rusty	-	02/11/2015	02/17/2015	I am requesting all the publications of the TO 00-5-1 AF TECHNICAL ORDER SYSTEM. Not the full publications but the dates a dated publication was published that supersedes the prior publication. For example the most recent version I know of is below and it states "THIS PUBLICATION SUPERSEDES TO 00-5-1, DATED 1 APRIL 2014" Its the publication dates that I need only. For this one all I would need is "Publication dated 1 April 2014". I need all publication dates (and only the dates) from April 1st 2012 to February 11th 2015. Most current is listed as: TO 00-5-1 AF TECHNICAL ORDER SYSTEM THIS PUBLICATION SUPERSEDES TO 00-5-1, DATED 1 APRIL 2014 By having these dates I will know which version was active at which times during this time frame. I do not need information from the Tech Order nor the Tech Order itself, I only need the dates. This information can be obtained from any Tech Orders section at Tinker Air Force Base (Tinker is not the only place but thats where im requestig this information from) This should be sent to the Tinker Air Force Base FOIA Office. Thank you Rusty Collins (Date Range for Record Search: From 04/01/2012 To 02/11/2015)
2015-02497-F	Collins, Rusty	-	02/11/2015	02/18/2015	I am requesting organizational charts of the Tinker KC-135 System Program Office. This only need to be from the (b)(6) (b)(6) (b)(6). I am needing all organizational charts from the dates of January 1st 2010 until February 11th 2015. The charts should show each position under each branch/chief/supervisor/section etc, Title of each position, the GS Series and Grade (e.g. GS-346-12), These need to be accurate (For example if a Program Manager for a section is coded as a GS-1101-12 as of the current date it should reflect what the Program Manager was GS coded as in the prior dated organizational charts). The same for the office symbol (for example if prior office symbol was GKC and is now WKD it should reflect that as well for each position). The lowest positions in the office will have 5 characters. For example, GKCLB (older org charts) or WKDNA (newer org charts). For privacy purposes the names can be omitted/blacked out if need be, however if a position is vacant then I request that not be omitted/blacked out if possible. This FOIA request should be routed to the Tinker Air Force Base FOIA office. Thank

2015-02516-F	Parsch, Andreas	-	02/12/2015	05/07/2015	This is a request under the Freedom of Information Act, 5 USC 552. I would like to obtain a summary of all aerospace vehicle MDS designations allocated since 1 October 2013. [NOTE: This request is, to all intents and purposes, identical to several earlier requests of the same kind, except for the later time frame of the requested MDS records.] 1. Why do I want the records? ===== I would like to obtain said records for private, non-commercial research purposes. I maintain a web page, at URL http://www.designation-systems.net/usmilav/412015-L(addendum).html , with all new MDS designations assigned after October 1998. According to paragraph 7.3. of AFI 16-401, 16 May 2014, DOD's official public MDS listing (DOD 4120.15-L, May 2004) will no longer be updated. Therefore I want to continue keeping my own listing up to date, as an easily accessible public reference to unclassified data about current MDS allocations. For this purpose, I request the MDS allocation summary since 1 October 2013. 2. Location of the documents ===== The DDD release authority for all current MD5 nomenclature records is AF/A8PE at HQ USAF, Pentagon. This request should therefore be handled by AF/A8PE. 3. Detailed requirements ===== I want to obtain brief information for every aerospace

					vehicle MDS assigned after 1 October 2013. The requested information is essentially that which used to be listed in DOD 4120.15-L (+ the date of the record), i.e. - Exact MDS - Manufacturer - Popular name - Engine data (number and type) - Department (AF, Navy, Army, etc.) - Unclassified description - Date of assignment The data should be provided in tabulated form, like the reply for earlier cases. I selected "E-mail" in the "delivery mode" field, and would prefer something easily machine-readable like an XLS spreadsheet or a PDF file. 4. Costs ===== This request should fall into the "Other" category, meaning 2 hours of search, the full review, and 100 pages of copies are free. From the scope of the request it is clear that only the electronic equivalent of a few pages will be returned. The search time for the records should also be limited. Therefore I expect that the fee will not exceed US\$ 25. In fact, for all previous requests of this kind, no fee was charged. Thank you very much for your help. Best regards Andreas Parsch

