I have checked several times and have called the base education on Maxwell AFB and the answer that I keep receiving is that its updated in MILPDS and they dont know why its not making my records. The base education office on Maxwell has been of great help but they havent been able to resolve this issue. I have attempted to call AU but after several prompts the phone just rings and rings and I havent been able to get hold of anyone. I have also contacted the total force service center in regards to this and they cant see the update in MilPD5. 2015-03599-F	Annicelli, Lance	-	04/16/2015	04/30/2015	14 April 2015 MEMORANDUM FOR ALL REVIEWING AUTHORITIES FROM: (b)(6) (b)(6) (b)(6) SUBJECT: FOIA Case 2015-2837-F Appeal to

					Secretary of the Air Force 1. On 9 March 2015, I filed a Freedom of Information Act (FOIA) request for a copy of the 9th Medical Group Commander Directed Investigation (CDI), of (b)(6) (b)(6) On 10 April 2015, I received a response from the HQ ACC/ACP (FOIA) office along with a heavily redacted copy of the CDI report. The information I received was not responsive to my request. Therefore, I am appealing this action to the Secretary of the Air Force. 2. Based off of unknown allegations made against me, I was removed from command and informed that additional adverse actions are forthcoming. It is my understanding that the allegations are contained within the CDI report. Unfortunately, every one of the 30+ statements gathered by the Investigating Officer was completely removed from the copy of the report that I received. Without knowing what statements are being made against me, as well as who is making them, I am unable to adequately respond to adverse actions that have already been taken against me, as well as pending adverse actions that I know are being prepared. 3. I am specifically requesting an appeal to the Secretary of the Air Force for all copies of any witness statements and AF Form 1168 documents gathered by the Investigating Officer in the course of his investigation. I have noted several false and misleading statements within the body of the CDI which were referenced to witness tab testimonies. I am seeking this information for personal use and not for commercial use. 4. I am willing to pay all fees applicable to my category (i.e., commercial, educational, others) up to a maximum of 1,000.00 dollars. If you estimate that the fees will exceed this limit, please inform me first. Respectfully submitted, LANCE L. 2015-03654-F	Dean, Paul	-	04/30/2015	-	I am requesting, under the FOI Act, material held by the 1st Air Force/Tyndall AFB which includes: 1) any investigative reports; 2) briefs to commanders or command level staff; and/or 3) studies, meetings or general correspondence, which relate to the: 1) detection; 2) tracking/plotting; 3) resolution or non-resolution; of especially unusual, unexplainable or out-of-the-ordinary aerospace sensor detections, radar plots and/or imaging, etc. In other words, I am looking for material in the form of internal or external messages, reports written to, or for, or by command staff, minutes of meetings, memorandums, etc which relate/have related to puzzling aerospace events which do not match "normal" parameters for general aircraft, formations of aircraft, etc. I understand that on occasion, for example, the 601st AOC has dealt with very unusual tracks involving dedicated sensors (radar systems that build up and form a "recognised air picture") and that such incidents have been recorded, verified, summarised and sent to Commanders, as well as, various senior aerospace intelligence and technical staff, to mull over. So.. it is this sort of material I wish to have searched for. I would like the searches to cover the date range of 1994-2014. There are rather few of these events, thus, I am not looking to have mountains of paperwork released. I am simply looking for where and when very unusual air traffic, and recording of such, has caught the eye of senior staff to work on for a possible solving of the event, or a new course of action (say extra radar surveillance of a given area).

I am a consultant working for Ambac Assurance Corporation, which is part of the financing for the privatized military family housing at Vance AFB. 					following documents / record information be provided to me: 1. Most recent Housing Requirements Market Analysis (HRMA / HMA) 2. Current and forecasted full-time military population data a. This has full-time military personnel by rank for FY2015 and next five years (I have sample from Laughlin AFB, please email me to request, if required I have been unable to upload attachments to EFOIA site) 3. FY15 personnel classification with military and civilian personnel (civilian personnel typically divided into appropriate fund, non-appropriated fund, contractors and private business employees). a. This is the format typically provided in the annual Environmental Impact Statements; however, I would like FY15 data (I believe most recent EIS has FY13 data). (I can provide sample page for Laughlin AFB in FY13 please email me to request, if required) In order to help you determine my status for the purpose of assessing fees, you should know that I am affiliated with a private business and am seeking information for use in the companys business. I am willing to pay fees for this request up to \$300. If you estimate that the fees will exceed this limit, please inform me first. <u>2015-03828-F</u>	Bailey, Thomas	-	05/04/2015	07/02/2015	The purpose of this FOIA request is to obtain any documentation relating to the internal document processing of case number BC 2013-00688 for the Air Force Board for the Correction of Military Records. I have submitted a previous FOIA request on this case. That FOIA request resulted in my receiving all evidence relating to the matter. The purpose of this FOIA request is to delve into the

