					While Exemption 3 allows for information to be legitimately withheld based on prohibitions contained in other statutes 10 U.S.C. Section 130 is limited in scope to "blueprints drawings plans instructions computer software and documentation or other technical information." The briefing question is listed as a "program review" and I would imagine that it contains at least some information that is not technically descriptive in nature. In addition little to no substantive information about the Blue Devil Block 1 program has been released to the public beyond acknowledgements of the program's existence basic mission and broad utility to the warfighter. Any information releasable information would likely be of interest to the public.																
					I would like to request that the document be reviewed again to 1) confirm that any material initially withheld under Exemption 3 legitimately falls under the parameters of 10 U.S.C. Section 130 and 2) to see that any information that does not be released.

					As you may know FOIA was designed to "pierce the veil of administrative secrecy and to open agency action to the light of public scrutiny" see e.g. Dept. of the Air Force v. Rose 425 U.S. 352 361 (1976) and in order "to ensure an informed citizenry vital to the functioning of a democratic society needed to check against corruption and to hold the governors accountable to the governed." NLRB v. Robbins Tire & Rubber Co. 437 U.S. 214 242 (1978); see also Judicial Watch Inc. v. Rossotti 326 F.3d 1309 1310 (D.C. Cir. 2003); United States Dept. of Justice v. Reporters Comm. For Freedom of the Press 489 U.S. 749 773 (1989). As the Supreme Court has observed "virtually every document generated by an agency is available in one form or another unless it falls within one of the Act's nine exemptions." NLRB v. Sears Roebuck & Co. 421 U.S. 132 136 (1975).																		
					The above described agency records are subject to disclosure under FOIA and are not otherwise exempt from disclosure pursuant to FOIA's nine statutory exemptions. See 5 U.S.C. § 552(b)(1) - (9). However to the extent that a specific determination is made that any limited portion(s) of the records listed above will be withheld from disclosure for this request FOIA expressly requires all agencies to disclose "[a]ny reasonably segregable portion of a record . . . After deletion of the portions of the record which are exempt." 5 U.S.C. § 552(b). See e.g. Oglesby v. U.S. Dept. of Army 79 F.3d 1172 1178 (D.C. Cir. 1996); see also Abdelfattah v. U.S. Dept. Of Homeland Security 488 F.3d 178 186-187 (3rd Cir. 2007).																		
					In addition the 2007 Openness Promotes Effectiveness in our National Government Act amendments to FOIA (the "OPEN Government Act") expressly require identification of the amount of any material withheld the location of any withholdings a direct reference to the specific statutory exemption supporting each withholdings asserted and if technically possible also require that this information shall "be indicated at the place in the record where such deletion is made." See 5 U.S.C. § 552(b). The FOIA Control Number assigned to your request is 2015-03623-F.

GOR Number 92 (TA-4E-16-59) Titled GOR for a very high altitude Reconnaissance Weapons System. 1. USAF DD-613 R&amp;D Project Card displays wording that nearly hints taht a Brass Bell Glider may be constructed. 2. Bell invested funds-their engineers developed inhouse exotic machinery and tools non-existent during the 1950s in constructing Bell patented liquid</p>	88CS	CS	Complex (30)	6/2/2015	5/3/2015	6/1/2015	7/14/2015		6/25/2015	\$0.00	OT - 03 Request Withdrawn	2018-03723-F				
					cooling & insulation system test segments for an aluminum-airframe hypersonic boost glider! They also constructed actual boost glider cross-sections (partial fuselage and partial wing) tested in a special Bell Lab under extreme heat conditions and or in the NACA wind tunnels. 3. USAF issued continuous annual research funds to refine several types of Bell cooling & insulation systems long after they lost the Dyna Soar competition to Boeing-Martin-the contracts appear to extend to 1967.																
					4. In August 1957 all boost-glider projects were ordered to be absorbed into R464L (Dyna Soar) Abbreviated Development Plan. This appears not to have been done to Brass Bell! 5. Bell Brass Bell study reports date into the summer of 1958 outright show that continued funding to refine Brass Bell extended into 1958 despite supposedly being absorbed into R464L in mid-1957. 6. Brass Bell is believed by this author to have been constructed (one to three gliders) with a B-36 Momship being the airborne launch platform for flight tests. A possibly solid or liquid booster may have been attached to Brass Bell to thrust it to																
					hypersonic speeds during air-launches. 7. Since it would be classified Brass Bell would require testing out of sight of espionage agents and the civilian population-the Wendover Test Range from WW II and post WW II used for early missile tests or North Base above Edwards AFB proper-perhaps even Groom Lake a thoroughly remote site from prying eyes.

