2016-01182-F	Mulloy, Brian	-	1/7/2016	In early April 2015 (b)(6) sent an appeal to the 340 FTG to be routed to 22 AF/CC, Maj Gen Harris. The appeal centered on questions regarding AF1 mandated support for reservists injured in the Line of Duty. Col Youngblood, the reviewing officer of the appeal, provided Maj Gen Harris an opinion that contained multiple mistakes and inaccurate statements regarding the facts of (b)(6) line of Duty accident. These mistakes could have only come from Col Bowman's (340 FTG/CC) remarks that accompanied (b)(6) appeal. Col Bowman's additional inputs painted a vastly different picture of (b)(6) accident and must have attempted to explain the lack of support provided on (b)(6) (b)(6) behalf. Unfortunately, this rational has never been communicated with (b)(6). On 18 Jun 15, the 340 FTG/IG informed (b)(6) that (b)(6) 340 FTG/JA and (b)(6) 340 FTG/SG coordinated remarks on behalf of Col Bowman that were sent forward with (h)(6) appeal letter to Maj Gen Harris. Col Youngblood stated in his response: On 14 May 2015, you sent me the following documents and asked for an opinion: 1) Col Bowman's memorandum to you dated 28 Apr 15, 2) (b)(6) memorandum for record dated 6 Apr 15, and 3) an unsigned Referral Completion Report form (h)(6) dated 7 November 2014 (b)(6) s requesting all inputs and remarks prepared by (h)(6) as referenced the 340 FTG/IG, for Col Bowman and used to rationalize the lack of support provided to (b)(6) following and LOD injury. Additionally, (b)(6) is requesting Col Bowman's communication to Maj Gen Harris listed by Col Youngblood as a document received and dated 28 Apr 15. 2016-01247-F	Long, Susan	TRAC	1/12/2016	<p>Dear FOIA Officer: Under the provisions of the Freedom of Information Act, we request a case-by-case listing of all FOIA requests received by the FOIA office from October 1, 2012 – December 31, 2015 with the following data fields: (a) Assigned request tracking number (b) Office (where multiple components) (c) Date of request (d) Date request was received (e) Track assigned (where used) (f) Date closed (where closure has occurred) Please note you will be regularly receiving requests for updated information on your FOIA workload. To the extent you have previously provided us complete information in the requested format on a particular closed case, it is not necessary to provide information on that case again. However, if you find it simpler to provide information on the status of every request received during this time period, this is certainly acceptable as well. This listing should be provided as a CSV or other equivalent machine-readable text format that retains the structure of the text in its original tabular form. [Equivalent formats, for example, include Excel, tab-delimited text, XML, fixed-column-width text. PDF files do not meet this requirement since the tabular structure of the text is stripped off from the original source when a PDF format is created.] We request that we be classified as a representative of the news media under the provisions of the Freedom of Information Act, and as representatives of an educational institution, whose purpose includes scholarly, scientific research. TRAC is a center jointly sponsored by the Newhouse School of Public Communications and the Whitman Management School at Syracuse University. TRAC's faculty and staff carry out an active program of scholarly research, publication and distribution under the direction of its co-directors, Dr. Long and Professor Burnham. Our work focuses on the federal government and its day-to-day activities, including how federal agencies implement their obligations under the Freedom of Information Act. For more than two decades, we have gathered information of interest to the public, transformed this information utilizing our editorial and research expertise into various works -- including computerized knowledge bases and reports -- and actively distributed these works through a variety of channels, including through our two public websites: http://FOIAproject.org and http://trac.syr.edu. Our