I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government, is not in any commercial interest, and due to the fact that I am eligible for "news media" status. 2018-00068-F	Herlik, Edward	-	10/05/2017	Commander endorsement. The AFBCMR denied my 2007 appeal of adverse actions taken by Air Force Space Command staff officers and then subsequently stated that our commander effectively endorsed the required AMT 1058 by not documenting his objections to those adverse actions. In other words, the AFBCMR claimed that a commander legally endorses staff actions, without documentation, through his/her inaction. I request specific passages or sections from those denials, or any AFBCMR denial, that in any way address the AFBCMR rationale that not objecting constitutes legal endorsement as required by AFI 36-2907 paragraph 3.4.1. 2018-00180-F	Herlik, Edward	-	10/16/2017	Personnel records. The AFBCMR denied my 2007 appeal of adverse actions taken by Air Force Space Command staff officers and then consistently cited that record to deny subsequent appeals. I request specific passages or sections from that record, and from any record CREATED by the AFBCMR, that in any way address the fact that nothing in my personnel records documents those adverse actions. In other words, given that my personnel records as they exist today indicate I should have been promoted and finished my career normally, I request specific citations from AFBCMR records related to

				the fact that Air Force leaders took adverse personnel actions apparently without documenting their acts in my personnel records. At a minimum, the search will find my appeal on that lack of personnel records basis. I do not request whole records or any other unresponsive material, though an entire record with the responsive passages or section highlighted is acceptable. 2018-00278-F	Anderson, Jack	-	10/24/2017	The former Chanute Air Force Base located in Rantoul, IL closed in 1993 and the United States Air Force has and continues to be engaged in the environmental restoration of the former base. The former Chanute Air Force Base Restoration Advisory Board (RAB) had been formed and established to advise decision makers on community concerns regarding environmental cleanup. At the May 18, 2017 RAB meeting a local resident and RAB Board member, (b)(6) spoke to the 1974 disposal of Chanute AFB construction refuse having been disposed of in providing fill to develop the base of at what is called "Rotary Hill" at Brookhill Park, a part of the Rantoul Park District, just north of Rantoul. (b)(6) point was that the refuse came from demolished buildings on Chanute and the Air Force then transported the debris for disposal of it at Brookhill Park. The debris were used to create a large base for the construction of a Rotary Hill for children to use for snow sledding. The debris from Chanute has the potential to contain hazardous materials consistent with construction materials used prior to the creation of the EPA. And that these possibly hazardous materials were covered over without containment barriers. In response to (b)(6) inquiry, the RAB facilitator (b)(6) GS-12, DAF, Program Manager, BRAC Execution Branch, Air Force Civil Engineer Center, Office: (b)(6) Cell: (b)(6) email: (b)(6)@us.af.mil, AFCEC/CIBE, 9801 Reese Boulevard North, Ste 300, Lubbock, TX 79416-2107 said the Air Force had written a letter to the Illinois EPA (within the last year), explaining that based upon what is known, Rotary Hill was constructed with fill materials from various sources including from Chanute. However, it would not be possible to distinguish with any certainty the origin of the fill material. I have twice sent (b)(6) emails (June and Sept 2017) requesting a copy of the letter sent to the Illinois EPA he was referencing but I have not received any response. I would like to request any and all communications, in the form of a letter or other electronic communication, prepared by the Air Force and forwarded to the Illinois EPA referenced during the above exchange concerning Rotary Hill. In order to help to determine my status for purposes of determining the applicability of any fees, you should know that I am making this request for personal research use and not for commercial use, and as such the information will not be used in part or whole for sale, resale, or solicitation or advertisement for sales or services.