2016-02004-F		Closed 5.6.16. Tasked to 711 HPW/OM (LL)	ST4	(b) (6)	I am the State Public Health Veterinarian for Kansas. I am also a Lieutenant Colonel in the Kansas Air National Guard and serve as the Public Health Officer for the 190th Air Refueling Wing. As part of my civilian duties I lead the Arboviral Surveillance Program for the state of Kansas. This includes an active mosquito surveillance program. We also work with our military counterparts (Fort Riley, Fort Leavenworth and McConnell Air Force Base) to obtain mosquito surveillance results and enter this data into ArboNet. Only State Health Departments have access to enter data into ArboNet. Unfortunately many of my civilian counterparts in other states do not receive mosquito surveillance data from the DoD facilities in their state. According to Department of Defense policy (attached) and Air Force Instruction 48-102 mosquito surveillance data is required to be shared with local and state health departments. I believe that personnel turnover in both military and civilian organizations may affect the flow of information and may be one reason for the disconnect. I also believe the DoD mosquito data could increase the overall knowledge and picture that each state and the nation has of mosquito activity.	711 HPW	OM	Complex (30)	3/4/2016	3/3/2016	3/4/2016	4/14/2016		5/6/2016	\$0.00	RL - Fully Releasable	2018-03723-F				
					All Air Force Installations are required to perform vector surveillance including mosquito surveillance per AFI 48-102. Mosquitoes are collected by Air Force Public Health Personnel and sent to entomologists at the United States School of Aerospace Medicine at Wright-Patterson AFB OH. Therefore they should have a centralized database of the information I am requesting.																
					I am requesting weekly mosquito surveillance data from 01/01/2011 - 12/31/2015 for all Air Force installations that submitted mosquitoes in a Microsoft Excel file of the following data; Date mosquitoes collected date mosquitoes received instillation from where the mosquitoes were collected the county and state the instillation located collection method trap nights species of mosquitoes number of males number of females and West Nile virus or all arboviral disease test results. If you prefer the name of the instillation can be omitted but I will need the county and state.																
					I will use this data and compare it to the Center for Disease Control and Prevention's ArboNet dataset to determine how much additional coverage the mosquito surveillance information would provide to the national surveillance database. The dataset the Air Force provides will not be published however the results will be aggregated and published in a public report which I will share with the USAFSAM entomologists. This mosquito data does not contain personal protected information nor is it classified. Thank you for your assistance.

					My name is (b) (6) and I am a freelance journalist working for War is Boring (warisboring.com) and other outlets. I am making this request as a "media" requester.															
					I am looking to obtain any briefings produced by the 645th Aeronautic Systems Group or its subordinate elements that describe the goals/objectives capabilities of or progress of a project for the Federal Bureau of Investigation nicknamed "Render Safe" and on supported projects for the Drug Enforcement Administration during calendar years 2013 and 2014.															
					According to the FY14 history of the Air Force Life Cycle Management Center the Big Safari Division handled "DEA support projects" and "two Render Safe program aircraft were delivered to the Federal Bureau of Investigation."

					This is an appeal under the Freedom of Information Act 5 U.S.C. 552. On July 27 2016 I made a FOIA request to your agency for emails between NDMA Office Team Lead (b) (6) President of Textron Aviation Defense (b) (6) and Textron AirLand LLC President (b) (6). On August 5 2016 your agency denied my request on the grounds that no records were found. Copies of my request and the denial are enclosed. The information which I have requested is clearly releasable under FOIA and in my opinion may not validly be protected by any of the Act's exemptions. I appeal because as you can see from the enclosed August 2 USAF press release (b) (6) are three of the four signees of the CRADA between Textron and the USAF. Common sense says that there had to have been email exchanges among the three parties over the six month time period I requested be search. 					A study was conducted that impacted our contract our responsibility is corrosion control/washrack services for the aircrafts at Kessler AFB MS. Our service went from 30 days to 90 day interval. Based on the data collected in the environment severity indexing (ESI) and a AFCPCO (Air Force Corrosion Prevention & Control Office) Survey and an Assessment study data was used to change our contract. Then our service reverted back to 30 days. This is our primary business and these studies impacted our federal contract #FA3010-12-D-0005 wash rack services at Kessler AFB. Per the 81/Cons Kessler AFB MS recommended that we file a FOIA for the information.