					internal operations and processes of the AFBCMR and to obtain any documents relating how this case is being administratively handled. Law dictates via 10 U.S.C. § 1552 that all cases which go to Military Boards for Correction must be adjudicated within 18 months. Due to errors, the AFBCMR annulled an erroneous verdict on this case in December 2014. It has now been over 28 months since I filed my appeal and no matter what I do, no matter whom I speak with, I cannot get the AFBCMR to move any faster than glacial speed. Every time I speak to the AFBCMR staff I get the same answer ... it's "actively being considered by the board". I specifically request to see internal actions that are being taken by the board, such as, but not limited to: documents showing why it took 4 months to determine that the AFBCMR erred in handling case # BC-2014-00688, when it should have taken no longer than 30 minutes to make this determination; What, specifically, is happening with my case? Presumably there is an internal tracking system which shows all the various steps being taken during the appeal process. I request to see this tracking system data ... who has seen my case? What date was the case sent to them? What timeline do they have to reply? Who will see my case next? Etc... (Date Range for Record Search: From 08/01/2014 To 05/30/2015)

<u>2015-04042-F</u>	Perry, Craig	-	05/18/2015	05/27/2015	Please release any records related to an inquiry by (b)(6) 2 AF/JA, into a commander-directed investigation (CDI) against me. This CDI was initiated by (b)(6) 37 TRW/CC, on 24 Dec 13, and cited in my relief of command of the 737 TRSS on 27 Mar 14. In an article about my case published on 27 Jun 14, (b)(6) SAF/PA, was quoted as saying, All of the allegations [against (b)(6)] were thoroughly reviewed and investigated at multiple levels and the reviews

				determined the investigations and follow on actions were appropriate. At that time, I was aware of only one investigation: the original 37 TRW/CC CDI. However, on 26 Mar 15, SAF/LL responded to an inquiry from the (b)(6) regarding my case, noting that 2 AF/CC appointed an attorney (b)(6) to investigate allegations I made against my commander through IG channels. As part of that inquiry, the investigating officer independently considered the now-closed 37 TRW/CC CDI, which (b)(6) used to justify my relief of command. Therefore, SAF/LL concludes, the allegations against me were thoroughly investigated twice. When I previously requested a copy of the 2 AF/CC CDI ROI on 18 Aug 14, it was deemed fully deniable in accordance with FOIA Exemptions 5, 6, and 7(c) on 22 Sep 14 (2014-06038-F). I again requested this ROI on 20 Apr 15, but this request for the same records was denied as not timely (2015-03636-F). I am therefore now requesting a different set of records: documents related to (b)(6) (b)(6) independent consideration of the 37 TRW/CC CDI, which both SAF/PA and SAF/LL characterized as a thorough investigation. If in fact (b)(6) conducted a thorough investigation of the allegations against me, and acted independently (i.e. not in his capacity as an attorney for 2 AF/CC), then the attorney work product privilege does not apply. According to the official 5AF/IGQ CDI Guide, a separate legal advisor will be assigned to assist the IO during such inquiries, and the legal review of the ROI should be a complete and thorough stand-alone document. This legal review would reasonably be subject to attorney work product privilege, but not the ROI itself. Moreover, redacted copies of such ROIs are routinely released. I received the original 37 TRW/CC CDI ROI from the JBSA-Lackland legal office on 12 Mar 14, and obtained a more complete version (including witness statements) on 17 Nov 14, in response to a FOIA request. One of my 37 TRW colleagues also received a copy of the ROI in a CDI against her through FOIA channels. 2 AF/CC even released the ROI from (b)(6) inquiry to (b)(6) on 22 May 14. There is no reason such
--	--	--	--	--