2018-00618-F	Amara, Bryan	191 MXS	11/17/2017	BLUF: I am seeking email traffic regarding the promotion of (b)(6) who is my CMF Superintendent. I would like the emails that were exchanged between (b)(6) and (b)(6). The email addresses are as follows: (b)(6)@mail.mil, (b)(6)@mail.mil, (b)(6)@mail.mil, (b)(6)@mail.mil, (b)(6)@mail.mil, (b)(6)@mail.mil, (b)(6)@mail.mil, (b)(6)@mail.mil. In the email chain I am requesting, the members involved made a comment of "win some, lose some," which I will present to the IG as evidence of intentionally interfering with the promotion processes, which they have no authority to do. 2018-00712-F	Hartel, Ralf	None	11/21/2017	This is a non-commercial request made under the provisions of the Freedom of Information Act, 5 U.S.C. Sec. 552. Hereby I respectfully request a search of available records maintained by the Edwards Air Force Base pertaining to Groom Dry Lake, Nevada as a preferable emergency landing site for the North American X-15 and the discussed use of airspace over the lakebed area. Between 1960s and 1970s the hypersonic rocket-powered aircraft was operated by the United States Air Force and the National Aeronautics and Space Administration as a part of the X-plane experimental series. My request includes a search for a report concerning a two-day survey trip of USAF personnel from Edwards AFB in July 1959 to investigate potential emergency landing sites for the X-15 rocket plane. The Groom Dry Lake was the fifth stop on the trip. Furthermore I request a search of correspondents between Edwards AFB and National Aeronautics and Space Administration as well as the Central Intelligence Agency (former owner of a operating test location near Groom Dry Lake) concerning the dry lakebed as a potential emergency landing site. The requested information to me is in the public interest and it is likely to contribute significantly to public understanding of the operations or activities of government or military authorities and is not primarily in my commercial interest. Pursuant to the United States Open Government Act my FOIA requester status is a "representative of the news media" - a status entitling me to an unlimited full fee waiver search processing my request, and the first 100 pages free of charge. I am a freelance journalist and writer. My work commonly appears in different newspapers and online sites. If you do not accept my FOIA status, please consider me as "all others requester". 2018-00715-F	Gambrell, Jon	-	11/27/2017	Dear Sir or Madam: Under the Freedom of Information Act, 5 U.S.C. § 552, I hereby request any report, storyboard, photograph, video, email or record created regarding the Nov. 4, 2017, launch of a ballistic missile by Yemeni Shiite rebels known as Houthis toward Riyadh, Saudi Arabia. This event was recently brought up by Lt. Gen. Jeffrey L. Harrigian of U.S. Air Force Central Command during a news conference in Dubai, United Arab Emirates, on Nov. 10, 2017. The lieutenant general said that Air Force Central Command had material that proved Iran manufactured the missile used in the attack. This request would cover any material to which Lt. Gen. Harrigian had access, as well as any material provided to the Air Force by Saudi Arabia. Because this is a request by the news media for records in the public interest, I ask that you waive any search fees in accordance with § 552(a)(4)(A)(ii)(II). If the fee for retrieving or reproducing these records will exceed \$50, please notify me before filling this request. I can be reached at (b)(6) or at (b)(6). I also request an expedited review as this is a matter of widespread and exceptional media interest in which there exist possible questions about the government's integrity which affect public confidence, especially as the lieutenant general's comments are now being used by Saudi Arabia and its allies as a reason to go to war with Iran. For that same reason, there is also an urgency to inform the public about an actual or alleged federal government activity. Further, I remind you that former President Barack Obama directed that the FOIA "be administered with a clear presumption: In the face of doubt, openness prevails." Memorandum for the Heads of Executive Dep'ts and Agencies, 74 Fed. Reg. 15, 4683 (Jan. 26, 2009). This instruction is unambiguous: "All agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA, and to usher in a new era of open Government. The presumption of disclosure should be applied to all decisions involving FOIA." Id. If for any reason any portion of this request is denied, please provide written notice of the records that were withheld, and the specific legal justification for the denial. Please also provide the name and address of the officer or body to which my appeal should be directed. As you know, the Act, in § 552(a)(6), grants your office no more