<u>2015-02539-F</u>	Collins, Rusty	-	02/17/2015	03/02/2015	My FOIA request is for a very large document which is the OFFICIAL Report of the May 3rd, 2013 Crash of a KC-135 Air Craft (Not the short/brief summaries online). Air Mobility Command has released the results of an accident investigation that examined what caused the May 3, 2013, crash of a KC-135 in the Kyrgyz Republic. The crew of three, en route from the Transit Center at Manas to Afghanistan on a combat aerial refueling mission, perished in the mishap. My request is for this report and also that it be sent to me by cd/dvd/disket since it will be a very large document. This will be easy and cost effective. I also request that the report be in a PDF format that is searchable (e.g. Ctrl +F to look for key words). I'm aware of the changes made and why they were made however I would assume this information is included in this OFFICIAL Air force report. If not then I would like to have these changes/alterations and the reasoning's for doing so. This should be public information and not just small take outs. I want the whole report. This is very important, I ask that this FOIA request be satisfied as quickly as possible. This info is easily obtained its just not easily obtained to the public, family members, service men and women who fly in these planes on a day to day basis. Date Ranges for Search are available below. I ask that no information is omitted or altered before my receipt of this report. It should include changes/ when the changes took place/ Why the changes took place. I need to know who the investigators spoke to or was not able to speak to when they came to Tinker Air Force Base. This should be in the reports however. I need the Full REPORT. Thank you for

					your time. (Date Range for Record Search: From 05/01/2013 To 02/16/2015)
<u>2015-02540-F</u>	Collins, Rusty	-	02/17/2015	03/18/2015	This FOIA request is in reference to FOIA request (2015-02444-F) I will submit this additional FOIA request because the chart given to me goes from a GS 14 (b)(6) down to three GS13s. Org Charts go below this and are considered part of the organization. My FOIA request is to find out who the chain of command is for Human Resource Specialist (b)(6) Also on my request for the KC-135 SPO org chart I hope that i don't receive one that stops at GS13. It should be the chart of the organization (the whole organization). If the branch chief for Finance section is a GS14, then there will be a GS13 below them, then GS 12s below them, then GS 11s below them. This chart should reflect the ENTIRE ORGANIZATION CHART FOR THE DATES SPECIFIED IN MY PRIOR REQUEST. I don't have time to go back and forth with these FOIA request to get something that I clearly asked for to get the Agency to reply properly and thoroughly. There is a reason that I am filling these request and there is also a reason that the agency wants to play the "isnt that all you needed" game. Top members of the Air Force know what an Organizational Chart is and also that it does not stop at GS13. This request and clarification should be sent to the Tinker Air Force Base FOIA Office in Oklahoma City Oklahom (Date Range for Record Search: From 01/01/2013 To 02/20/2015)

<u>2015-02549-F</u>	Wright, Neal	Society of American Military Engineers	02/17/2015	04/06/2015	In August 2012, the three Flag and General officer chief engineers of the uniformed services were briefed on the Society of American Military Engineers' (SAME) activities to assist the Non Commissioned Officer Corps in obtaining relevant civilian credentials in preparation for retirement or transition from the military. The anticipated drawdown in military forces is expected to impact over 7000 engineer specialty enlisted members. The Society of American