					records cannot also be released to me. Air Force spokespersons have repeatedly claimed allegations against me were thoroughly investigated at multiple levels. These statements are based on the assumption that (b)(6) independently considered my 37 TRW/CC CDI. Records of such a thorough and independent investigation cannot reasonably be considered attorney work product. If this request is denied, it will indicate Air Force spokespersons provided false or misleading statements to the media and Congress regarding my case. <u>2015-04052-F</u>	Gibson, Jennifer	Reprieve	05/18/2015	08/05/2015	Dear FOIA Officer: This Freedom of Information Act Request, made under 5 U.S.C. §552 et seq., seeks the production of any and all documents governing the presence and/or operation of German personnel at Cannon Air Force Base, as well as any and all correspondence between the United States and Germany regarding the same. Please provide the records in electronic form where the record is either a) maintained in electronic format or b) readily reproducible in electronic form. The undersigned does not seek these records for any commercial use, and thus understands that the first two hours of search time and the first 100 pages of duplication will be performed free of charge. 5 U.S.C. § 552(a)(4)(A)(iv)(II). As to any additional search expenses, please waive any fees because disclosure of this information is in the public interest and is not primarily in the commercial interest of the requester. 5 U.S.C. § 552(a)(4)(A)(iii). There are four-factors generally used to test whether the disclosure of information is likely to contribute significantly to public understanding of the operations and activities of government, and

				therefore qualifies for a waiver: (1) whether the subject of the requested records concerns the operations or activities of government; (2) whether disclosure of the requested records is likely to contribute to an understanding of government operations or activities; (3) whether disclosure of the requested records will contribute to a "reasonably broad" audience and whether the requester has the "ability and intention to disseminate the information to the public; and (4) whether disclosure of the requested record will contribute "significantly" to the public understanding. See D.C Technical Assistance Drg. v. HUD, 85 F. Supp. 2d 46, 48-49 (D.D.C. 2000); 28 C.F.R. § 16. 11 (k)(2)(i)-(iv). Rec. S16496 (Oct. 15, 1986) (Sen. Leahy). Therefore, the Ninth Circuit ruled, the amended statute is to be liberally construed in favor of waivers for noncommercial requesters. 132 Cong. Rec. Disclosure of the requested information is in the public interest because the request satisfies all four of the criteria for the public interest requirement: namely it concerns records related to the operations and activities of government, id § 5. 11 (k)(2)(i); disclosure will contribute to the public's understanding of United States government and the role of foreign military operations on US soil, id § 5.1 I (k)(2)(iii); and disclosure will have the significant benefit of educating the substantial number of Americans who follow United States government involvement with foreign military powers id § 5.11 (k)(2)(iv). It was jammed and would not jettison. This happened at Osan AFB Osan-Ni . I believe he was in the 69th Fighter Bomber SQ. Not 100% sure of that. It was assumed He hit a large rock on the runway and his wheels prematurely retracted at to low a level. He did not have enough air speed to take off and crashed. I watched him burn and scream for over 12 minutes. I was severely impacted and stressed by this event for 59 years. I am now seeking help from the VA. They indicate before I can get help. They need to know the Name, rank, Squadron . Day, date and time of this incident. Any reasonable information you can provide would be greatly appreciated (Date Range for Record Search: From 01/01/1956 To 01/02/1957)

Addresses and/or telephone numbers of the sub-contractors, if available, help us avoid errors in our research. Redaction of personal or tax information poses no problem for us.

<u>2015-04271-F</u>	Stern, David	-	06/01/2015	06/26/2015	FOIA PETITION (Request); USAF Contract 18(600)-1607 System R459L. Project title; "Hi-Fi Reece" (unclas name) "Brass Bell," (classified title). Description; a manned two-stage rocket powered hypersonic reconnaissance glide-vehicle. GOR Number 92 (TA-4E-I-6-59) Titled, GOR for a very high altitude Reconnaissance Weapons System. 1. USAF DD-613 R&D Project Card displays wording that nearly hints taht a Brass Bell Glider may be constructed. 2. Bell invested funds-their engineers developed inhouse exotic machinery and tools non-existent during the 1950s, in constructing Bell patented liquid cooling & insulation system test segments for an aluminum-airframe hypersonic boost-glider! They also constructed actual boost-glider cross-sections (partial fuselage and partial wing) tested in a special Bell Lab under extreme heat conditions and or in the NACA wind tunnels. 3. USAF issued continuous annual research funds to refine several types of Bell cooling & insulation systems long after they lost the Dyna Soar competition to Boeing-Martin-the contracts appear to extend to 1967. 4. In August, 1957, all boost-glider projects were ordered to be absorbed into R464L (Dyna Soar) Abbreviated Development Plan. This appears not to have been done to Brass Bell! 5. Bell Brass Bell study reports date into the summer