					It is my understanding the conversion process involved removing the single-seat forward fuselage from a Swiss F-5E and replacing it with a dual-seat forward fuselage from a Navy F-5F. It is my further understanding that the Navy performed this conversion on three aircraft and that the project was (unofficially) named "Franken Tiger".															
					The material that I am requesting would (possibly) be in the form of a Time Compliance Technical Order (TCTO) or a Commercial Service Bulletin (CSB). The material would describe the step-by-step instructions necessary to perform the conversion. The material may include drawings. The material may also include estimates of man-hours required to perform the tasks.

2017-00417-F		Referred 3.20.17. Tasked	ST3	(b) (6)	Hi My name is (b) (6) and I am a freelance journalist working for War Is Boring (warisboring.com) and other outlets. I am making this request as a "media" requester. I am looking to obtain copies of any products the National Air and Space Intelligence Center produced and/or provided in support of the Joint Strike Fighter program between award of development contracts in 1996 and the decision to award the System Development and Demonstration Contract to Lockheed Martin in 2001. 					According to GAO Report 17-10 "The Air Force materiel commands (Air Force Space Command and Air Force Materiel Command) use acquisition intelligence specialists to support acquisition programs identified as intelligence sensitive. These specialists along with intelligence analysts at the National Air and Space Intelligence Center provide intelligence products and input based on their individual levels of experience and training."															
					If an exemption applies I ask that that National Air and Space Intelligence Center consider exercising the agency's discretionary release powers to disclose the records. Additionally please release all reasonably segregable portions of the records that do not meet an exemption. I am also willing and would prefer to receive any release in an electronic format.															
					Thanks

2017-03809-F	Other		ST3	(b) (6)	Under the Freedom of Information Act 5 U.S.C. Subsection 552 I am requesting all information and records pertaining to Inspector General Complaint No. 2017-08668. On March 29 2017 our firm filed a formal complaint with the Department of Defense Inspector General (IG) which was forwarded to the Air Force Life Cycle Management Center ("AFLCMC") IG for resolution. Our IG complaint regarded Contract Nos. F48620-14-C-3020 and F48620-15-C-4034. On May 26 2017 the complaint was forwarded to the Deputy Director of the AFLCMC Contracting Directorate to conduct an inquiry. On July 20 2017 I received a letter indicating an inquiry had been conducted a determination had been made the contracts were properly awarded and the IG complaint was closed without further action (Enclosure 1). I seek a copy of that inquiry and all information and documentation used in making this determination that the contracts were properly awarded to include any investigations or inquiries conducted into the potential conflicts of interest between 645th Aeronautical Systems Group ("Big Safari") and the awardee L3 Technologies Inc. (formerly L-3 Communications). If there are any fees for searching for reviewing or copying the information requested above then please notify me before processing if the amount exceeds \$100.00. 2017-04334-F			ST2	(b) (6)	This request is made pursuant to the Freedom of Information Act (5 U.S.C. § 552) ("FOIA"). We respectfully request that the United States Air Force (the "Air Force") provide copies of any task orders or delivery orders including all modifications thereto awarded by the Air Force which included the delivery of computed tomography system digital radiography system tomography manipulator x-ray equipment or such related type of equipment under any of The Network-Centric Solutions-2 ("NETCENTS-2") Contracts. Should the Air Force conclude that any part of the contract documents are exempt from disclosure under FOIA we request the production of copies of all material reasonably segregable from the material which it concludes is exempt and to produce redacted copies of materials containing both exempt and non-exempt information. We further request that the Air Force advise us of the exemptions which it believes cover any material that it considers exempt. We agree to pay applicable search and reproduction fees incurred in fulfilling this commercial use request provided that the Air Force first notifies us before acting on the request if the total fees are estimated to exceed \$500.