				Military Engineers then directed the formation of the Warrior Transition Task Force to identify opportunities for SAME to contribute to the credentialing of military engineers while still in uniform, so that they have better opportunities for employment after leaving military service. With a focus on the Enlisted Engineer force, the Task Force has worked closely with the US Army Engineer School, and coordinated with the US Navy and US Air Force engineer specialty training centers. The Task Force also teamed with the National Institute for the Certification in Engineering Technology (NICET) to review instructional curricula and correlate military education with requirements for civilian certification programs. The Task Force has highlighted programs and support now available to assist our military engineer force in completing the credentialing process. As part of our work, the Task Force is conducting a review of curriculum for all of the basic and advanced enlisted courses for engineer troops of the three services. Our goal is to determine the subjects taught, hours of contact provided and their applicability to be translated directly as input for civilian certifications, initially focusing on the technician level NICET certifications. We will ask a later SAME Task Force to look at the trades like plumbing, electrician and carpenter. Our initial hypothesis is that our service school enlisted engineer courses will provide solid education and background to enable our troops to become certified in those industry standard programs most beneficial to them both during their service and when they transition or retire from service. We have previously connected with the US Army Engineer School at Fort Leonard Wood, and obtained the detailed Plan of Instruction for all 27 of their Engineer MOS codes. We have likewise asked the US Navy for and have received from them the basic and advanced schooling Curriculum Outlines of Instruction for all the seven Seabee ratings. In accordance with my letter of Appointment as Co-Chair of the Warrior Transition Task Force (dated August 6, 2012), on behalf of SAME I am requesting electronic file copies of the Curriculum Outline of Instruction for all US Air Force enlisted engineer AFSCs, for both basic and advanced individual training in these specialties. We do not need every document that mentions a sub-contractor or set of sub-contractors, just one document for each sub-contractor or set of sub-contractors on the projects. Addresses and/or telephone numbers of the sub-contractors, if available, help us avoid errors in our research. Redaction of personal or tax information poses no problem for us. <u>2015-02600-F</u>	Trevithick, Joseph	War Is Boring (News)	02/19/2015	05/27/2015	Hi, I am looking to obtain a copy of aircraft records cards (aka Aerospace Vehicle Inventory History/Posting Report) or similar documents covering the status of a Boeing T-43A aircraft (believed to be currently designated NT-43A) with the following serial number: 73-11S5. The Air Force Historical Research Agency does not hold these records for aircraft purchased after FY95 and suggested that the Air Force Life Cycle Management Center at Wright-Patterson Air Force Base most likely held records for aircraft purchased since then. While the aircraft in question was originally purchased in FY73, the plane was reportedly delivered to what was then the Aerospace Maintenance and Regeneration Center (AMARC) at Davis-Monthan Air Force Base in calender year 1997 and restored to active service in calender year 1999. Thanks in advance, Joseph Trevithick (Date Range for Record Search: From 01/01/1999 To 02/19/2015)
<u>2015-02601-F</u>	Collins, Rusty	-	02/20/2015	02/26/2015	This is a FDIA Request is in reference to Final Letter 2015-02497-F. I cannot submit a letter stating that the agency

					has not fully responded to my request when they did not provide any information at all. The agency is stating that there is no records of organizational structure. This is outrageous as well as false. If the Agency cannot provide a full response then it should provide a partial response. Organizational charts are easily found. A tactic to buy more time does not justify intentional false information. I can assure that the organization has a structure. These request are serious and should not be taken lightly. How can the agency plead ignorance on this? Who do I provide proof of this intentional violation to other than the agency in violation? FOIA request are not a joke and should never be something to toy with as this creates (once again) a danger. If the KC-135 has no structure then its obvious that there is a major problem. My request is how to find a non corrupt part of the U.S. Government to address this to. Who other than myself can try and fix the alleged non structure having KC-135 SPO? Thank you Rusty Collins (b)(6) (Date Range for Record Search: From 02/11/2015 To 02/19/2015)