publications are widely used by other researchers, the news media, government, and the public. For a sample of recent citations to our research and reports, see: http://trac.syr.edu/tracatwork/. We also request a full waiver of fees. As you are aware, FOIA sets strict time limits for responding to requests because timely receipt of the information that must be made public is a cornerstone of having an informed citizenry. Thus, there is substantial public interest in monitoring the success of an agency in meeting these timeliness goals. Indeed, because of their public importance, Congress requires each federal agency to compile and publish statistics on FOIA response times and pending caseloads each year. However, by the time these FOIA reports are available to the public, they are no longer timely. It is the purpose of this request to gather and analyze the requisite data to provide regularly updated FOIA monitoring reports on your agency. We look forward to receiving this information.</p>

2016-01315-F	Connolly, Bradford	-	1/19/2016	I would like any information pertaining to the purchase, storage, use, shipment, research, disposal of the herbicide Agent Orange at Little Rock Air Force Base before, during and after the conflict in the Republic of Vietnam. Specifically, how did the containers of Agent Orange get from the nearby manufacturing facility (Hercules/Vertac) in Jacksonville, Arkansas to LRAFB and onto C-130 or other cargo planes. Was the abandoned rail system that runs parallel to North Redmond Road and bisects General Samuels Road used for any of the shipments back or forth? Has the environment within the air base been tested for dioxin residuals? If so, what are the levels recorded and what mediation was performed (when and where). My understanding is that approximately 25% of the Agent Orange purchased by the DoD for ROV came from the facility in Jacksonville, Arkansas that was once a munitions factory. 2016-01353-F	Trevithick, Joseph	The War Zone	1/20/2016	Hi, My name is Joseph Trevithick and I am a freelance journalist working for War Is Boring (warisboring.com) and other outlets. I am making this request as a "media" requester. I am looking to obtain any records produced by Air Force Special Operations Command related to a Project IX, also possibly known as Project 9. The Capability Development Document (CDD) for MC-130 STOL (Short Take-Off and Landing) "Super Sport," dated 9 April 2013 cites three documents related to a "Project IX." The Super Sport project was also known as both "New Magic" and "Project 10." While I am willing to accept only the releasable portions of the document, I ask that AFSOC consider exercising its discretionary release powers to disclose as much of the records as possible, including information marked with a sensitive, but unclassified notation such as "Unclassified/For Official Use Only" or U/FOUO. Additionally, please release all reasonably segregable portions of the records that do not meet an exemption. I am also willing and would prefer to receive any release in an electronic format. Thanks, Joseph Trevithick

2016-01441-F	Stevenson, Joshua	-	1/25/2016	I am a former student there at Laughlin. I went through the Commanders Review (CR) in August of last year and I was removed from training. I was hoping to obtain electronic copies of all documents contained within the CR folder. Specifically, I'd like to have the complete package I submitted to the CR, the MFR submitted by (b)(6) and any documents produced by Col Runkle and Col Shank. I am not completely familiar with the full contents of the folder though, so I would like electronic copies of any other documents that led to my removal. They all should be contained within a CR folder in one of the drives, perhaps with the student squadron. I am looking for the complete contents of my CR folder, to include any MFRs produced by (b)(6) Col Runkle, or Col Shank. If there are any other contents in the folder, I want all of that electronically as well. The STUS should be helpful in locating these folders.