					of 1958, outright show that continued funding to refine Brass Bell extended into 1958, despite supposedly being absorbed into R464L in mid-1957. 6. Brass Bell is believed by this author to have been constructed (one to three gliders), with a B-36 Momship being the airborne launch platform for flight tests. A possibly solid or liquid booster may have been attached to Brass Bell to thrust it to hypersonic speeds during air-launches. 7. Since it would be classified, Brass Bell would require testing out of sight of espionage agents and the civilian population-the Wendover Test Range from WW I-I and post WW IL used for early missile tests or North Base above Edwards AFB proper-perhaps even Groom Lake a thoroughly remote site from prying eyes. Should this project exist, my FOIA petition is for; Declassification of all documents relating to Brass Bell; i.e, 3-view plans of the constructed version of Brass Bell. Construction photos. Momship photos and Brass Bell attached to it plus inflight photos. Logbook copies. Names of military, NACA, Bell, and test pilot personnel involved-of course. Bell evaluation reports on flight tests. Pilot notes on the flight characteristics of Brass Bell. The glider is not thought to have been applied to actual operational reconnaissance missions due to certain aerodynamic problems, although it would, indeed, surprise me. Should that have actually occurred, then the Soviet SAM systems and interceptor aircraft were totally neutralized if such missions occurred. Thank you.

The importance of this issue was recently highlighted by a report by the State Departments International Security Advisory Board, Report on Status of Forces Agreements, published January 16, 2015 and Defense Legal Policy Boards report on military justice in combat zones, delivered May 30, 2013. I am looking to obtain any final report on all-weather testing of an F-35B Lightning II aircraft at the 96th Test Wing's McKinley Climatic Laboratory at Eglin Air Force Base, Florida. As of February 2015, the testing was almost completed, according to an official US Air Force news item (See: http://www.af.mil/News/ArticleDisplay/tabid/223/Article/565265/f-35-nears-completion-of-all-weather-testing.aspx). I am willing to accept only the clearly releasable portions of this report with the caveat that I reserve the right to submit a follow-on request if I am not satisfied with the content of the release. If exemptions apply, I also ask that Air Force Materiel Command and the 96th Test Wing please consider exercising their discretionary release powers to disclose the records. In addition, I am looking to obtain a list of the titles of all reports generated by the McKinley Climatic Laboratory since 2010. Thanks, Joseph Trevithick

Our request is to receive the specifications and the amounts for all quotations submitted. This is not classified information, and is not in any way going to compromise any security issue! <u>2015-04552-F</u>	Brooks, Michael	-	06/18/2015	07/28/2015	I am making a FOIA request to retrieve redacted copies of my old Form 781s "Mission Data Sheets". I need a copy of official documents to prove that I was actively doing Flight Test here at the 412 TW (419 FLTS). This written proof will help me qualify for an Aerial Achievement Medal (AAM) for multiple flight test missions I flew on during my flight test career here at Edwards AFB. The AAM submission request is made directly to the Secretary of the Air Force, for Civil Service Flight Test personnel (as I am). Therefore credible official records are required--only the Form 781 will suffice. My email correspondence with our local HARM office indicates that the records of the time period of interest are most likely here at EAFB, in the staging area. They were not yet shipped away for storage as of April 29, 2014. I have corresponded with (b)(6) at NARA.gov in Riverside--she supplied the details (see enclosed, from April 29, 2014 plus attachments). These exchanges indicated that certain documents held at the Federal Records Center - Riverside, do exist, and contain relevant Mission Data AFTO 781 forms. However, these records are not from the appropriate year-2005. Her summary records Form 135 (4 of these) are provided to you to help narrow the search down to May of 2005 (the period that is missing.) Please note: I will be able to accept and use a "clearly releasable" copy of each form listed below, so long as key data is not redacted off of each form. The specific needed data needed is

					described in the attachment titled "Data Needed from Old 781s". Please contact me directly if certain data fields I have requested cannot be supplied.

<u>2015-04690-F</u>	Trevithick, Joseph	War Is Boring (News)	06/29/2015	08/24/2015	Hi, My name is Joseph Trevithick and I am a freelance journalist working for War Is Boring

					(https://medium.com/war-is-bor ing/) and other outlets. I am making this request as a "media" requester. I am looking to obtain copies of all correspondence between the 174th Attack Wing, New York Air National Guard and law enforcement agencies regarding requests for supporting the search for Richard Matt and David Sweat after their escape from the Clinton Correctional Facility in June 2015. A media report on Syracuse.com (See: http://www.syracuse.com/crime/index.ssf/2015/06/prison_escap_e_why_ny_wont_use_military_drones_in_search_for_killers.html) said that the 174th Attack Wing and the New York State Police discussed using the Wing's MQ-9 aircraft in the search. If an exemption applies to the information in any of these documents, I ask that the New York Air National Guard and 174th Attack Wing please consider exercising their respective discretionary release powers to disclose the records. Additionally, please release all reasonably segregable portions of the records that do not meet an exemption. I am also willing to accept and would prefer any release be in an electronic format if possible. Thanks, Joseph Trevithick