2015-02664-F	Wright, Neal	Society of American Military Engineers	03/25/2015	04/13/2015	In August 2012, the three Flag and General officer chief engineers of the uniformed services were briefed on the Society of American Military Engineers' (SAME) activities to assist the Non Commissioned Officer Corps in obtaining relevant civilian credentials in preparation for retirement or transition from the military. The anticipated drawdown in military forces is expected to impact over 7000 engineer specialty enlisted members. The Society of American Military Engineers then directed the formation of the Warrior Transition Task Force to identify opportunities for SAME to contribute to the credentialing of military engineers while still in uniform, so that they have better opportunities for employment after leaving military service. With a focus on the Enlisted Engineer force, the Task Force has worked closely with the US Army Engineer School, and coordinated with the US Navy and US Air Force engineer specialty training centers. The Task Force also teamed with the National Institute for the Certification in Engineering Technology (NICET) to review instructional curricula and correlate military education with requirements for civilian certification programs. The Task Force has highlighted programs and support now available to assist our military engineer force in completing the credentialing process. As part of our work, the Task Force is conducting a review of curriculum for all of the basic and advanced enlisted courses for engineer troops of the three services. Our goal is to determine the subjects taught, hours of contact provided and their applicability to be translated directly as input for civilian certifications, initially focusing on the technician level NICET certifications. We will ask a later SAME Task Force to look at the trades like plumbing, electrician and carpenter. Our initial hypothesis is that our service school enlisted engineer courses will provide solid education and background to enable our troops to become certified in those industry standard programs most beneficial to them both during their service and when they transition or retire from service. We have previously connected with the US Army Engineer School at Fort Leonard Wood, and obtained the detailed Plan of Instruction for all 27 of their Engineer

					MOS codes. We have likewise asked the US Navy for and have received from them the basic and advanced schooling Curriculum Outlines of Instruction for all the seven Seabee ratings. In accordance with my letter of Appointment as Co-Chair of the Warrior Transition Task Force (dated August 6, 2012), on behalf of SAME I am requesting electronic file copies of the Curriculum Outline of Instruction for all US Air Force enlisted engineer AFSCs, for both basic and advanced individual training in these specialties. (We're only interested in unclaimed vendor and accounts payable checks, not information on patients. (A list, instead of actual copies, is acceptable.) <u>2015-02704-F</u>	Brock, Peter	-	03/26/2015	06/11/2015	Greetings, FOIA request for information on United States Air Force Fire Protection Vehicles (apparatus). My name is Peter Brock and I have been collecting data on military fire protection vehicles for more than 30 years that include all branches of the Department of Defense. I am requesting a current roster of the fire apparatus in the United States Air Force inventory. This would include the Air Force registration number, vehicle type (engine, ladder, rescue, ARFF, etc.), vehicle capacities (fire pump size, water tank

					size, foam tank size, etc.), and the current installation assignment. I have enclosed several attachments to clarify my request. In the late 1990s I conducted research on the fire protection vehicles for the Air Force at Robins Air Force Base in Georgia. The data set reflects a historical account of the Air Forces Fire Protection fleet. This request shall be used to update my records which have not been updated since 2003. I submitted a previous FOIA request (2014-05280-F) and received a no records found reply. I disagree with the reply as I have physically had my hands and eyes on these records in the past. To help with the search, I have provided a flow chart as to where and whom these records can be found and have provided this information: Air Force Engineer Center Readiness Directorate Fire Emergency Services Division (located at Tyndall AFB) (b)(6) I have attached the FOIA request that was sent to Tyndall Air Force base. The last four pages of the document have quantifying information as the specifics of my request.