2016-01446-F	(b)(6)	-	1/25/2016	This request is to help prove a history of violence, needed as soon as possible. My hearing is Thursday January 28, 2016. I don't care which method you choose to deliver it to me whether certified mail, email @ (b)(6) or it can be faxed to (b)(6) with Attention to (b)(6) for (b)(6). In 2012, sometime between February and May, I called the Peterson AFB Military Police to assist in breaking up a fight between 2 men who were at my house (in garage (b)(6)). My husband had some friends over and had been heavily drinking. My husband was too intoxicated to even notice the 2 men fighting, and I was not only 6/7 months pregnant but also had 2 children sleeping in the house, therefore I called police (non-emergency) just to have the 2 men broken up and sent home for the night. When police showed up everyone panicked and started running, and when the officer was taking down my statement/report of incident, my husband verbally started cussing me out and threatening me to the point the officer did not feel comfortable leaving with him in the house. Therefore his command was called which fired him up more. I am looking to obtain this incident report in full hoping that it will help prove the history of violence as I am now trying to defend myself in court because I had to get a Protection From Abuse order. 2016-01501-F	Trevithick, Joseph	The War Zone	1/27/2016	Hi, My name is Joseph Trevithick and I am a freelance journalist working for War Is Boring (warisboring.com) and other outlets. I am making this request as a "media" requester. I am looking to obtain a copy of the clearly releasable portions only from the most recent annual or otherwise regularly published command history for the 432d Wing at Creech Air Force Base, Nevada. On February 19, 2015, I submitted an identical FOIA request and was informed that due to a catastrophic computer failure, no such histories existed. I am looking to obtain the clearly releasable portions of any annual or otherwise regularly published command history produced since then. While I am willing to accept only the releasable portions of the document, I ask that 432d Wing consider exercising its discretionary release powers to disclose as much of the records as possible, including information marked with a sensitive, but unclassified notation such as "Unclassified/For Official Use Only" or U/FOUO. Additionally, please release all reasonably segregable portions of the records that do not meet an exemption. I am also willing and would prefer to receive any release in an electronic format. Thanks, Joseph Trevithick

So if 460870 is available I would be requesting the entire roll (glad to pay the \$30 for it). This is one of the few 4133 BW history files not yet declassified and covers a period 45 years ago. A continued classification of confidential indicates that it has been downgraded in the past and may have reached an automatic review period. Regardless, deals with a conventional bombing campaign using systems (B-52 D models) no longer in service, and is in a collection of records that is already declassified. My interest is for historical study and I would like to order the roll for some research I am doing.

2016-01643-F	Terry, Lisa	Keres Consulting, Inc.	2/3/2016	I am currently researching an U.S. Air Force plane crash that occurred on May 7, 1970 on Pueblo of Isleta lands, in New Mexico. The plane was an F-100C Super Sabre, accepted by the USAF into service on September 30, 1955. From research I've conducted online, radium was used in the luminescent paint on military airplane gauges prior to the 1960s. Since this particular aircraft was put into service in 1955, it is likely its gauges contained radium paint. The crash site still contains some debris from the crash, including small pieces of aluminum, wiring, tubing and electronic components but most of it was removed at the time of the incident. There were also burned areas at the time of the crash but those no longer exist. The attached report provides additional details on the crash and aircraft. I am hoping someone at the ESOH Service Center could help determine if radium contamination, and/or its resulting health risks, are likely to exist at the crash site.

2016-01703-F	Berkowitz, Steve	USA Today	2/9/2016	1. The equity/revenue-and-expenses report completed by the athletic department for the National Collegiate Athletic Association for the 2015 fiscal year. I realize that the deadline for this report to be submitted to the NCAA is Jan. 15, 2016, but I am sending this request now in case the document already has been submitted. It is a multi-page document that contains 40 revenue and expense categories, followed by specific breakdowns of each of those categories, by sport and gender. I am requesting the full report, including the detail tables, the Other Reporting Items list and the Statement of Revenues and Expenses that appears at the end of the report. PLEASE NOTE: The NCAA report is different than the equity report that is sent to the U.S. Department of Education for Title IX compliance. 2. The current contracts for the men's and women's basketball head coaches. If a contract is under negotiation, please forward the current contract but let me know that a new contract may be forthcoming. If there is no contact for one or both, please forward the letter(s) of intent or other document(s) outlining each coach's conditions of employment -- including bonus structure -- and/or a current statement of salary. 3. The current contracts for the three full-time men's basketball assistant coaches. If a contract is under negotiation, please forward the current contract but let me know that a new contract may be forthcoming. If there are no contracts, please forward the letters of appointment or another document that lists the coaches' conditions of employment -- including bonus structure -- and/or their current salaries. 4. The most recent athletically related outside income reports for the five coaches listed above: the men's and women's basketball head coaches and the three men's basketball assistants. This is the annual document filled out each year by all coaches to comply with NCAA Bylaw 11.2.2, under which athletic personnel must report income earned from sources other than the university. Since there is no due date specified by the NCAA, please forward the most recently signed report.