<u>2015-04721-F</u>	Bailey, Thomas	-	06/29/2015	01/04/2016	I currently have multiple IG complaints against the Air Force Board for the Correction of Military Records (AFBCMR). On 9 June 2015 the AFBCMR ruled on case # BC 2013-00688. The results were not in my favor. The Board denied my appeal based on a damning verbatim quote attributed to me, a quote I never made and found nowhere within the case file. I have written a letter of protest to the Executive Director of the AFBCMR. I have asked how it was possible that a three member panel could possibly all attribute a quote to me that I never made. The Board has suddenly gone quiet and will not address my concerns over the phone. I am concerned that the board is now engaged in a cover up as this has drawn Congressional interest. I request a copy of any and all electronic or written correspondence regarding my name, "Thomas Bailey", (b)(6) or "Case # BC 2013-00688" from anyone within the AFBCMR. In particular, any correspondence from the AFBCMR Executive Director, the case manager, the administrative staff.

					Additionally I request any information from the three member panel: (b)(6) (b)(6). The FOIA manager should look to see if there are any special AFBCMR records such as transcripts or records which detail deliberations amongst the panel members. I want to find out what influenced these members into attributing this false quote to me. Although I am putting "06/29/2015" as the end of the record search, I request the actual date range conclude at the time of the actual search by the FOIA manager, sometime well beyond 06/29/2015. <u>2015-04742-F</u>	Balls, Eddie	Essex and Suffolk Water	06/30/2015	07/21/2015	Hello, I hope you can help me with this query. Essex and Suffolk Water are currently looking for a new site in Holton to drill a new borehole to be used for public water supply. One of the sites on the short list is close to the former RAF Halesworth site. It has been requested that we obtain more information on the land use, chemicals stored and any historic land contamination that may have occurred when RAF Halesworth was operational and being used by USAF. The shortlisted site has the grid reference 641243,278912, we would be particularly interested in any information you have on historical RAF use

					within the vicinity. I have searched online for information but have not found much, though it appears that the shortlisted site maybe outside of the RAF Halesworth historical boundary if you can confirm this that would be very helpful. If you need any further information from me, please let me know. Regards, Eddie (Date Range for Record Search: From 01/01/1943 To 08/31/1945)

<u>2015-04744-F</u>	Johnson, Allan	-	06/30/2015	08/11/2015	Pursuant to the FOIA, I hereby request one copy of Air Mobility Command records that include the number of aircraft for aircraft types (mission-design-series) owned and/or operated by Air Mobility Command, including the C-17A, C-5 variants, C-130 variants, Operational Support, and VIP aircraft. Please include records that detail the number of primary authorized aircraft (PAA), back-up aircraft, and total aircraft by mission-design-series; and that further detail the PAA at squadron level and Assignment Purpose Identifier Code (CA, IF, etc.) or equivalent description. Also please include any records that contain this information as of the end of each yearly quarter. The time period for which I would like the data is from approximately the fourth calendar quarter of calendar year 2002 (beginning around October 1, 2002) through approximately the third quarter of calendar year 2016 (ending around September 30, 2016). It is possible that data after the second quarter of calendar year 2015 might be estimated and/or budgeted data as opposed to data reflecting actual historical fact. My objective is to populate a set of tables on a mission-design-series basis such as the attached sample (FOIA-C17.xls), which uses the C-17A as an example. For fiscal years 2003 through 2014 the most fruitful sources are probably the Air Mobility Command annual command histories, as it seems highly likely those histories should contain the information I am requesting. If so, please extract those sections and forward. The remaining information for 2015 and 2016 may have

					to be obtained from current plans and/or operations. I would prefer the information in portable document file (pdf) although traditional paper will suffice. In order to help you determine my status to assess fees, you should know that I am an individual seeking this information for personal, not commercial, use as part of an historical research project I am undertaking. I am not associated with any organization, either commercial, non-commercial, or educational, nor am I a member of the press. I am willing to pay fees associated with this request up to \$100.00. Please advise if the fees will exceed this amount as well as how to make payment. It is my understanding that you are allowed up to 20 working days to respond to a FOIA request.
