2020-02457-F	Greenewald, John	The Black Vault	4/6/2020	<p>THIS WAS ORIGINALLY EMAILED AND FAXED TO AFOSI ON 12/16/2019. I HAVE FOLLOWED UP NUMEROUS TIMES FOR A RESPONSE, AND HAVE NEVER RECEIVED ONE. I AM SUBMITTING THIS HERE IN HOPES TO GET ONE. To whom it may concern, This is a non-commercial request made under the provisions of the Freedom of Information Act 5 U.S.C. S 552. My FOIA requester status as a "representative of the news media." I am a freelance television producer often working on documentaries related to my FOIA requests, my work is commonly featured throughout major news organizations, and I freelance writer for news sites as well. Examples can be given, if needed. I prefer electronic delivery of the requested material either via email to john@greenewald.com, FAX 1-818-659-7688 or via CD-ROM or DVD via postal mail. Please contact me should this FOIA request should incur a charge. I respectfully request a copy of records, electronic or otherwise, of the following: ALL documents, reports, memos, letters, e-mails, etc. that pertain to ANY investigation into the unauthorized leak of two videos, labeled on a DD Form 1910 filed to received U.S. government use only, that described these videos as "Gimbal" and "GoFast". Please see attachment for form that was released by OSD to myself via FOIA. I am submitting this to AFOSI, as based on a recent statement released by Pentagon Spokesperson Susan Gough, she informed investigative journalist Tim McMillan (as published at https://www.coyotestail.com/post/why-is-afosi-investigating-navy-ufos-google-com-pub-3204705799189445-direct-f08c47fec0942fa0) "The two 2015 videos appeared in the New York Times in December 2017. At that time, AFOSI conducted an investigation, focusing on the classification of the information in the video. The investigation determined the videos were not classified. That in itself (being unclassified) does not automatically approve material for public release." It is with this statement that I believe AFOSI will have responsive records. Therefore, I ask that you consider any/all reports, letters, memos, emails, etc., that pertain to any investigation referenced, on these two videos, as responsive to this request. Thank you so much for your time, and I am very much looking forward to your response. Sincerely, John Greenewald, Jr. 27305 W. Live Oak Rd. Suite #1203 Castaic, Ca. 91384</p>

2020-02752-F	Williams, Michael	-	5/12/2020	I am requesting data regarding military justice actions for a non-commercial project I am working on. I understand the USAF maintains a database of all military justice (NJP and Courts-Martials) actions taken against individuals for all Air Force locations (CONUS, OCONUS, permanent installation, temporary location, etc.). I would like a spreadsheet compatible file, preferably Excel, alternatively in CSV format that contains all available historical and current information in the database. If the data produced is too large to fit into 1 file, the data may be divided into multiple files (least number of files necessary to complete this request). I am NOT seeking personally identifiable information of the individuals (Name, Social Security Number, Service Number, DOB) in the database, so that information can be excluded or masked. While I would like all available data, key data points for each case I am seeking includes, but is not limited to: Dates (for all key events of each case), Rank, Gender, Race, Unit/Squadron, Location action was taken (Base name), AFSC, Time in Service, Time in Grade, UCMJ Article(s) charged, Type of Action (NJP, General CM, Special CM, Summary CM), Forum (Unit Leadership, Judge Alone, Judge and Panel Members, etc.), Disposition (No Action Taken, Acquittal, Guilty, etc.), Sentence/Punishment Info (Reduction in Rank info, Withholding of Pay info, Confinement Info, Letter of Counseling, Letter of Reprimand, Involuntary AFSC Retraining, Involuntary Separation/Discharge, etc.), Discharge Type (Honorable, General, Administrative, Medical, Bad Conduct, Dishonorable, etc.), Case Status, and Case Notes/Comments (to include any plea bargain agreements). The time frame I am seeking is from 01 JAN 1989 to the current date. I have been told the database contains information back to the 70s, however if that is not the case, and data back to 1989 is not available, I would like the start date to be the oldest available date to the current date. If the data contains acronyms, please provide a list of the acronyms and their meanings. (Date Range for Record Search: From 01/01/1989 To 05/12/2020)