2016-01725-F	Bergmans, John	-	2/10/2016	FOIA Request for Aerojet and Centrojet Reports This is a Freedom of Information Act (FOIA) request to obtain a copy of the following two technical reports: 1) "Tests of the Aerojet Powerplant for the Aerojet Engineering Corp." JPL-GALCIT, Test Rep. No. 1-6, 22 Feb 1945. The author is PJ Meeks. 2) "Tests of the Centrojet Power Plant for the Aerojet Engineering Corporation", GALCIT Test Report 1-5, March 13, 1945. The author is C.R. Foster. Mr. Robert Powers, JPL Library and Archives Group Supervisor, stated that the JPL Library and Archives has microfilm copies of both of these reports. According to Mr. Powers, report #1 was prepared under contract to the Air Technical Service Command, which at the time was a branch of US Army. Mr. Powers stated that this report is declassified, but has not been released previously by either JPL or the US Army. As a result JPL is not able to release this document at this time. Mr. Powers has not stated so explicitly, but I believe that the status of Report #2 is that it is also declassified, but not previously released and that this report was also prepared under contract to the Air Technical Service Command. This request is being submitted to the Air Force Material Command since this organization appears to be the descendent of the Air Technical Service Command. If this is not the correct "Requester Service Center" for this FOIA request, could you please advise me on where I should submit this request? As background, at Mr. Powers' recommendation, I had previously submitted an FOIA request to the US Army but that request was not approved since SMDC (the Army agency to whom my request was directed) does not have records related to the request. I would be pleased to forward to you my correspondence related to this previous request if that material could benefit this current request. If needed, Mr. Powers may be reached by e-mail at (b)(6) to obtain a copy of the reports for your review. For your reference, Mr. Powers' phone number is (b)(6). I am willing to pay up to \$100 for the release of these two reports. Please contact me if you have any questions or concerns about this request. 2016-01884-F	Mathieson, John	-	2/24/2016	I am requesting all statements that were taken regarding the incident in Building 158(Gyro Shop) on 4/23/15. The incident involved (b)(6) and I going to B158 to investigate why the temperature failsafes on the Flight Data Transmitter test station environmental chamber were being reported as not working. Previously we had repaired the temperature chamber and tested the failsafe circuit cards but test equipment status reports had indicated the temperature failsafes were not working and the chamber had to be "babysat". Upon attempting to gather information about temperature sensor discrepancies and verify the failsafe circuitry, I asked (b)(6) about the temperature discrepancies, he said he didn't know and ran off and got (b)(6) (PMEL supervisor) (b)(6) arrived and immediately started yelling at me and told me not to change anything on the chamber. He seemed to be under the impression that I had made changes to the chamber after it had been calibrated. I informed him that I didn't change anything. I asked about the temperature discrepancies and he shouted I don't know, don't change anything. I repeated that I hadn't changed anything. (b)(6) elevated the situation, and was unwilling to discuss the technical issues. (b)(6) and I left the building to return to B645. I was told not to go back to B158 and I am being accused of sabotaging the environmental chamber. These statements are being used as a basis for "lowering" my mid-year appraisal and generating negative comments on that appraisal. (b)(6) (402 EMXG/MXDEA) and (b)(6) (h)(6) (402 EMXG/MXDE) both have access to these statements. The statements are needed so I can properly address them in my appraisal administrative grievance.