than 20 working days in which to respond to this request. See also Oglesby v. U.S. Dep't of Army, 920 F.2d 57, 65 (D.C. Cir. 1990) ("Congress adopted the time limit provision in the FOIA in order to 'contribute to the fuller and faster release of information, which is the basic objective of the Act.'" (quoting H.R. Rep. No. 93-876, March 5, 1974., reprinted (1974) U.S. Code Cong. & Ad. News 6267 at 6271)). Agencies therefore "should make it a priority to respond in a timely manner. Timely disclosure of information is an essential component of transparency." (Attorney General's Memorandum for Heads of Executive Dep'ts and Agencies Concerning the Freedom of Info. Act, at 3 (Mar. 19, 2009), available from <a href="http://www.justice.gov/ag/foia-memo-march2009.pdf">http://www.justice.gov/ag/foia-memo-march2009.pdf</a> ). I look forward to your prompt reply. 2018-00774-F	Russell, William	-	11/29/2017	(b)(6) (DOB (b)(6)) was a pedestrian in a parking lot on the Naval Weapon's Station on Saturday, October 28, 2017 around 11:00 a.m. when she was run over by a white pickup truck. She was taken to the hospital and but was never given any report. (b)(6) was never given a case number to obtain a report nor was she given the name of the driver or their insurance information. Please provide a copy of every document completed by your agency related to the investigation of (b)(6) incident i.e. collision report, list of all individuals involved in the accident, insurance information of all parties, diagram, witness name(s), witness statement(s), copy of any citation(s) along with a corresponding court date and photograph taken in the normal course of the investigation. (b)(6) (b)(6) s.af.mil, refused to explain why an accident report was not completed. Furthermore, he refused to release witness statements that confirm an accident occurred on government property. It has been over a month from the accident and nobody from Security Forces Charleston has contacted the 88 year old victim to provide her with the name of the person who ran her over. (b)(6) was transported to the hospital with no information as to what happened to her. If not for my inquiry, (b)(6) a citizen of United States, would still not know what happened to her. I find it incredulous that (b)(6) does not believe that he owes and explanation why his Security Team did not investigate the accident of an 88 year old woman who was transported to the hospital for an accident that was captured on video. Moreover, a creditable witness told Security Forces that the driver of the truck admitted to her that she struck (b)(6) with her truck. I submitted a Certificate of Identity signed by (b)(6) all information pertaining to her accent to be released to myself. (Date Range for Record Search: From 10/28/2017 To 10/28/2017)

2018-00816-F	Magnet, Christine	-	12/01/2017	please send the review documentation on AF IG case FRNO 2017-01053 as the investigators told me they could not tell me the date used to start the one year mark to review the complaint I submitted. I need whatever they wrote to explain their decision or any of their documents since you are not able to answer any questions as they indicated. Please note, they told me to file a FOIA when I asked for information, including which date did you use? The complaint had ongoing dates, so the allegations were not from one static date. Why did the IG office refuse to give me the date to set their one year mark? Also they used AFI rather than UCMJ to review allegations of violations of UCMJ.

2018-00943-F	Pawlyk, Oriana	Military.com	12/27/2017	I'm looking to receive more information regarding the malpractice of the 552nd Commodities Maintenance Squadron, based at Tinker Air Force Base, Okla., regarding the F-16C crash based out of Joint Base Andrews on April 5, 2017. ACC first noted that the work performed by the 552nd Commodities Maintenance Squadron was "a substantially contributing factor" in the crash. "A preponderance of evidence showed that the main engine control was missing a required 600-degree training ring and the anti-rotation pin," the original release states. "The misassembled differential pressure pilot valve caused the main engine control to incorrectly meter abnormally high fuel flow to the engine. This led to severe engine overspeed, severe engine over-temperature, engine fire, and, ultimately, a catastrophic engine failure." I'm looking to understand exactly what was missing in this routine maintenance. Too few airmen to check the engine parts? How can the engine not have been inspected properly yet it was able to fly as long as it did before the engine bottomed out? How is this preventable going forward? I'm requesting this action under ACC, which oversees the 552nd, but also Tinker AFB and Joint Base Andrews. Please pass through the chain of command as appropriate.