I am a journalist and researcher with a proven track record of publishing (for example: https://www.thedrive.com/the-war-zone/27541/these-are-the-briefings-president-elect-trump-got-on-the-f-35-air-force-one-and-nukes) or supporting publication (see: https://www.thedrive.com/the-war-zone/15902/document-confirms-b-21-to-be-delivered-optionally-manned-and-nuclear-capable). If there estimated fees exceed the stated dollar amount, please let me know before you proceed with this request. I am looking to obtain a copy of a Commercial Air Refueling report that the Air Force recently provided to the House Armed Services Committee (see: https://www.airforcemag.com/air-force-extends-study-on-feasibility-of-private-aerial-refueling/) If an exemption applies to the information in any of these documents, I ask that Headquarters, Air Force please consider exercising its discretionary release powers to disclose the records. If there are no complete lines marked unclassified, I still request a line-by-line review to determine any reasonably segregable portions of the record that are not subject to an exemption. That the document's overall classification might be above unclassified and that certain sections are marked above unclassified does not mean there is no releasable information or that it is not reasonably segregable from classified or otherwise exempt information. I am also willing to accept and would prefer any release be in an electronic format if possible. Thanks in advance, Joseph Trevithick Thanks in advance, Joseph Trevithick (Date Range for Record Search: From 01/01/2020 To 05/12/2020)

Â§ 552, I request a copy of LL Report: Global Engagement 2018, 18-29 June 2018 (ignore date range below) I request you search all electronic and paper-based records systems and databases for these materials and provide any/all of these records in electronic format if possible. I also request a cross-reference search. I specifically request that you include so-called "non-responsive" material per the Court of Appeals for the District of Columbia Circuit in American Immigration Lawyers Association v. EOIR, 830 F.3d 667 (D.C. Cir. 2016) which found that FOIA "does not provide for . . . redacting non-exempt information within responsive records." As declared by the court, "once an agency identifies a record it deems responsive to a FOIA request, the statute compels disclosure of the responsive record—i.e., as a unit—except insofar as the agency may redact information falling within a statutory exemption." Also, under "FOIA Improvement Act of 2016" "each agency, in accordance with published rules, shall make available for public inspection in an electronic format ... copies of all records, regardless of form or format that have been requested 3 or more times." This clause is within (a)(2), which has no provision whatsoever for fees. The statute explicitly says "requested", not "provided." If my request is rejected, I will file two additional requests so that it will meet the requirements of the statute. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Please ignore the "willing amount" and notify me by email prior to your incurring any expenses in excess of \$.01. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a member of the news media and this information is of timely value, I would appreciate your communicating with me by email, rather than by mail, if you have questions regarding this request. Please do not close this request, for any reason, unless I explicitly request it in writing. 2020-03229-F	Turse, Nick	The Nation Magazine	6/9/2020	Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request any documents related to mass casualty events attended to by the 720th Operations Support Squadron Special Operations Surgical Team from 2001 to the present in MS Excel format. I request you search all electronic and paper-based records systems and databases for these materials and provide any/all of these records in electronic format if possible. I also request a cross-reference search. I specifically request that you include so-called "non-responsive" material per the Court of Appeals for the District of Columbia Circuit in American Immigration Lawyers Association v. EOIR, 830 F.3d 667 (D.C. Cir. 2016) which found that FOIA "does not provide for . . . redacting non-exempt information within responsive records." As declared by the court, "once an agency identifies a record it deems responsive to a FOIA request, the statute compels disclosure of the responsive record—i.e., as a unit—except insofar as the agency may redact information falling within a statutory exemption." Also, under "FOIA Improvement Act of 2016" "each agency, in accordance with published rules, shall make available for public inspection in an electronic format ... copies of all records, regardless of form or format that have been requested 3 or more times." This clause is within (a)(2), which has no provision whatsoever for fees. The statute explicitly says "requested", not "provided." If my request is rejected, I will file two additional requests so that it will meet the requirements of the statute. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Please ignore the "willing amount" and notify me by email prior to your incurring any expenses in excess of \$.01. (Date Range for Record Search: From 09/11/2001 To 06/08/2020)

2020-03271-F	Garrison, Jennifer	-	6/11/2020	Request Command Directed Investigation Report of Investigation from Maj Gen Mark Slocum. Need ROI,dates24Apr2020,404 pages with no redactions. On 21 May, I received a LOR and responded back to the LOR on 26 May. Three days later now-Maj Gen Slocum provided a heavily redacted CDI ROI to me (29 May). Maj Gen Slocum then provided three additional duty days to provide a new statement or supplement the response that I had already submitted. Up until the receipt of the redacted CDI ROI, I felt like I had been attacked with no opportunity to provide full context to the allegations because no sources, evidence or reports had been provided to me or my attorney. Upon review of the redacted CDI ROI report, significant areas were heavily redacted and made it near impossible for me to refute any of the statements and allegations against me contained in the report. The redactions did not enable me to determine who made the statements. I could not refute a statement/allegation if I did not know who stated it, as attributing statements to the wrong individual(s) would be improper and unfair to them.