2016-01988-F	Stribling, Bradley	-	3/3/2016	On, or about, October 31, 1948 an Air Force C-47 on a flight from Wright-Patterson AFB to Tinker AFB made a forced landing in a field outside of Greenup, Illinois. Evidently there were no casualties though the aircraft suffered damages to its landing gear. In the weeks to follow, the damaged landing gear were repaired and, because the natural boundaries of the small field did not permit a safe takeoff, the plane was also outfitted with JATO. On, or about, December 8, 1948, that C-47 was successfully flown out of the small field by (b)(6). The information I request concerns the original forced landing of the C-47 near Greenup, Il., specifically, the identities of the pilot and crew and any passengers, the identification of the C-47 aircraft, the mission of that flight, and the determined cause of the mishap. The Aircraft Accident Report, with the written statements by those involved to the Aircraft Accident Board, would be the ideal document. My interest in this matter is that it ties in nicely with a presentation I am developing that is a respectful tribute to the Air Rescue Service of that time. 2016-02004-F	Trevino-Garrison, Ingrid	Kansas Department of Health and Environment	3/3/2016	I am the State Public Health Veterinarian for Kansas. I am also a Lieutenant Colonel in the Kansas Air National Guard and serve as the Public Health Officer for the 190th Air Refueling Wing. As part of my civilian duties I lead the Arboviral Surveillance Program for the state of Kansas. This includes an active mosquito surveillance program. We also work with our military counterparts (Fort Riley, Fort Leavenworth, and McConnell Air Force Base) to obtain mosquito surveillance results and enter this data into ArboNet. Only State Health Departments have access to enter data into ArboNet. Unfortunately many of my civilian counterparts in other states do not receive mosquito surveillance data from the DoD facilities in their state. According to Department of Defense policy (attached) and Air Force Instruction 48-102 mosquito surveillance data is required to be shared with local and state health departments. I believe that personnel turnover in both military and civilian organizations may affect the flow of information and may be one reason for the disconnect. I also believe the DoD mosquito data could increase the overall knowledge and picture that each state, and the nation, has of mosquito activity. All Air Force Installations are required to perform vector surveillance, including mosquito surveillance, per AFI 48-102. Mosquitoes are collected by Air Force Public Health Personnel and sent to entomologists at the United States School of Aerospace Medicine at Wright-Patterson AFB, OH. Therefore they should have a centralized database of the information I am requesting. I am requesting weekly mosquito surveillance data from 01/01/2011 - 12/31/2015 for all Air Force installations that submitted mosquitoes, in a Microsoft Excel file, of the following data; Date mosquitoes collected, date mosquitoes received, instillation from where the mosquitoes were collected, the county and state the instillation located, collection method, trap nights, species of mosquitoes, number of males, number of females, and West Nile virus, or all arboviral disease test results. If you prefer the name of the instillation can be omitted but I will need the county and state. I will use this data and compare it to the Center for Disease Control and Prevention's ArboNet dataset to determine how much additional coverage the mosquito surveillance information would provide to the national surveillance database. The dataset the Air Force provides will not be published however the results will be aggregated and published in a public report which I will share with the USAFSAM entomologists. This mosquito data does not contain personal protected information nor is it classified. Thank you for your assistance. (Date Range for Record Search: From 01/01/2011 To 12/31/2015)