When I tested I did not have an EPR and I needed a skill level waiver. This initially prolonged the scoring of my test. I had contacted my unit testing manager as well as the MP5 center to remedy this. After it had been a few months, I went back to MPS and tried, again, to get my results. My vMPF was still showing "scores not available" in the promotions section. I then tested for the following years cycle and got my scores after only a couple of months. When that happened, vMPF only showed THAT year's results. I have never gotten my 13E5 test results and would like to have them for my record as well as to know if I made (b)(6) for that cycle. 2015-02742-F	Posey, John	-	03/03/2015	04/06/2016	This is a request made under the Freedom of Information Act (5 U.S.C. §552, as amended) and, if necessary for a more robust release of records, the Privacy Act (5 U.S.C. §552a, as amended). I am requesting all responsive records directly related to the key words provided as search criterion. Responsive records may be in the form of e-mails, tangible documents, or other mediums admissible before a military tribunal under M.R.E. 1005 or U.S. Federal Rules of Evidence. NOTE: This request is for information stored / transferred on both NIPR (Nonsecure Internet Protocol Router) and SIPR (Secure Internet Protocol Router) Networks. If routine conversations not requiring security classifications have moved from the NIPR platform to SIPR to subvert FOIA release, the President and the American public may reasonably find that information to be of significant importance. Key Words to use for records search: (John W. Posey III) / (Posey FOIA Requests) / (Closure of Professional Responsibility Complaint) / (Posey Art 64(a) Review) (b)(6) (b)(6) / (Posey Legal Reviews) / (SECAF Review) / (b)(6) (b)(6) / (Posey Appellate Review) / (Posey Admin Hold) / (b)(6) / (Posey IG Complaint) / (DD Form 2697) Records sought from the following member assigned to HQ, USAFE-AFAPRICA/JAA: (b)(6) (b)(6) In the event that access to any of the requested records is denied, please note that the FOIA provides that if only portions of a requested file are exempted from release, the remainder must still be released. I therefore request that I be provided with all non-exempt portions which are reasonably segregable.

					Further, I request that you describe the deleted material in detail and specify the statutory basis for the denial as well as your reasons for believing that the alleged statutory justification applies in each instance. Please separately state your reasons for not invoking your discretionary powers to release the requested documents in the public interest. Such statements will be helpful in deciding whether to appeal an adverse determination, and in formulating arguments in case an appeal is taken. This cooperative approach may also help to avoid unnecessary litigation; however, I reserve all rights of appeal as provided by the statute. Any material in the responsive records deemed repetitive (appears more than once) or non-responsive (DOD5400.7-R_AFMAN 33-302 definition) should be excluded from the final release; unless, the exclusion of such material substantially changes the cumulative response content (i.e. key information is omitted); in this circumstance, leave the record intact. Additionally, WAR Reports and other similar standard operating procedure records (SOD Briefings, Etc.) are to be excluded from this FOIA release. Access to the requested records is expected within twenty (20) business days from the date of your receipt. (Date Range for Record Search: From 09/01/2014 To 03/03/2015)

<u>2015-03044-F</u>	Cancian, Matthew	-	03/13/2015	04/02/2015 Dear Sir or Madam, I am writing an article for 'Armed Forces and Society' about trends in intelligence test scores of incoming officers to the military. I would like to have historical data from the Air Force, specifically: - Average AFOQT score of incoming officers by fiscal year (since the beginning of the AFOQT) - Any changes in standard or grading for the AFOQT (is there a new AFOQT every fiscal year? Are scores renormalized? When have they been renormalized?) - Average SAT score of incoming officers by fiscal year (ideally as far back as possible, but at least since FY 1980) I would prefer to have the raw test scores, but I understand that that might be too difficult to find. My endstate is to be able to chart the average AFOQT and

					SAT scores over at least the past 35 years and compare that to trends in other services. If there are any ambiguities in my request please contact me. Thank you, (b)(6) IRR Masters Candidate, The Fletcher School, Tufts University

2015-03363-F	(b)(6)	-	03/31/2015	04/20/2015	In Mar 2002, I was demoted and unceremoniously retired in the rank of TSgt. An SAV that I had requested, and that had been approved by then 354th OSS Commander (b)(6) (b)(6) was unjustly used by him to deem me derelict in my duties and unfit for continued service in the Air Force. I am attempting to correct this grievous injustice. I am requesting a copy of the 354th OSS OSCM (Flight Records/Management) and OSCF (Wing Scheduling) Unit Inspection results that came within months of the SAV that I had requested. (The SAV was conducted Jan 2002. Please include a copy of the official SAV results, as well.) The date of the Unit Inspection was between Jan and Jul 2002. The commander unjustly ended my otherwise unblemished and productive Air Force career. I believe that my prudent request of the SAV resulted in an Excellent or better rating for those two sections that were previously under my charge. I need the results of the Unit Inspection to show that my SAV request was clearly a benefit to our squadron's preparation.