2016-02225-F	Van Dusen, Randall	-	3/16/2016	16 March 2016 Headquarters Air Force/AAIL (FOIA) 1000 Air Force Pentagon Washington, DC 20330-1000 Phone: (703) 693-2735/692-9981 Fax: 571-256-3110 Email: usaf.pentagon.saf-aa.mbx.haf-foia-workflow@mail.mil I am requesting, under the "Freedom of Information Act", information on the LGM-118 Peacekeeper Garrison Train. The intended use of this information is to model this train in 1:29 (or 1:35 scale) for use on a garden railroad layout and display of these railcars in activities with the Kenosha Garden Railroad Society, a 501(c) 3 group which I am a member of. This information may have been developed by the major contractors of Boeing Aerospace Corp, Westinghouse Marine Division, and Rockwell International Autonetics for the USAF Strategic Air Command and been part of records maintained by HQ Ballistic Missile Office (BMO) at Norton AFB California which was absorbed by the Space and Missile Systems Center (SMC) in September 1993. In FY96 close-out efforts for Peacekeeper production and Peacekeeper Rail Garrison along with Peacekeeper sustainment items were transferred to the ICBM System Program Office (SPO). Specifically I am requesting "releasable information, drawings and pictures" containing: 1. Dimensioned drawings in all views of: a) Missile Launch Car (known prototype WECX1002) b) Security Car (known prototypes DAFX0004 and EMS2 DAFX0003) c) Launch Control Car (known prototypes DAFX0002 and DAFX0006) d) Maintenance Car (known prototypes TBCX90050 and TBCX90051) e) Tank Car (known prototype TBCX90001) 2. Interior lay out drawings and conceptual drawings of the above listed railcars 3. Conceptual drawings of any other railcars proposed for garrison train (crew messing and berthing cars?). 4. Conceptual and/or dimensioned drawings of base shelters as proposed and layout of base area for proposed rail garrison squadron at any one of the proposed bases (The Main Operating Base would have been F.E. Warren AFB, Wyoming, and the other six bases were to be Barksdale AFB, Louisiana; Little Rock AFB, Arkansas; Grand Forks AFB, North Dakota; Dyess AFB, Texas; Wurtsmith AFB, Michigan; and Fairchild AFB, Washington) 5. Detail drawings of launch tube erecting mechanisms and roof opening on launch car. 6. Detail drawings of the bolster unit used to mount dual trucks at each end of these special railcars (truck being a generic term for the two axel [and four wheel] assembly used in support of railcars on rails). 7. Detail drawings of missile launch car's rail jack system used to stabilize launch car. Not requested, but welcome is historical and ancillary information on these trains, for example: What was the final disposition of the railcars? What other railcars were built? What squadron designations and insignia were developed? Delivery of this information by electronic means by PDF to e-mail, and/or by disk via USPS is welcome. Hard copy by USPS is also welcome but expected to cost too much. I am retired and on a fixed income. I can afford but a maximum of one hundred dollars US to this effort, and would rather to keep it to less than twenty. Randall D. Van (b)(6) e-mail: (b)(6)

2016-02280-F	Ogden, Michael	-	3/22/2016	Good morning, I am submitting this FOIA request in order to verify information provided to and used in Louisiana Courts by one (b)(6). We have already established (by speaking with his supervisor) that he has forged multiple orders, so we are forced to send this request to verify all other information reported. Incase it may make your job easier, here's a brief background: (b)(6) forged orders sending him to New York to the 106 rescue wing in early 2016. I personally spoke with the man whose name was on the bottom of the order (b)(6) supervisor. (b)(6) (b)(6) and he said the orders were forged and he did not give them, nor did anyone else working for him. (b)(6) has told the La courts that he is in the Air Force, and that he was ordered back to NY, which is why he abandoned his wife and three children. Further, (b)(6) brought his family to Lake Charles, Louisiana in 2014 (before abandoning them here) under the pretense that the air force SENT him here. We believe he fabricated that as well, and would love to be able to verify this. I am not nor have I ever been in the military, so please excuse any civilian phraseology used in the following requests, and just interpret the requests the way they make the most sense. Specifically, I am looking for all releasable information regarding: His dates of service in all branches of the Air Force, including a DD214 and whether or not (b)(6) is currently even in the air force. His salary during those dates he was with the air force. ANY orders given to him to relocate to any location, specifically New York and Louisiana, but also any others that may exist. Any official orders he may have had that would relate to him being in a particular location, Any requests for relocation he may have submitted, Any records of misconduct while in the military Anything relating to voluntary or involuntary discharge/leaving/retiring from the Air force Any other official military orders given to (b)(6) Any addresses you have on file for (b)(6) in New York, if those can be released Anything else you might deem relevant based on the background I have provided (anything reasonably easy to discover, of course) Thanks very much for your time and your service! (b)(6) am the protected victim of the no-contact order and as such I request a copy of the order to protect myself if and when the order is violated, I need the order to provide to law enforcement to prove it does in fact exist. As the victim of the no-contact order, I have a right to know the specific details stipulated in the order, the effective dates, and additional instructions or clauses contained in the no-contact order. As is the case in any protective or no-contact order, it is the victims responsibility to keep a copy of the order to provide law enforcement and the courts when requested. Not only am I the named victim on the military no contact order, the document contains my name and personal information which I have a right to see and keep. A military no-contact order is worthless unless the victim can produce the order to enforce the order, and in my case, the perpetrator, (b)(6) dies it exists, potentially putting myself and family in harms way with no recourse. I had dropped her off and she was having a rough morning and the caregivers were not assisting in any way with drop off. I left the room and went and watched the video on the monitors at the front of the building to make sure she calmed down and everything was ok. After a few minutes had passed, the caregiver carried her to the corner of the room and began fighting with her and then picked her up in a rough manner and forced her on her back. I filed a complaint with the director and requested to view the footage again and was informed that I was unable to view this footage due to legal reasons but I could go through base legal to obtain this footage. All in all, I just want to be able to view the footage again up closer at everything that unfolded with this situation as it could potentially be abuse. 2016-02425-F	(b)(6)	48 MDSS	3/31/2016	Request all police reports involving myself and Army (b)(6) currently stationed at Ft Benning, GA. I ended our relationship in Jan 2016, and my partner, (b)(6) didn't respect my decision. He flew to the UK and stalked me for days, trying to get near me. There are multiple police reports regarding the stalking. He visited my off base house regardless of being told no by me and he was given a direct order by the RAFI SFS to not visit me. I'm requesting this report as support for my expedited on base housing application. Since (b)(6) knows where I live, and he can access my property, it would be safer for my children and I to live on base. If I'm not able to receive the report, I respectfully request the housing counselor, (b)(6) GB USAF USAFE 48 CES/CEIHH, (b)(6)@us.af.mil to receive the report as supporting documentation with my on-base housing application. Thank you for your consideration.

2016-02729-F	Harden, Blaine	Viking/Penguin publishing Company	2/15/2016	<p>Requester seeks: I am an author writing a biography of the late AF (b)(6) who served in OSI District 8 in South Korean from 1949 to 1951, when he was transferred to Fifth Air Force intelligence as a special investigator during the Korean War. In an OSI-published 2009 book, The Air Force Office of Special Investigations: 1948-2000, by (b)(6) J. Hagerty, I have come across references to three Korean War-era OSI histories that mention (b)(6) at length. They are: "History of Det. 2, 6004th AISS, June 1946 thru Dec. 1952" and "History of FEAF OSI, 1 Oct. thru 31 Dec. 1950" and "History of FEAF OSI, 16 Sept thru 15 October 1950." These three files were listed in the footnotes of Hagerty's book as being in the library of OSI. The footnote references are on page 132, fn 31, 36, 38. I have spoken to the author of the OSI history, Col. Edward J. Hagerty (retired), and he told me that the files above were transferred to AFHRA at Maxwell AFB in Alabama about five years ago, when OSI downsized its history operation. He also said the documents, which he used in his book for his excellent section on (b)(6) were not classified. I am seeking access to these documents at AFHRA, either in paper or electronic version. Hagerty says he is quite sure they went to AFHRA and that (b)(6) himself seems to have been the author of the 46 thru 52 history of Detachment 2. And I am aware that it is a strangely named document, since Det. 2 of the 6004th did not come into existence until 1951. Researchers at AFHRA tell me in an email that it can only release these documents to me with the permission of OSI. That should be a pro forma release, since they are more than 65 years old and have been substantially published already in Hagerty's book. Public release is also required under the Freedom of Information Act.</p>
